

Content

CHAPTER 1 7

General introduction

CHAPTER 2 31

Comparative study on the large-scale intensive culture of pikeperch (*Sander lucioperca*) larvae: Evaluation of two different live exogenous food options

CHAPTER 3 45

Effect of bicultural rearing of pikeperch (*Sander lucioperca*) and Russian sturgeon (*Acipenser gueldenstaedtii*) on growth and fish condition parameters in RAS

CHAPTER 4 59

Effects of species composition on growth and rearing efficiency in juvenile pikeperch (*Sander lucioperca*) and Eurasian perch (*Perca fluviatilis*) reared alone and together in RAS

CHAPTER 5 73

Effect of graded levels of dietary ascorbic acid on the metabolic and redox modulation of intensively reared pikeperch (*Sander lucioperca*)

CHAPTER 6 87

Technological approaches to grow-out: A comparative study of pikeperch (*Sander lucioperca*) culture in three production systems during the growing season

CHAPTER 7 103

Stocking density effects on growth and physiological responses of pikeperch (*Sander lucioperca*) reared in in-pond raceways

CHAPTER 8 115

General discussion 117
