Part I General Report

Chapter 1:	Taxing Real Estate (Ownership)	3
	<i>Michal Radvan</i>	
1.1.	Constitutional and theoretical aspects of real estate taxes	4
1.1.1.	Definition of property taxes	5
1.1.1.1.	Property	5
1.1.1.2.	Property tax	6
1.1.2.	Role and function of property taxes	9
1.1.2.1.	Revenue relevance	9
1.1.2.2.	Double taxation issues	12
1.1.3.	Equity and fairness issues in property taxation	13
1.1.3.1.	Equity and fairness in property taxation	13
1.1.3.2.	Tax shelters and tax avoidance structures in property taxation	15
1.1.3.3.	<i>Vacatio legis</i> specifics	15
1.2.	Recurrent real estate tax design	16
1.2.1.	History and basic characteristics	18
1.2.1.1.	Important moments in the history of the recurrent property tax	18
1.2.1.2.	Recurrent property tax as the revenue of local budgets	23
1.2.2.	Recurrent property taxpayers	26
1.2.2.1.	Rent specifics	27
1.2.2.2.	Co-ownership specifics	28
1.2.2.3.	Underage taxpayers	29
1.2.3.	Object of recurrent property taxation	29
1.2.3.1.	Classification of objects of taxation	31
1.2.3.2.	The role of the property cadastre in property taxation	32
1.2.4.	Recurrent property tax base	34

Table of Contents

1.2.4.1.	Revaluation	38
1.2.4.2.	Transition to ad valorem taxation	38
1.2.5.	Recurrent property tax rates	39
1.2.6.	Recurrent property tax correction components	41
1.2.7.	Recurrent property tax administration	45
1.2.8.	Protection of taxpayers	48
1.2.9.	Recurrent property tax examples	50
1.3.	Real estate transfer taxation	52
1.3.1.	Basic characteristics	53
1.3.2.	Property transfer taxpayer	58
1.3.3.	Property transfer tax base	61
1.3.4.	Property transfer tax rates	62
1.3.5.	Correction components in property transfer taxation	64
1.3.6.	Property transfer tax administration	65
1.3.7.	Value added tax in relation to property transfers	66
1.4.	Wealth tax	69
1.4.1.	Current wealth taxation in Europe	72
1.5.	Inheritance and gift taxation	74
1.5.1.	Current inheritance and gift taxation in Europe	80
1.6.	Capital gains tax and real property	82
1.7.	State policy, challenges and future developments in property taxation	85
1.7.1.	Future of property taxes	86

Part II Thematic Reports

Chapter 2:	Property Taxation as a Revenue Source and a Land Policy Instrument	97
	<i>Joan Youngman</i>	
2.1.	Introduction	97
2.2.	A tool for local government	99
2.3.	Defining the tax base	101

2.4.	Land as a special object of taxation	102
2.5.	Calculating the tax base: Market value and area	104
2.6.	Capital value and rental value	104
2.7.	Determining land value	105
2.8.	Area and market value as a continuum	107
2.9.	Banding	107
2.10.	Other tax bases: Acquisition value; parcel taxes; imputed income taxation	108
2.11.	Practical challenges: “Silent” tax increases	109
2.12.	Long-delayed revaluations	110
2.13.	Tax revolts: The experience in Britain	111
2.14.	Court-ordered revaluations	112
2.15.	Legal challenges to statistical modelling	114
2.16.	Exemptions and land use	115
2.17.	Property taxation as a form of value capture	117
2.18.	Property taxation as a form of wealth taxation	118
2.19.	Conclusion	119
Chapter 3:	Property Taxation in Developing Countries – Challenges and Prospects	121
	<i>Riël Franzsen</i>	
3.1.	Introduction	121
3.2.	Revenue importance	122
3.3.	Challenges	124

Table of Contents

3.3.1.	Property tax reforms and politics	124
3.3.2.	Property tax base options	127
3.3.2.1.	Self-assessment scheme in Bangalore, India	129
3.3.2.2.	Points-based systems	130
3.3.2.3.	Value banding	132
3.3.3.	Information and communication technology	133
3.3.4.	Collection and enforcement	137
3.3.5.	Outsourcing	138
3.3.5.1.	Valuation services	138
3.3.5.2.	Collection and enforcement	138
3.3.6.	Proper communication	140
3.4.	Concluding remarks	140
Chapter 4:	Valuation of Real Estate: Principles and Practice	143
	<i>William McCluskey</i>	
4.1.	Introduction	143
4.2.	The role and importance of valuation standards	143
4.3.	Concept of market value	146
4.3.1.	Highest and best use	147
4.3.2.	Current or existing use value	147
4.4.	Main methods to determine market value	148
4.5.	The importance of data in real property valuations	150
4.6.	Real property transactions	151
4.6.1.	Sales price register	151
4.6.2.	CAMA and AVMs	152
4.6.3.	The impact of AI	155
4.7.	Conclusion	156
Chapter 5:	Environmental Aspects in the Taxation of Real Estate	157
	<i>Stefanie Geringer</i>	
5.1.	Green (real estate) legislation in the wake of the I“climate crisis”	157

5.2.	The possible roles of tax in an environmental policy strategy targeting immovable property	158
5.3.	Guidelines for setting the agenda for environmental measures in the taxation of real estate	160
5.3.1.	Introduction	160
5.3.2.	Aligning policy objectives and tax measures	161
5.3.3.	Keeping it simple, clear and administrable	163
5.3.4.	Taking account of requirements of higher-ranking law	166
5.3.5.	Making a consistent and predictable effort	167
5.3.6.	Evaluating the effects ex ante and ex post	169
5.4.	Concluding remarks	171
Part III National Reports		
Chapter 6:	Austria	175
	<i>Peter Denk</i>	
6.1.	Constitutional and theoretical aspects of real estate taxes	175
6.1.1.	Definition of property taxes	175
6.1.2.	Role and function of property taxes	176
6.1.3.	Equity and fairness issues in property taxation	178
6.2.	Recurrent real estate tax design	179
6.2.1.	History and basic characteristics	179
6.2.2.	Taxpayer	180
6.2.3.	Object of taxation	181
6.2.4.	Tax base	182
6.2.5.	Tax rates	183
6.2.6.	Correction components	184
6.2.7.	Tax administration	186
6.2.8.	Protection of taxpayers	188
6.2.9.	Examples	189
6.3.	Real estate transfer taxation	190
6.3.1.	Basic characteristics	190
6.3.2.	Taxpayer	191
6.3.3.	Tax base	192

Table of Contents

6.3.4.	Tax rates	194
6.3.5.	Correction components	195
6.3.6.	Tax administration	195
6.3.7.	Value added tax in relation to property transfers	196
6.4.	Wealth tax	197
6.5.	Inheritance and gift taxation	198
6.6.	Capital gains tax (PIT and CIT) and real property	199
6.7.	State policy, challenges and future developments	201
6.7.1.	Challenges in property taxation	201
6.7.2.	Environmental and social approaches	202
6.7.3.	Future of property taxes	203
Chapter 7:	Belgium	205
	<i>Marc Bourgeois, Sylvie De Raedt, Felix Desmyttere and Isabelle Richelle Graulich</i>	
7.1.	Constitutional and theoretical aspects of real estate taxes	205
7.1.1.	Definition of property taxes	205
7.1.2.	Role and function of property taxes	205
7.1.3.	Equity and fairness issues in property taxation	206
7.2.	Recurrent real estate tax design	207
7.2.1.	History and basic characteristics	207
7.2.2.	Taxpayer	208
7.2.3.	Object of taxation	209
7.2.4.	Tax base	209
7.2.5.	Tax rates	211
7.2.6.	Correction components	212
7.2.7.	Tax administration	214
7.2.8.	Protection of taxpayers	215
7.2.9.	Examples	215
7.3.	Real estate transfer taxation	217
7.3.1.	Basic characteristics	217
7.3.2.	Taxpayer	218
7.3.3.	Tax base	218
7.3.4.	Tax rates	219

7.3.5.	Correction components	219
7.3.6.	Tax administration	220
7.3.7.	Value added tax in relation to property transfers	220
7.4.	Wealth tax	221
7.5.	Inheritance and gift taxation	221
7.5.1.	General characteristics	221
7.5.2.	Specifics	222
7.6.	Capital gains tax (PIT and CIT) and real property	225
7.7.	State policy, challenges and future developments	226
7.7.1.	Challenges in property taxation	226
7.7.2.	Environmental and social approaches	227
7.7.3.	Future of property taxes	227
Chapter 8:	Bosnia and Herzegovina	229
	<i>Ana Dujmović</i>	
8.1.	Constitutional and theoretical aspects of real estate taxes	229
8.1.1.	Definition of property taxes	229
8.1.2.	Role and function of property taxes	232
8.1.3.	Equity and fairness issues in property taxation	232
8.2.	Recurrent real estate tax design	233
8.2.1.	History and basic characteristics	233
8.2.2.	Taxpayer	234
8.2.3.	Object of taxation	234
8.2.4.	Tax base	235
8.2.5.	Tax rates	236
8.2.6.	Correction components	238
8.2.7.	Tax administration	240
8.2.8.	Protection of taxpayers	242
8.2.9.	Examples	243
8.3.	Real estate transfer taxation	244
8.3.1.	Basic characteristics	244
8.3.2.	Taxpayer	245
8.3.3.	Tax base	246
8.3.4.	Tax rates	246

Table of Contents

8.3.5.	Correction components	247
8.3.6.	Tax administration	248
8.3.7.	Value added tax in relation to property transfers	248
8.4.	Wealth tax	249
8.5.	Inheritance and gift taxation	249
8.5.1.	General characteristics	249
8.5.2.	Specifics	250
8.6.	Capital gains tax (PIT and CIT) and real property	251
8.7.	State policy, challenges and future developments	252
8.7.1.	Challenges in property taxation	252
8.7.2.	Environmental and social approaches	253
8.7.3.	Future of property taxes	253
Chapter 9:	Bulgaria	255
	<i>Savina Mihaylova-Goleminova and Dimitar Stoimenov</i>	
9.1.	Constitutional and theoretical aspects of real estate taxes	255
9.1.1.	Definition of property taxes	255
9.1.2.	Role and function of property taxes	257
9.1.3.	Equity and fairness issues in property taxation	259
9.2.	Recurrent real estate tax design	260
9.2.1.	History and basic characteristics	260
9.2.2.	Taxpayer	261
9.2.3.	Object of taxation	262
9.2.4.	Tax base	263
9.2.5.	Tax rates	264
9.2.6.	Correction components	265
9.2.7.	Tax administration	265
9.2.8.	Protection of taxpayers	266
9.2.9.	Examples	266
9.3.	Real estate transfer taxation	267
9.3.1.	Basic characteristics	267
9.3.2.	Taxpayer	267
9.3.3.	Tax base	268

9.3.4.	Tax rate	268
9.3.5.	Correction components	268
9.3.6.	Tax administration	269
9.3.7.	Value added tax in relation to property transfers	269
9.4.	Wealth tax	270
9.5.	Inheritance and gift taxation	270
9.5.1.	General characteristics	270
9.5.2.	Specifics	271
9.6.	Capital gains tax (PIT and CIT) and real property	272
9.7.	State policy, challenges and future developments	273
9.7.1.	Challenges in property taxation	273
9.7.2.	Environmental and social approaches	274
9.7.3.	Future of property taxes	276
Chapter 10:	Canada	279
	<i>Enid Slack</i>	
10.1.	Constitutional and theoretical aspects of real estate taxes	279
10.1.1.	Definition of property taxes	280
10.1.2.	Role and function of property taxes	280
10.1.3.	Equity and fairness in property taxation	281
10.2.	Recurrent real estate tax design	282
10.2.1.	History and basic characteristics	282
10.2.2.	Taxpayer	283
10.2.3.	Object of taxation	284
10.2.4.	Tax base	284
10.2.5.	Tax rates	285
10.2.6.	Correction components	286
10.2.7.	Tax administration	288
10.2.8.	Protection of taxpayers	291
10.2.9.	Examples	292
10.3.	Real estate transfer taxation	292
10.3.1.	Basic characteristics	293
10.3.2.	Taxpayer	293
10.3.3.	Tax base	293

Table of Contents

10.3.4.	Tax rates	294
10.3.5.	Correction components	294
10.3.6.	Tax administration	296
10.3.7.	Value added tax in relation to property transfers	296
10.4.	Wealth tax	297
10.5.	Inheritance and gift taxation	297
10.6.	Capital gains tax (PIT and CIT) and real property	298
10.7.	State policy, challenges and future developments	299
10.7.1.	Challenges in property taxation	299
10.7.2.	Environmental and social approaches	300
10.7.3.	Future of property taxes	301
Chapter 11:	China (People's Rep.)	303
	<i>Noam Noked and Xinran Li</i>	
11.1.	Constitutional and theoretical aspects of real estate taxes	303
11.1.1.	Definition of property taxes	303
11.1.2.	Role and function of property taxes	304
11.1.3.	Equity and fairness issues in property taxation	304
11.2.	Recurrent real estate tax design	306
11.2.1.	History and basic characteristics	306
11.2.2.	Taxpayer	307
11.2.3.	Object of taxation	307
11.2.4.	Tax base	307
11.2.5.	Tax rates	308
11.2.6.	Correction components	309
11.2.7.	Tax administration	310
11.2.8.	Protection of taxpayers	310
11.2.9.	Examples	310
11.3.	Real estate transfer taxation	311
11.3.1.	Basic characteristics	311
11.3.2.	Taxpayer	311
11.3.3.	Tax base	312
11.3.4.	Tax rates	312
11.3.5.	Correction components	313

11.3.6.	Tax administration	313
11.3.7.	Value added tax in relation to property transfers	314
11.4.	Wealth tax	314
11.5.	Inheritance and gift taxation	315
11.6.	Capital gains tax (PIT and CIT) and real property	315
11.7.	State policy, challenges and future developments	316
11.7.1.	Challenges in property taxation	316
11.7.2.	Environmental and social approaches	316
11.7.3.	Future of property taxes	317
Chapter 12:	Croatia	319
	<i>Nataša Žunić Kovačević, Irena Klemenčić and Hrvoje Arbutina</i>	
12.1.	Constitutional and theoretical aspects of real estate taxes	319
12.1.1.	Definition of property taxes	319
12.1.2.	Role and function of property taxes	320
12.1.3.	Equity and fairness issues in property taxation	321
12.2.	Recurrent real estate tax design	322
12.2.1.	History and basic characteristics	322
12.2.2.	Taxpayer	324
12.2.3.	Object of taxation	325
12.2.4.	Tax base	325
12.2.5.	Tax rates	326
12.2.6.	Correction components	326
12.2.7.	Tax administration	327
12.2.8.	Protection of taxpayers	327
12.2.9.	Examples	327
12.3.	Real estate transfer taxation	328
12.3.1.	Basic characteristics	328
12.3.2.	Taxpayer	329
12.3.3.	Tax base	329
12.3.4.	Tax rates	329
12.3.5.	Correction components	330
12.3.6.	Tax administration	331

Table of Contents

12.3.7.	Value added tax in relation to property transfer	332
12.4.	Wealth tax	333
12.5.	Inheritance and gift taxation	335
12.6.	Capital gains tax (PIT and CIT) and real property	336
12.7.	State policy, challenges and future developments	337
12.7.1.	Challenges in property taxation	337
12.7.2.	Environmental and social approaches	338
12.7.3.	Future of property taxes	338
Chapter 13:	Czech Republic	341
	<i>Jan Neckář and Tereza Svobodová</i>	
13.1.	Constitutional and theoretical aspects of real estate taxes	341
13.1.1.	Definition of property taxes	341
13.1.2.	Role and function of property taxes	342
13.1.3.	Equity and fairness issues in property taxation	343
13.2.	Recurrent real estate tax design	345
13.2.1.	History and basic characteristics	345
13.2.2.	Taxpayer	346
13.2.3.	Object of taxation	347
13.2.4.	Tax base	348
13.2.5.	Tax rates	350
13.2.6.	Correction components	351
13.2.7.	Tax administration	352
13.2.8.	Protection of taxpayers	353
13.2.9.	Examples	353
13.3.	Real estate transfer taxation	354
13.3.1.	Basic characteristics	354
13.3.2.	Taxpayer	356
13.3.3.	Tax base	356
13.3.4.	Tax rates	356
13.3.5.	Correction components	356
13.3.6.	Tax administration	356
13.3.7.	Value added tax in relation to property transfers	356

13.4.	Wealth tax	357
13.5.	Inheritance and gift taxation	358
13.5.1.	General characteristics	358
13.5.2.	Specifics	358
13.6.	Capital gains tax (PIT and CIT) and real property	359
13.7.	State policy, challenges and future developments	361
13.7.1.	Challenges in property taxation	361
13.7.2.	Environmental and social approaches	362
13.7.3.	Future of property taxes	363
Chapter 14:	Denmark	365
	<i>Jane Bolander and Inge Langhave</i>	
14.1.	Constitutional and theoretical aspects of real estate taxes	365
14.1.1.	Definition of property taxes	365
14.1.2.	Role and function of property taxes	366
14.1.3.	Equity and fairness issues in property taxation	367
14.2.	Recurrent real estate tax design	369
14.2.1.	History and basic characteristics	369
14.2.2.	Taxpayer	371
14.2.3.	Object of taxation	372
14.2.4.	Tax base	373
14.2.5.	Tax rates	373
14.2.6.	Correction components	375
14.2.7.	Tax administration	375
14.2.8.	Protection of taxpayers	376
14.2.9.	Examples	376
14.3.	Real estate transfer taxation	377
14.3.1.	Basic characteristics	377
14.3.2.	Taxpayer	378
14.3.3.	Tax base	378
14.3.4.	Tax rates	378
14.3.5.	Correction components	379
14.3.6.	Tax administration	379
14.3.7.	Value added tax in relation to property transfers	380

Table of Contents

14.4.	Wealth tax	381
14.5.	Inheritance and gift taxation	381
14.5.1.	General characteristics	381
14.5.2.	Specifics	383
14.6.	Capital gains tax (PIT and CIT) and real property	385
14.7.	State policy, challenges and future developments	387
14.7.1.	Challenges in property taxation	387
14.7.2.	Environmental and social approaches	388
14.7.3.	Future of property taxes	388
Chapter 15:	Finland	389
	<i>Janne Myllymäki</i>	
15.1.	Constitutional and theoretical aspects of real estate taxes	389
15.1.1.	Definition of property taxes	389
15.1.2.	Role and function of property taxes	390
15.1.3.	Equity and fairness issues in property taxation	392
15.2.	Recurrent real estate tax design	393
15.2.1.	History and basic characteristics	393
15.2.2.	Taxpayer	394
15.2.3.	Object of taxation	395
15.2.4.	Tax base	396
15.2.5.	Tax rates	399
15.2.6.	Correction components	401
15.2.7.	Tax administration	402
15.2.8.	Protection of taxpayers	403
15.2.9.	Examples	404
15.3.	Real estate transfer taxation	404
15.3.1.	Basic characteristics	404
15.3.2.	Taxpayer	405
15.3.3.	Tax base	405
15.3.4.	Tax rates	406
15.3.5.	Correction components	406
15.3.6.	Tax administration	407
15.3.7.	Value added tax in relation to property transfers	407

15.4.	Wealth tax	408
15.5.	Inheritance and gift taxation	409
15.5.1.	General characteristics	409
15.5.2.	Specifics	410
15.6.	Capital gains tax (PIT and CIT) and real property	410
15.7.	State policy, challenges and future developments	412
15.7.1.	Challenges in property taxation	412
15.7.2.	Environmental and social approaches	413
15.7.3.	Future of property taxes	413
Chapter 16:	France	415
	<i>Pierre Beltrame and Sandrine Quilici</i>	
16.1.	Constitutional and theoretical aspects of real estate taxation	415
16.1.1.	Definition of property taxes	415
16.1.2.	Role and function of property taxes	415
16.1.3.	Equity and fairness issues in property taxation	416
16.2.	Recurrent real estate tax design	417
16.2.1.	History and basic characteristics	417
16.2.2.	Taxpayer	418
16.2.3.	Object of taxation	419
16.2.4.	Tax base	420
16.2.5.	Tax rates	422
16.2.6.	Correction components	422
16.2.7.	Tax administration	424
16.2.8.	Protection of taxpayers	424
16.2.9.	Examples	425
16.3.	Real estate transfer taxation	426
16.3.1.	Basic characteristics	426
16.3.2.	Taxpayer	426
16.3.3.	Tax base	427
