Preface	v
---------------	---

PART I POPULATION CONTROL AND DEVELOPMENT

1. Demographic Trends, Global and Indian Scene, and Implications	3
<i>S. Mukerji</i>	
2. Population Control: Strategies and Experience	9
<i>George Zeidenstein</i>	
3. WHO Special Programme in Human Reproduction and Contraceptive Needs of Developing Countries	17
<i>M.F. Fathalla and J. Barzelatto</i>	

PART II RECENTLY DEVELOPED CONTRACEPTIVE METHODS AT PHASE II/III/IV

4. Steroid Implants for Long-Term Contraception	29
<i>Sheldon J. Segal</i>	
5. The Levonorgestrel-Releasing IUD	37
<i>Tapani Luukkainen, Maiya Haukkamaa, Pekka Lähteenmäki, and Juhani Toivonen</i>	
6. Antiprogestin Ru 486: A Contragestive Agent	49
<i>Etienne-Emile Baulieu</i>	
7. Vaginal Pills: Systemic Contraceptive Induced by Vaginal Administration of Contraceptive Pills	67
<i>Elsimar Metzker Coutinho</i>	

PART III NEUROENDOCRINE REGULATION

8. Neuroendocrine Regulation of Fertility 83
Béla Flerkó
9. GnRH Analogs in Contraception 93
Regine Sitruk-Ware
10. A Novel Hypothalamic Peptide Inhibitor of
Prolactin Secretion 101
J. Ramachandran, K. Nikolics, and P.H. Seeburg
11. Inhibin: Chemistry, Measurement, Physiology,
and Its Potential as a Fertility-Regulating Agent 115
Anil R. Sheth, Sudhir B. Moodbidri, and Nandita J. Arbatti

PART IV IMMUNOBIOLOGY OF PREGNANCY

12. Immunobiology of Human Trophoblast 133
Y.W. Loke
13. Maternal-Placental Interactions in Early
Human Pregnancy 143
Peter M. Johnson
14. Maternal-Blastocyst Interaction at Implantation 151
Michael J.K. Harper and Marjorie A. Jones
15. Immunogenetic Control of Pregnancy and Development .. 161
Thomas J. Gill III
16. Cell-Mediated Immune Mechanisms in Recurrent
Spontaneous Abortion 171
Joseph A. Hill and Deborah J. Anderson

PART V BIRTH CONTROL VACCINES

17. Birth Control Vaccines Inducing Antibodies
Against Chorionic Gonadotropin 183
G.P. Talwar and Om Singh

18. Cloning and Expression of Gonadotropin Hormone Genes 199
Swatantra K. Jain, William W. Chin, and G.P. Talwar
19. Hormonal Regulation of Pituitary Gonadotropin Gene Expression 207
William W. Chin, Soheyla D. Gharib, and Margaret E. Wierman
20. Active Immunization of Rhesus Monkeys Against the β -Subunit of Ovine Luteinizing Hormone: Evaluation of Safety and Effectiveness of an Antigonadotropin Vaccine 217
Rosemarie B. Thau
21. Safety Evaluation of HCG Vaccine in Primates: Autoantibody Production 231
Noel R. Rose, C. Lynne Burek, and Julian P. Smith
22. Potential of LH Receptor as an Immunocontraceptive Vaccine: Studies in the Baboon (*Papio*) 241
Brij B. Saxena and Mukul Singh
23. Development of a Contraceptive Vaccine for Use by the Human Male: Results of a Feasibility Study Carried Out in Adult Male Bonnet Monkeys (*Macaca radiata*) 253
N.R. Moudgal, G.S. Murthy, N. Ravindranath, A.J. Rao, and M.R.N. Prasad

PART VI GAMETE ANTIGENS FOR BIRTH CONTROL VACCINES

24. Hormonal and Cellular Control of Seminiferous Tubular Function 261
C. Wayne Bardin
25. LDH-C₄ as the Model Sperm Antigen for a Contraceptive Vaccine 277
Erwin Goldberg
26. Should Cell-Mediated Immunity be Considered in the Implementation of Antifertility Vaccines? 285
Deborah J. Anderson and Joseph A. Hill

27. Contraceptive Potential of Secretory Immunity	293
<i>Nancy J. Alexander</i>	
28. Establishment of Human-Mouse Hybridoma to Human Seminal Plasma and Its Contribution to a Contraceptive Vaccine	303
<i>Shinzo Isojima, Minoru Shigeta, Kinu Kameda, and Koji Koyama</i>	
29. An Immunoreactive Human Sperm Antigen in Rate Spermatogenic Cells	315
<i>Tatsuji Haneji and S.S. Koide</i>	
30. Role of the Fertilization Antigen (FA-1) in Immunoregulation of Fertility and Involuntary Infertility in Humans	323
<i>Rajesh K. Naz</i>	
31. Origin of Zona Pellucida Antigens and Its Relevance to the Development of Contraceptive Vaccine	341
<i>Shakti N. Upadhyay</i>	
32. Disillusions and Hopes About Zona Pellucida in Glycoproteins	345
<i>Shobha Sehgal and S.K. Gupta</i>	
PART VII BASIC CONSIDERATIONS IN IMMUNOLOGICAL APPROACHES TO CONTROL OF FERTILITY	
33. New Development in Epitope Analysis	359
<i>J. Griffiths, N.A. Mitchison, D.B.G. Oliveira, and P. Salgame</i>	
34. Immunological Difficulties and Requirements for Immune Manipulations in the Field of Reproduction	369
<i>Guy André Voisin</i>	
35. The Past Is Prologue: Implications of the Symposium	385
<i>Egon Diczfalussy</i>	
Index	389
