

CONTENTS

1. INTRODUCTION TO TRANSPORT.....	5
1.1 Subject of transport	5
1.2 Transport history	7
1.3 Transport and logistics.....	9
1.4 Transport theory.....	12
1.5 Transport and environment	15
1.6 Law frame in Czech Republic.....	16
1.7 International treaties	16
1.8 Transport Policy of the Czech Republic and European Union.....	19
2. TRANSPORT AND TRANSPORTATION PROCESS.....	35
2.1 Service requirements demand on vehicles	37
2.2 Traffic capacity.....	39
2.3 Transport quality	39
3. TRANSPORTATION AND TRANSPORTATION OUTPUT.....	41
4. TRANSPORT SERVICE.....	45
4.1 Influences with effect on transport service.....	46
4.2 Transportation service demand and citizens' mobility	47
4.3 Transportation demand	48
4.4 Information systems for transport service	49
4.5 Transition points and multimodal terminal in EU	50
4.6 Basic area of traffic control.....	52
5. SELECTED AGGREGATES.....	53
5.1 Marginal transportation distance	53
5.2 Technological indicators in road transport.....	53
5.2.1 Indicators of goods transport.....	54
5.2.2 Operating indicators in passenger transport.....	58
5.3 Speeds of transport	60
6. RAILWAY TRANSPORT TECHNOLOGY.....	64
6.1 Characteristics of railway transport	64
6.2 Railway transport process	71
6.2.1 Wagons	71
6.2.2 Tractive vehicles.....	73
6.2.3 Trains.....	74
6.3 Timetable.....	76
6.3.1 Background for construction of TT - quantitative standards	78
6.3.2 Background for construction of TT - time standards.....	79

6.3.3	<i>Aids for TT</i>	82
6.3.4	<i>Time table indicators</i>	85
6.4	Capacity of railway network	85
6.5	Railway lines and stations	86
6.5.1	<i>Technological procedures in railway stations</i>	89
6.5.2	<i>Tracks in the stations</i>	93
6.5.3	<i>Signals in the railway stations</i>	94
6.5.4	<i>Railway interlocking</i>	95
6.5.5	<i>Disposal for freight transportation</i>	96
6.5.6	<i>Dispatching management of railway traffic operation</i>	99
6.6	Information and control systems in railway transport	101
7.	ROAD TRANSPORT TECHNOLOGY	111
7.1	Road transport characteristics	111
7.2	Key technological indicators	113
7.3	Road network	115
7.4	Road vehicles	119
7.5	Operative road transport management	122
7.5.1	<i>Operative management of road cargo transport</i>	122
7.5.2	<i>Operative management of road passenger transport</i>	125
7.6	Traffic streams	127
7.7	Information and control systems in road transport	128
8.	WATER TRANSPORT TECHNOLOGY	131
8.1	Water transport characteristics	131
8.2	Infrastructure of water transport	132
8.3	Ports	137
8.4	The maritime shipping	139
8.5	Vessels	143
8.5.1	<i>Cargo ship categories</i>	143
8.5.2	<i>Passenger boats</i>	144
8.5.3	<i>Cargo ships</i>	146
8.5.4	<i>Sailing conditions</i>	151
8.6	Information and control systems in water transport	151
9.	AIR TRANSPORT TECHNOLOGY	153
9.1	The Characteristic of the Air Transport	153
9.2	Transport process	156
9.2.1	<i>Airport</i>	156
9.2.2	<i>Air services</i>	161
9.2.3	<i>Aviation</i>	164
9.2.4	<i>Aircraft</i>	167

9.3	Air Cargo Transport	169
9.4	Czech avionic infrastructure and airlines.....	171
9.5	Information and control system in the Air Traffic	172
9.6	The International Organizations in the Air Traffic.....	175
10.	INTERMODAL TRANSPORT TECHNOLOGY	177
10.1	Definition.....	177
10.2	Division of intermodal transport.....	178
10.3	Importance of intermodal transport	181
10.4	Ecology and intermodal transport	182
10.5	Intermodal transport systems	184
10.6	Infrastructure of intermodal transport.....	188
10.7	Intermodal transport terminal.....	190
10.8	Reloading mechanisms	195
10.8.1	<i>Vertical reloads and facilities for vertical reloading</i>	195
10.8.2	<i>Horizontal reload and equipment for horizontal reloading</i>	198
10.8.3	<i>Reloading mechanisms</i>	200
10.8.4	<i>Crane gantries</i>	200
10.8.5	<i>Container carrier – rubber tyred mobile reloading mechanisms</i>	203
11.	LOGISTIC TECHNOLOGY.....	207
11.1	Infrastructure and Technology	207
11.2	Freight Distribution and Network Strategie.....	210
12.	PUBLIC TRANSPORT TECHNOLOGY.....	213
12.1	Characteristics of city public transport	214
12.2	Designing routes of public transport.....	217
12.3	Operations management of urban public transport	219
12.4	Systems and subsystems of mass public transport.....	221
11.3	Integrated transport systems	227
13.	LITERATURE	232
