

TABLE OF CONTENTS

Foreword	
L. Tomatis.....	vii
Introduction	
The Editors.....	ix
List of Participants.....	xi

MODELS AND MECHANISMS OF SKIN TUMOUR PROMOTION

On the role of tumour promotion in chemical carcinogenesis	
R.K. Boutwell.....	3
Stages of tumour promotion in skin	
F. Marks & G. Fürstenberger.....	13

MODELS AND MECHANISMS OF LIVER TUMOUR PROMOTION

Alterations of markers during hepatocarcinogenesis in rats	
K. Lapis, E. Ujhelyi, M. Gyenes & A. Jeney.....	25
Relationship of histochemically detectable altered hepatocyte foci to hepatic tumorigenesis	
C. Peraino, E.F. Staffeldt, B.A. Carnes, V.A. Ludeman, J.A. Blomquist & S.D. Vesselinovitch.....	37
Initiation-promotion-initiation. Induction of neoplastic foci within islands of precancerous liver cells in the rat	
E. Scherer, A.W. Feringa & P. Emmelot.....	57
Aberrant expression of adaptation to phenobarbital may cause selective growth of foci of altered cells in rat liver	
R. Schulte-Hermann, I. Timmermann-Trosiener & J. Schuppler.....	67
Promoting effect of phenobarbital on <i>N</i> -bis(2-hydroxypropyl)nitrosamine thyroid tumorigenesis in rats. Effect of varying duration of exposure to phenobarbital	
Y. Hiasa, Y. Kitahori, N. Konishi, N. Enoki & T. Fujita.....	77
The mechanism of cocarcinogenic action of ethanol in rat liver	
M. Schwarz, A. Buchmann, M. Moore & W. Kunz.....	83

TUMOUR PROMOTION IN OTHER ORGANS

Urinary bladder carcinogenesis	
S.M. Cohen, R. Hasegawa, R.E. Greenfield & L.B. Ellwein.....	93
Studies on the action of tumour promoters and antipromoters on respiratory-tract epithelium	
P. Nettesheim, J.C. Barrett, M.J. Mass, V.E. Steele & T.E. Gray.....	109
The effect of promoters on 1,2-dimethylhydrazine-induced colon carcinogenesis	
O. Csuka, Z. Szentirmay & J. Sugár.....	129

MEMBRANE INTERACTION OF TUMOUR-PROMOTING AGENTS

Analysis of membrane and cytosolic phorbol ester receptors	
P.M. Blumberg, B. König, N.A. Sharkey, K.L. Leach, S. Jaken & A.Y. Jeng.....	139
A phorbol ester-binding inhibitory factor from human placenta. Partial purification, characterization and biological effects	
E. Hamel, H. Yamasaki & J.L. Tayot.....	157
Specific lipid components in membrane receptors of 12- <i>O</i> -tetradecanoylphorbol-13-acetate as revealed by direct photoaffinity labelling	
M. Hergenhausen & E. Hecker.....	165
Membrane-mediated responses to 12- <i>O</i> -tetradecanoylphorbol-13-acetate in human skin fibroblasts	
A.R. Kinsella, A.D. Whetton, E. de Wynter, G.W. Bazill, C.M. Heyworth & M.D. Houslay.....	177

CELLULAR RESPONSE TO TUMOUR-PROMOTING AGENTS

Mechanisms of initiation and promotion in mouse epidermis	
S.H. Yuspa.....	192
Role of specific membrane and genetic changes in the mechanism of tumour promotion. Studies with promoter-resistant variants	
N.H. Colburn, L. Srinivas, G.A. Hegamyer, L.D. Dion, E.J. Wendel, M. Cohen & T.D. Gindhart.....	205
Intercellular communication, cell differentiation and tumour promotion	
H. Yamasaki, T. Enomoto & N. Martel.....	217
The use of in-vitro assays to study and to detect tumour promoters	
J.E. Trosko, C. Jone & C.C. Chang.....	239
Interaction of phorbol derivatives with replicating cells	
V. Kinzel, G. Fürstenberger, J. Richards, K. Goerttler, H. Loehrke & F. Marks.....	253
Effect of 12- <i>O</i> -tetradecanoylphorbol-13-acetate on selection of drug-resistant phenotypes in rodent cells	
F. Bojan, A.R. Kinsella & M. Fox.....	265

INTERACTION OF TUMOUR PROMOTERS WITH HOST GENES, VIRUSES AND THE IMMUNE SYSTEM

Initial cellular targets and eventual genomic changes in multistage carcinogenesis	
I.B. Weinstein, S. Gattoni-Celli, P. Kirschmeier, M. Lambert, W. Hsiao, J. Backer & A. Jeffrey.....	277
Enhancement of primate retrovirus synthesis by tumour promoters	
V. Wunderlich, G. Sydow & L. Baumbach.....	299
Interaction of tumour-promoting agents with immunofunctional cells <i>in vitro</i> and <i>in vivo</i>	
C.S. Baxter, R.A. Schoof & A.T. Lawrence.....	305
Stimulation of macrophage activity by 12- <i>O</i> -tetradecanoylphorbol-13-acetate	
D. Gerns, U. Staar, W. Grimm, G. Hausmann, C.F. Körner, K. Resch & P.H. Krammer.....	319

MODELS OF MULTI-STAGE CARCINOGENESIS IN EPIDEMIOLOGY

Epidemiological data and multistage carcinogenesis	
N.E. Day.....	339
Early- and late-stage carcinogenesis in mouse skin and in man	
J. Peto.....	359
Multistage and multifactorial carcinogenesis in hereditary tumours, with special reference to retinoblastoma	
E. Matsunaga.....	373
Oestrogens and the etiology and clinical course of breast cancer	
R.D. Bulbrook, J.W. Moore, D.Y. Wang & G.M.G. Clark.....	385

EXPERIMENTAL MODELS TO STUDY ETIOLOGICAL FACTORS IN MULTI-STAGE CARCINOGENESIS

Drugs, food additives and natural products as promoters in rat urinary bladder carcinogenesis	
N. Ito, S. Fukushima, T. Shirai, A. Hagiwara & K. Imaida.....	399
5-Azacytidine. Promoting activity for rat hepatocellular carcinoma	
B.I. Carr, J.G. Reilly & A.D. Riggs.....	409
Influence of ethyl alcohol on carcinogenesis induced with <i>N</i> -nitrosodiethylamine	
L. Griciūte, M. Castegnaro & J.-C. Béréziat.....	413

ETIOLOGY OF HUMAN MULTI-STAGE CARCINOGENESIS

Initiation and promotion actions of ultraviolet radiation on malignant melanoma	
J.M. Elwood.....	421

Cocarcinogens of the tumour-promoter type as potential risk factors of cancer in man. A first complete experimental analysis of an etiological model situation and some of its consequences	
E. Hecker.....	441
Agriculturally-related carcinogenic risk	
M. Börzsönyi, G. Török, A. Pintér & A. Surján.....	465
Drugs and environmental chemicals as promoters	
H. Greim, E. Deml & D. Oesterle.....	487

INHIBITION OF TUMOUR PROMOTION

Can tumour promotion be effectively inhibited?	
T.J. Slaga.....	497

CONCLUDING REMARKS

Concluding remarks and future perspectives	
E. Hecker.....	509
