

CONTENTS

INTRODUCTION	5
1 REVIEW OF CURRENT KNOWLEDGE	7
1.1 The HLA system and its significance	7
1.2 HLA and disease	10
1.3 HLA and malignant tumours.	14
1.4 HLA and familial studies	17
2 METHODS	20
2.1 Methodology of HLA products identification	27
2.2 Statistical evaluation	27
2.3 The pitfall of ascertaining the HLA — disease association	28
3 OUR OWN MATERIAL.	30
3.1 HLA and Wilms' tumour	31
3.2 HLA and neuroblastoma	37
3.3 HLA and neurofibromatosis (Recklinghausen's disease)	40
3.4 HLA and germinal tumours of different localization	46
3.5 HLA and haemangioma	57
3.6 HLA and mammary gland carcinoma	58
4 THE RELEVANCE OF RESEARCH INTO THE HLA — CANCER ASSOCIATION AND CONCLUSION ARISING FROM THE PRESENT STUDY	65
5 SUMMARY	68
