Scientific committee members and guest contributors	xi
Addresses of first-named contributors	xv
Editors' Preface	xvii

MACROANGIOPATHY

1. Macrovascular disease in diabetes mellitus	3
<i>H. Keen</i>	
2. Excess mortality in diabetes	13
<i>P. Micossi, G. Gallus & G. Pozza</i>	
3. Serum lipoproteins and atherosclerosis in Type 1 and Type 2 diabetes . .	25
<i>M.-R. Taskinen, T. Kuusi & E. A. Nikkilä</i>	
4. Diabetic cardiopathy	37
<i>R. Nosadini, C. Vigorito & G. Crepaldi</i>	
5. Hypertension and diabetes: a poorly understood relationship	43
<i>K. Pyörälä, M. Uusitupa & M. Laakso</i>	

RETINOPATHY

6. Pathogenic mechanisms in the development of diabetic retinopathy	55
<i>E. M. Kohner</i>	
7. Blood glucose control and diabetic retinopathy	65
<i>T. Segato & E. Midena</i>	
8. Methods to quantify diabetic retinopathy: structural and functional	77
<i>G. H. Bresnick</i>	

9. Diabetic macular edema. Diagnosis and treatment 93
J. G. Cunha-Vaz
10. The treatment of diabetic retinopathy 103
R. Brancato & F. Bandello

NEUROPATHY

11. New trends in the etiopathogenesis of diabetic neuropathy 115
R. S. Clements, Jr
12. The role of metabolic control in the onset and development of diabetic neuropathy 123
D. Porte, Jr
13. New methodological approaches in the diagnosis of autonomic neuropathy 131
D. J. Ewing
14. Central nervous involvement in diabetic patients 145
G. Comi & A. Martini
15. Clinical aspects of peripheral neuropathies in diabetes 155
N. Canal & G. Pozza
16. Current management of diabetic autonomic neuropathy 167
D. Fedele, F. Bellavere & C. Cardone
17. Vascular and neural damage in the diabetic foot 177
J. D. Ward
18. Diagnosis and treatment of autonomic neuropathy of the gastrointestinal tract 185
G. Menzinger & M. G. Felici
19. Treatment of diabetic somatic neuropathies 197
G. Crepaldi & D. Fedele

NEPHROPATHY

20. Diabetic vascular disease: an integrated view 213
J. R. Williamson, K. Chang, R. G. Tilton & C. Kilo

21. The evolution of diabetic nephropathy	223
<i>M. W. Steffes, J. M. Basgen & S. M. Mauer</i>	
22. Non-enzymic glycation of glomerular basement membrane: biochemical and immunological modifications in diabetic nephropathy	233
<i>U. Di Mario, M. Sensi, P. Pozzilli & D. Andreani</i>	
23. Influence of metabolic control on the development of diabetic nephropathy	247
<i>S. Gambardella, G. Pugliese & D. Andreani</i>	
24. Proteinuria, an indicator of malignant angiopathy	257
<i>T. Deckert, B. Feldt-Rasmussen, K. Borch-Johnsen, T. Jensen, L. Bent-Hansen & A. Kofoed-Enevoldsen</i>	
25. Hypertension and diabetic nephropathy. Notes on screening, diagnosis and treatment with emphasis on insulin-dependent patients	263
<i>C. E. Mogensen</i>	
26. Diabetic nephropathy: identification and treatment of the susceptibles . .	283
<i>G. Viberti & R. Mangili</i>	
27. Current status of kidney and pancreas transplantation in uremic diabetic patients	293
<i>G. Pozza & V. Di Carlo</i>	
Index	303
