

Contents

1	Natural Language Understanding & AI	1
1.1	Introduction	1
1.2	Towards More Reliable AI	4
1.2.1	Multidisciplinarity	6
1.2.2	Task Decomposition	6
1.2.3	Parallel Analogy	7
1.2.4	Symbol Grounding	8
1.2.5	Similarity Measure	10
1.2.6	Intention Awareness	11
1.2.7	Trustworthiness	11
1.3	Towards More Responsible AI	13
1.3.1	Impact of AI on Economy and Humans	14
1.3.2	Towards Human-like Recommender Systems	15
1.3.3	Responsible Recommender Systems	18
1.3.4	What Next	20
1.3.5	Summary	21
1.4	Towards More Personalized AI	22
1.4.1	Literature Review	24
1.4.2	Methodology	27
1.4.3	Experiment	31
1.4.4	Summary	35
1.5	Conclusion	35
1.6	Learning Resources	38
2	Syntactics Processing	41
2.1	Introduction	41
2.2	Microtext Normalization	44
2.2.1	Linguistic Approach	45
2.2.2	Statistical Approach	47
2.2.3	Neural Network Approach	51
2.2.4	Summary	54

2.3	Sentence Boundary Disambiguation	56
2.3.1	Word-based Approach	57
2.3.2	Syntax-based Approach	61
2.3.3	Prosody-based Approach	62
2.3.4	Summary	64
2.4	POS Tagging	67
2.4.1	Tagging Schemas	67
2.4.2	Feature Engineering Approach	68
2.4.3	Deep Learning Approach.....	73
2.4.4	Semi-Supervised Approach.....	75
2.4.5	Summary	78
2.5	Text Chunking	82
2.5.1	Tagging Schemas	83
2.5.2	Feature Engineering Approach	84
2.5.3	Deep Learning Approach.....	90
2.5.4	Summary	93
2.6	Lemmatization	96
2.6.1	Transformation Approach	97
2.6.2	Statistical Transduction Approach	99
2.6.3	Neural Transduction Approach	102
2.6.4	Summary	107
2.7	Conclusion	110
2.8	Learning Resources	111
3	Semantics Processing	113
3.1	Introduction	113
3.2	Word Sense Disambiguation	118
3.2.1	Theoretical Research	119
3.2.2	Annotation Schemes	121
3.2.3	Datasets	121
3.2.4	Knowledge Bases	123
3.2.5	Evaluation Metrics	125
3.2.6	Annotation Tools	126
3.2.7	Methods.....	126
3.2.8	Downstream Applications	131
3.2.9	Summary	133
3.3	Named Entity Recognition	138
3.3.1	Theoretical Research	140
3.3.2	Annotation Schemes	142
3.3.3	Datasets	143
3.3.4	Knowledge Bases	145
3.3.5	Evaluation Metrics	146
3.3.6	Methods.....	148
3.3.7	Downstream Applications	154
3.3.8	Summary	156

3.4	Concept Extraction	161
3.4.1	Theoretical Research	163
3.4.2	Annotation Schemes	164
3.4.3	Datasets	164
3.4.4	Knowledge Bases	167
3.4.5	Evaluation Metrics	168
3.4.6	Annotation Tools	168
3.4.7	Methods	168
3.4.8	Downstream Applications	174
3.4.9	Summary	175
3.5	Anaphora Resolution	180
3.5.1	Theoretical Research	181
3.5.2	Annotation Schemes	183
3.5.3	Datasets	184
3.5.4	Knowledge Bases	187
3.5.5	Evaluation Metrics	188
3.5.6	Annotation Tools	189
3.5.7	Methods	190
3.5.8	Downstream Applications	197
3.5.9	Summary	199
3.6	Subjectivity Detection	203
3.6.1	Theoretical Research	204
3.6.2	Annotation Schemes	206
3.6.3	Datasets	206
3.6.4	Knowledge Bases	209
3.6.5	Evaluation Metrics	210
3.6.6	Annotation Tools	210
3.6.7	Methods	210
3.6.8	Downstream Applications	220
3.6.9	Summary	221
3.7	Conclusion	226
3.8	Learning Resources	227
4	Pragmatics Processing	229
4.1	Introduction	229
4.2	Metaphor Understanding	233
4.2.1	Theoretical Research	234
4.2.2	Annotation Schemes	237
4.2.3	Datasets	238
4.2.4	Knowledge Bases	240
4.2.5	Evaluation Metrics	241
4.2.6	Methods	242
4.2.7	Downstream Applications	249
4.2.8	Summary	251
4.3	Sarcasm Detection	255

4.3.1	Theoretical Research	255
4.3.2	Annotation Schemes	257
4.3.3	Datasets	258
4.3.4	Evaluation Metrics	261
4.3.5	Methods	261
4.3.6	Downstream Applications	268
4.3.7	Summary	270
4.4	Personality Recognition	275
4.4.1	Theoretical Research	276
4.4.2	Annotation Schemes	278
4.4.3	Datasets	279
4.4.4	Evaluation Metrics	281
4.4.5	Methods	281
4.4.6	Downstream Applications	289
4.4.7	Summary	292
4.5	Aspect Extraction	295
4.5.1	Theoretical Research	296
4.5.2	Annotation Schemes	297
4.5.3	Datasets	298
4.5.4	Knowledge Bases	301
4.5.5	Evaluation Metrics	302
4.5.6	Methods	302
4.5.7	Downstream Applications	307
4.5.8	Summary	308
4.6	Downstream Task	314
4.6.1	Theoretical Research	315
4.6.2	Annotation Schemes	317
4.6.3	Datasets	319
4.6.4	Knowledge Bases	320
4.6.5	Evaluation Metrics	321
4.6.6	Methods	321
4.6.7	Downstream Applications	330
4.6.8	Summary	333
4.7	Conclusion	336
4.8	Learning Resources	337
5	Knowledge Representation & Reasoning	339
5.1	Introduction	339
5.2	Background	344
5.2.1	Theory of Conceptual Primitives	344
5.2.2	Challenges	346
5.2.3	Related Works	347
5.3	Overall Framework	352
5.3.1	Task Definition	352
5.3.2	Overall Framework of PrimeNet Construction	353

5.4	Knowledge Graph Construction	355
5.4.1	Commonsense Knowledge Acquisition	355
5.4.2	Knowledge Integration	356
5.4.3	Graph Construction	357
5.4.4	Exploration	358
5.5	Concept Detection	359
5.5.1	Preliminaries	359
5.5.2	Conceptualization	360
5.6	Primitive Discovery	363
5.6.1	Concept Clustering	364
5.6.2	Primitive Detection	366
5.7	Experiments	366
5.7.1	Statistics and Analysis	366
5.7.2	Case Studies	372
5.8	Future Directions	373
5.8.1	Logical Reasoning	374
5.8.2	Implicit Reasoning	375
5.8.3	Neurosymbolic AI	376
5.9	Conclusion	376
5.10	Learning Resources	377
6	Conclusion	379
6.1	Learning Resources	381
6.1.1	Assignment	381
6.1.2	Quiz	385
