

Introduction	7
1. Pedagogical and psychological aspects of developing creative skills	10
1.1 Cognitive mechanisms of creativity	11
1.1.1 Generating solutions	12
1.1.2 Evaluation and selection of solutions	14
1.1.3 Integration of solutions	15
1.1.4 Conditions for cognitive performance	16
1.2 Personality dispositions for creativity	17
1.3 Social and psychological conditions for creativity	19
1.4 Technical creativity in primary school environment	21
1.4.1 The creative process in technical activities	24
2 Professional training of primary school teachers for technical education	32
2.1 Students' subject-specific self-efficacy during their studies	34
2.1.1 Requirements on the professional competences of primary school teachers	35
2.2 Subjective theory of technical creativity	40
2.2.1 Teachers' implicit pedagogical knowledge in a pedagogical-psychological context	42
2.3 Types of teachers according to their approach to technical creativity	44
3 Learning tasks contributing to the development of technical creativity in primary school	51
3.1 Problems and barriers to the development of technical creativity from the perspective of teachers	56
3.2 Methods for developing pupils' technical creativity	61
3.3 Types of tasks developing pupils' creativity	66

4 Research into teachers' approaches to technical creativity in primary school practice	72
4.1 Research problem	72
4.1.1 Definition of categories and aspects	73
4.1.2 Research questions and research objectives	76
4.1.3 Hypotheses	78
4.2 Research design	79
4.2.1 Research tool	79
4.3 Research sample	83
4.3.1 Ethical aspects of research	85
4.4 Results of data analysis	85
4.4.1 Characteristics of the respondent profile	86
4.4.2 Descriptive data analysis	91
4.4.3 Comparative data analysis	108
4.4.4 Cluster analysis of data	127
4.5 Research findings in the context of current knowledge	144
4.5.1 Determinants influencing the implementation of technically oriented creative tasks	146
4.5.2 Categories influencing teachers' approach to technical creativity	149
4.5.3 Typology of teachers in terms of their approach to technical creativity	153
5 Recommendations for supporting the development of technical creativity in primary schools	156
5.1 Personality dispositions for technical creativity	158
5.2 Didactic conditions for technical creativity	163
5.3 Material resources	168
5.4 Cultural and social conditions	172
