Preface.	VII
------------------	-----

Autoimmunity

Newkirk, M.; Capra, J.D. (Dallas, Tex.): Cross-Idiotypic Specificity among Human Rheumatoid Factors	1
Chen, P.P.; Fong, S. (La Jolla, Calif.); Goni, F. (New York, N.Y.); Houghten, R.A. (La Jolla, Calif.); Frangione, B. (New York, N.Y.); Liu, F.-T.; Carson, D.A. (La Jolla, Calif.): Analyses of Human Rheumatoid Factors with Antiidiotypes Induced by Synthetic Peptides	12
Mageed, R.A.; Jefferis, R. (Birmingham): Molecular Specificity and Idiotypy of Human Rheumatoid Factors	24
Davidson, A.; Shefner, R.; Diamond, B. (Bronx, N.Y.): Studies on the Role of Somatic Mutation in the Generation Anti-DNA Antibodies	31
Manheimer-Lory, A.J.; Monestier, M.; Bellon, B.; Bona, C.A. (New York, N.Y.): Autoantibodies: Restricted Use of V _H Gene Families and Idiotypic Cross-Reactivity	38
Zanetti, M.; Glotz, D.; Rogers, J. (La Jolla, Calif.); Meek, K.; Hasemann, C. (Dallas, Tex.): Autoimmune Network	46
Lefvert, A.K. (Stockholm): Idiotypes and Anti-Idiotypes of Human Autoantibodies to the Acetylcholine Receptor in Myasthenia Gravis	57
Holmdahl, R.; Tarkowski, A.; Nordling, C.; Rubin, K.; Klareskog, L. (Uppsala): Connection between Autoimmunity to Cartilage Type II Collagen and Rheumatoid Factor Production	71
Tron, F.; Jacob, L.; Bach, J.-F. (Paris): Idiotypic Analysis and Suppression of Autoantibodies to DNA in (NZB × NZW) F1 Mice	81
Taussig, M.J.; Deverson, E.; Ellis, S.; Brown, N.; Wang, M.-W.; Heap, R.B.; Feinstein, A. (Cambridge): Anti-Progesterone Antibodies: Specificity, Structure, Idiotypes and Anti-Idiotypic Manipulation	89
Guery, J.C.; Druet, E.; Glotz, D.; Hirsch, F.; Kuhn, J.; Lymbery, P.; Druet, P. (Paris): Idiotypes of Autoantibodies in Mercury-Induced Autoimmunity in the Rat.	99

Infectious and Parasitic Diseases

Meek, K.; Jeske, D. (Dallas, Tex.); Alkan, S. (Basel); Urbain, J. (Bruxelles); Capra, J.D. (Dallas, Tex.): Structural Characterization of Syngeneic and Allogeneic Anti-Idiotypic Antibodies in the Anti-Arsonate System	109
Greene, M.I. (Philadelphia, Pa.; Co, M.S. (Boston, Mass.): Shared Structural Features of an Internal Image Bearing Monoclonal Anti-Idiotypic and the External Antigen	120

Kieber-Emmons, T.; McNamara Ward, M.; Ward, R.E.; Kohler, H. (Buffalo, N.Y.): Structural Considerations in Idiotypic Vaccine Design	126
Sigal, N.H. (Rahway, N.J.); Chan, M. (Toronto, Ont.); Reale, M.A.; Moran, T.; Schulman, J.L.; Bona, C.A. (New York, N.Y.): Idiotypic Analysis of the Influenza Virus-Specific Human B Cell Repertoire.	134
Schulman, J.L.; Moran, T.M.; Reale, M.; Beilin, Y. (New York, N.Y.); Sigal, N. (Rahway, N.J.); Bona, C.A. (New York): Effects of Immunization with Syngeneic Monoclonal Anti-Idiotypic Antibody on Antibody Responses to Influenza Viruses	143
Colucci, G.; Waksal, S.D. (New York, N.Y.): Anti-Idiotypic Antibodies as Probes in the Study of the Pathogenesis of Type B Hepatitis	150
Osterhaus, A.; Wagenaar, J. (Bilthoven); Weijer, K. (Amsterdam); UytdeHaag, F. (Bilthoven): Idiotypic Networks in the Immune Response to Feline Leukemia Virus.	158
Sacks, D.L. (Bethesda, Md.): Immunization against Parasitic Protozoa Using Anti- Idiotypic Antibodies	166
Grzych, J.-M. (Lille); Del Giudice, G. (Geneva); Capron, M.; Capron, A. (Lille); Lambert, P.-H. (Geneva): Can Anti-Idiotypic Vaccine Help to Circumvent Parasite Escape Mechanisms?	172

Tumors

Koprowski, H. (Philadelphia, Pa.): Significance of Anti-Idiotypic Antibodies in Cancer Patients	180
Stevenson, F.K.; George, A.J.T.; Tutt, A.L.; Glennie, M.J.; Stevenson, G.T. (Southampton): Involvement of Innate and Induced Anti-Idiotypic Mechanisms in Suppression of B Cell Tumors	184
Levy, R.; Levy, S.; Brown, S.L.; Kon, S.; Carroll, W. (Stanford, Calif.): Anti- Idiotypic Antibodies Reveal the Existence of Somatic Mutation in Human B Cell Lymphoma	194
Lynch, R.G.; Mathur, A.; Van Ness, B. (Iowa City, Iowa): Experimental Regulation of Immunoglobulin Synthesis and Secretion in Plasmacytoma and Hybridoma Cells Hellström, K.E.; Lee, V.; Nelson, K.; Hellström, I. (Seattle, Wash.): Induction and Analysis of Tumor Immunity Using Anti-Idiotypic Antibodies	212
Dunn, P.L.; Johnson, C.A.; Styles, J.M.; Dean, C.J. (Surrey): Humoral Immunity to Rat Sarcomata Induced by Syngeneic Monoclonal Antiidiotypic Antibody	222
Seligmann, M. (Paris): Idiotypes and Human Lymphoid Neoplasias: Concluding Remarks	225

In Memoriam

Cazenave, P.A. (Paris): Jacques Oudin.	233
Capra, J.D. (Dallas, Tex.): Henry G. Kunkel.	237
Subject Index	241
