Preface	V
-------------------	---

Fundamentals of Brain Slices

Teyler, T.J. (Rootstown, Ohio): The Introduction of Brain Slices to Neurophysiology	1
DiScenna, P. (Rootstown, Ohio): Method and Myth in Maintaining Brain Slices .	10
Tseng, M.T.; McClure, G.D., Jr.; Jackson, C.B.; Schurr, A. (Louisville, Ky.): Functional Morphology of the Hippocampal CA1 Subfield	22
Schurr, A.; West, C.A.; Tseng, M.T.; Reid, K.H.; Rigor, B.M. (Louisville, Ky.): The Role of Glucose in Maintaining Synaptic Activity in the Rat Hippocampal Slice Preparation	39

Metabolic Studies in Brain Slices

Lipton, P. (Madison, Wisc.): Measurement of Protein Synthesis in Hippocampal Slices: in vitro versus in vivo	45
Whittingham, T.S. (Cleveland, Ohio): Metabolic Studies in the Hippocampal Slice Preparation	59
Sick, T.J. (Miami, Fla.); LaManna, J.C. (Cleveland, Ohio); Hollinden, G.; Rosenthal, M. (Miami, Fla.): Optical Studies of Metabolism and Intracellular Ion Homeostasis in the Hippocampal Slice	70
Cohn, M.L.; Cohn, S.J.; Waxman, B.D.; Delaney, T.; Machado, A.F.; Cohn, M. (Los Angeles, Calif.): Effects of Morphine on Cyclic GMP Metabolism: A Study in Rat Cerebral Cortex and Cerebellum	81

Brain Slices in the Study of Brain Damage

Somjen, G.G.; Aitken, P.G.; Balestrino, M.; Schiff, S.J. (Durham, N.C.): Uses and Abuses of in vitro Systems in the Study of the Pathophysiology of the Central Nervous System	89
--	----

Kass, I. S. (Brooklyn, N.Y.): The Hippocampal Slice: An in vitro System for Studying Irreversible Anoxic Brain Damage	105
Reid, K. H. (Louisville, Ky.): Ion Changes Associated with Transient Hypoxia in the Hippocampal Slice Preparation	118
Schurr, A.; Rigor, B. M. (Louisville, Ky.): The Hippocampal Slice Preparation in the Study of Brain Protection against Hypoxia	129
Reid, K. H.; Schurr, A.; West, C. A. (Louisville, Ky.): Effects of Duration of Hypoxia, Temperature and ACSF Potassium Concentration on Probability of Recovery of CA1 Synaptic Function in the in vitro Rat Hippocampal Slice	143
Balestrino, M.; Somjen, G. G. (Durham, N.C.): Effects of CO ₂ and Interstitial pH Changes on Synaptic Transmission in CA1 Region of Rat Hippocampus in vitro	147
Pellmar, T. C.; Tolliver, J. M. (Bethesda, Md.): Effects of Ionizing Radiation on Hippocampal Excitability	152

Basic Science of Brain Slices

Segal, M. (Rehovot): Large Inhibitory Postsynaptic Potentials Evoked in Hippocampal Neurons by 4-Aminopyridine	157
Teyler, T. J. (Rootstown, Ohio): Long-Term Potentiation	168
Novak, J. L.; Wheeler, B. C. (Urbana, Ill.): Epileptiform Activity Recorded Simultaneously at Multiple Sites on the Surface of a Hippocampal Slice with a Planar Microelectrode Array	177
Ashton, D.; Willems, R.; De Prins, E.; Wauquier, A. (Beerse): The Pharmacology of Anticonvulsants: Studies of Epileptiform Activity in the Hippocampal Slice Preparation	184
Subject Index	189
