Introduction xv

Acknowledgments xvii

1 Methods for Analyzing Failures 1

- 1.1 Mathematical Modeling 2
- 1.2 Methods for Solving Problems 4
 - 1.2.1 The Scientific Method 4
- 1.3 The Crack Growth Equation 5
- 1.4 Failure of Carbon Fibers in Compressive Fatigue 7
- 1.5 Failure of Carbon Fiber, Titanium, and Steel in Compressive Fatigue 8
- 1.6 Cycles to Failure for Carbon Fiber Laminate and Stainless Steel 10
 - 1.6.1 Summary 11
- 1.7 Ockham's Razor 12

2 Industrial Mechanical Equipment Failures 13

- 2.1 Failure in a Large Stirred Processing Reactor 13
 - 2.1.1 Hydraulic Cyclic Force on Support Bolting and Support Plate 15
 - 2.1.2 Product Chunk Impact on Support 16
 - 2.1.3 Summary 18
- 2.2 Stress on Spline Shaft Due to Extruder Wear 19
 - 2.2.1 Summary 20
- 2.3 Ship Propeller Impact Damage 20
 - 2.3.1 Summary 23
- 2.4 How a Turbojet Aircraft Engine Works and Fails 23
- 2.5 Failure of a G.E. CF-6-6 Turbofan Disk on a DC-10 25
 - 2.5.1 Summary 28
- 2.6 Loss of a Turbofan Blade 28
 - 2.6.1 Summary 30

3	Industrial Vibration Failures	33
3.1	An Actual Aircraft Engine-Gearbox-Propeller Torsional System	33
3.1.1	Summary	37
3.2	Coupling Failure: Motor-Gearbox-High Speed Compressor System	38
3.2.1	Summary	41
3.3	Slip-stick Phenomena	41
3.4	Windshield Wiper Chatter Problem	43
3.4.1	Summary	45
3.5	Catastrophic Failure of a Vibrating Centrifuge Deck	45
3.5.1	Summary	47
4	Catastrophic Implosion of the Deep Sea Submersible Titan	49
4.1	Titan Deep Diving Vessel Implosion	49
4.2	Evidence from Titan Debris	53
4.3	The Titan Submersible Design	53
4.3.1	Summary	55
5	Potential Earth Catastrophes	57
5.1	What Is the Chance the 2029 Asteroid Apophis Will Impact Earth?	57
5.1.1	Summary	59
5.2	What Damage Would an Asteroid Impact Such as Apophis Cause?	60
5.2.1	Summary	61
5.3	What If the Chelyabinsk Meteor Had Impacted Earth?	63
5.3.1	Summary	63
5.4	Preventing an Asteroid from Impacting Earth	63
5.4.1	Summary	66
5.5	The Damage Potential of Solar Flares	66
6	Flight Dynamics and Major Disasters	69
6.1	How Does an Aircraft Fly?	69
6.1.1	Summary	70
6.1.2	Summary	70
6.2	Stalls and Flat Spins and Crash of Flight 2283	71
6.2.1	Summary	72
6.3	How Can a Drone Helicopter Fly on Mars?	73
6.3.1	Summary	74
6.4	Disappearance of Malaysian Flight MH 370	75
6.4.1	Summary	76
6.5	Why Did the Nose Wheel Collapse on a Boeing 767?	77
6.6	What Happened to the Space Shuttle Columbia?	78
6.6.1	Summary	80

6.7	Why Did the Door Blow Out of a Boeing 737 Max 9?	80
6.7.1	Summary	82
6.8	Why Did Hail Destroy the Nose of an Airbus 320?	83
6.8.1	Summary	85
6.9	Damage Due to Tire Falling Off Boeing 777 Aircraft	86
6.9.1	Summary	87
6.10	How Does a Hummingbird Fly?	87
6.10.1	Summary	88
6.11	How Do Fish Swim?	88
6.11.1	Summary	90
6.12	Tourism Helicopter Crashes into Hudson River	90
6.12.1	Summary	91
6.13	More Data on the Crash of Bell 206L into the Hudson	92
6.13.1	Summary	94
6.14	Air India Flight 171 Crash	94
6.14.1	Summary	95
7	Impact Disasters	97
7.1	Average and Peak Impact Force	97
7.1.1	Summary	98
7.2	Examining the Head-on Impact of Two Vehicles	99
7.2.1	Summary	101
7.3	Design Use of the Head-on Impact Equation	102
7.4	Can a Water Filled Membrane Bag Be Used as a Safety Device?	102
7.4.1	Summary	105
7.5	What Happens When a Turkey Vulture Hits a Car?	105
7.5.1	Summary	106
7.6	High Speed Closing Mechanism	106
7.6.1	Summary	108
7.7	Analyzing the Force of a Sudden Impact	108
7.7.1	Summary	109
7.8	Getting Hit on the Head with a Beer Bottle	110
7.8.1	Summary	112
7.9	Deep Penetrating Bomb	113
7.9.1	Summary	115
7.10	Precision Immobility Technique or (PIT)	116
7.10.1	Summary	118
8	Structural Failures	119
8.1	What Causes Tower Cranes to Collapse?	119
8.2	Walkway Collapse	121

8.2.1	Summary	122	
8.3	Bridge Collapse with Ship Impact	122	
8.3.1	Summary	123	
8.4	Collapse of Electrical Power Transmission Towers	123	
8.4.1	Summary	125	
8.5	The Progressive Failure Collapse of Structurally Deficient Buildings	126	
8.5.1	Summary	127	
8.6	High-voltage Tower Failures and Vortices	127	
8.6.1	Summary	128	
8.7	Are Swaying Skyscrapers Dangerous?	129	
8.7.1	Summary	132	
9	Concerns Relating to Heat Transfer	133	
9.1	Elevated Temperature in a Vehicle	133	
9.1.1	Summary	134	
9.2	How Long Should It Take to Heat My Home?	134	
9.2.1	Summary	137	
9.3	Fireplace Heat Transfer	137	
9.3.1	Summary	138	
9.4	Raising the Air Temperature of a Room with a Gas Fireplace	139	
9.4.1	Summary	139	
10	Catastrophic Explosions	141	
10.1	Can a Kitchen Full of Natural Gas Destroy a Home?	141	
10.1.1	Summary	142	
10.2	Would the Home Water Heater Explode?	142	
10.2.1	Summary	144	
10.3	Would the Pressure Cooker Actually Explode?	145	
10.3.1	Summary	146	
10.4	How Does an Underground Pipeline Explode?	146	
10.4.1	Summary	148	
10.5	Explosive Effect of a Volume of Enclosed Vapor	148	
10.5.1	Summary	149	
11	Natural Disasters	151	
11.1	How Are Tornadoes Formed?	151	
11.1.1	Summary	152	
11.2	Force of a Tornado	152	
11.2.1	Summary	153	
11.3	How Are Hurricanes Formed?	155	

11.3.1	Summary	157
11.4	The Effect of a Hurricane's Storm Surge	158
11.4.1	Summary	159
11.5	Determining a Hurricane's Path	159
11.5.1	Summary	162
11.6	The Lateral Sliding and Vertical Uplift Earthquake Models	162
11.6.1	Summary	165
11.7	Yellowstone Caldera Is Rising, When Will It Erupt?	166
11.7.1	Summary	169
11.8	Why the Yellowstone Caldera Plate Surface Doesn't Get Hot	170
11.9	The Next Great Tsunami	171
11.9.1	Summary	173
11.10	What Causes Straight-line Wind Damage?	173
11.11	Will the Tilting Tree Uproot?	174
11.11.1	Summary	176
11.12	Why Didn't the Tree Limb Break?	176
11.12.1	Summary	178
11.13	Why Did the Tree Splinter in a Hurricane?	178
11.13.1	Summary	181
11.14	Some Final Thoughts About Trees	182
11.14.1	Summary	183
12	Catastrophes Relating to Flooding Disasters	185
12.1	A Simple Explanation of Flooding Using a Bathtub Analogy	185
12.2	Why Didn't My Home Flood?	188
12.2.1	Summary	192
12.3	Why Does Lake Houston Rise Above the Spillway?	193
12.3.1	Summary	195
12.4	Kingwood Texas Flooding May 1-3, 2024	195
12.4.1	Summary	196
12.5	What Caused the Street to Flood	196
12.5.1	Summary	199
12.6	Sudden Flooding of Kingwood Drive	199
12.6.1	Summary	200
12.7	Catastrophic Flooding of a River	201
12.7.1	Summary	202
13	Probabilities	203
13.1	Are We All Alone in the Universe?	204
13.2	What Is the Probability of a Piece of Machinery Failing This Year?	
13.2.1	Reciprocating Gas-engine Compressors Failures	206

13.2.2	Pressure Vessels, Piping, Steam Boiler Failures	206	
13.2.3	Other Types of Machinery Failures	207	
13.2.3.1	Summary	207	
14	Why Question the Ingenuity of Humans?	209	
14.1	How Did the Egyptians Transport 75-ton Granite Stones from the Quarry?	209	
14.1.1	Summary	210	
14.2	How Were the Pyramids Built?	210	
14.2.1	Summary	213	
14.3	How Do the Ancient Move Mega-blocks on Hard Land?	213	
14.3.1	Summary	214	
14.4	Using a Human-powered Crane to Lift Mega-blocks	215	
14.4.1	Summary	216	
14.5	Moving Huge Pyramid Stones by Rolling	216	
14.5.1	Summary	218	
14.6	Moving Large Blocks with Rollers on Rails	218	
14.6.1	Summary	219	
15	Some Unusual Questions Answered	221	
15.1	Why Does a Whip Make a Loud Crack Sound?	221	
15.1.1	Summary	222	
15.2	My Wife's Broken Chair and a Failure Cause	222	
15.2.1	Summary	224	
15.3	Zero Is Equal to One or Mathematics Can Trick You	224	
15.4	Why Won't My Truck Start?	226	
15.4.1	Summary	227	
15.5	Force of a Hardball on a Bat and Hand	228	
15.5.1	Summary	228	
15.6	Why Doesn't My Hand Hurt When I Hit a Nail With a Hammer?	229	
15.6.1	Summary	230	
15.7	Pop-out Strength of High-rise Windows	231	
16	Engineering Equations Used in This Book Explained	233	
16.1	Force Balance	233	
16.2	Inertial Law or Newton's Second Law	233	
16.3	Centrifugal Force	234	
16.4	Potential Energy (PE)	235	
16.5	Kinetic Energy (KE)	235	
16.6	Energy Balances in Mechanical	236	
16.7	Energy Balance in Heat Transfer	236	

16.8	Newton's Law of Universal Gravitation	237
16.9	The Specific Heat Equation	238
16.10	Shear Force and Pressures	239
16.11	Energy Caused by Frictional Rubbing and Shearing	240
16.12	The Momentum Equation and the Conservation of Momentum	241
16.13	Probability of Something Occurring in a Given Time	242
16.14	Developing Tsunami Surface Velocity and Wave Height	242
16.15	A Glancing Hail Strike	244
16.16	Frequency of a Pendulum	245
