Acronyms and Abbreviations xix

1 Overview: Fiscal Policy, Economic Fluctuations, and Growth 1
Guillermo E. Perry, Luis Servén, Rodrigo Suescún, and Timothy Irwin

PART I: PROCYCLICAL FISCAL POLICY AND VOLATILITY

2 Fiscal Discipline, Volatility, and Growth 43
Antonio Fatás and Ilian Mihov

3 The Size and Effectiveness of Automatic Fiscal Stabilizers in Latin America 75
Rodrigo Suescún

4 Fiscal Federalism and Procyclical Spending: The Cases of Argentina and Brazil 121
Federico Sturzenegger and Rogério L. F. Werneck

5 Fiscal Rules and Procyclicality 159
Guillermo E. Perry

PART II: FISCAL POLICY AND GROWTH

6 Fiscal Discipline, Public Investment, and Growth 195
Luis Servén

7 Incentives for Public Investment under Fiscal Rules 225
Jack M. Mintz and Michael Smart

8 Improving the Stability and Growth Pact through Proper Accounting of Public Investment 259
Olivier Blanchard and Francesco Giavazzi

9 Accrual Accounting, Long-Term Fiscal Projections, and Public Investment 273
Timothy Irwin

10 Growth and Fiscal Effects of Infrastructure Investment in Brazil 297
Pedro Cavalcanti Ferreira and Carlos Hamilton Vasconcelos Araújo

Index 319

Figures

1.1a Latin America: Debt and Fiscal Balance
1.1b Debt and Fiscal Balances in Selected Latin American Countries, 2005 3
1.2 Debt Determinants in Selected Latin American Countries 4
1.3 Latin America: General Government Structural Balance and Primary Expenditure 6
1.4 Latin America: Primary Deficit and Public Infrastructure Investment 7
1.5 Discretionary Fiscal Policy Reaction Function 10
1.6 Response of Automatic Stabilizers to Cyclical Conditions 13
1.7 The Stabilizing Role of Government Size 14
1.8 Latin America: Total Investment in Major Infrastructure Sectors 19
1.9 Sub-Saharan Africa: Overall Deficit and Public Infrastructure Investment 20
1.10 European Union: Primary Deficit and Public Investment 21
1.11 Fiscal Procyclicality and Public Investment Performance 22
2.1 Volatility and Investment 64
2.2 Policy-Induced Volatility and Investment 64
3.1 The Stabilizing Role of Government Size 78
3.2 Cyclical Sensitivity of the Fiscal Position 84
3.3 Automatic Stabilizers' Response to Cyclical Conditions 86
3.4 Simulation Results: Relative Output Volatilities with Only Ricardian Households 105
3.5 Simulation Results: Tax Structure and Relative Output Volatilities 106

3.6	Automatic Revenue Stabilizers and Business Cycle Volatility	108
3.7	The Stabilizing Role of Government Size in a Broader Sample	110
4.1	Procyclicality of Fiscal Policy	122
4.2	Procyclicality of Fiscal Results	125
4.3	Cross-Plots of Local Output Growth and Fiscal Variables in Argentina	139
4.4	Cross-Plots of Output Growth and Fiscal Variables in Brazil	149
5.1	Volatility of Real GDP Growth	162
5.2	Causes of Latin America's Excess Volatility over OECD and East Asian Countries, 1975–99	163
5.3	Fiscal Procyclicality and Public Investment	167
5.4	Procyclicality and Asymmetry of Public Investment Responses: Models I and II	171
5.5	Fiscal Procyclicality and Asymmetry of Public Investment Responses: Model III	172
5.6	Real Primary Expenditures during the 1998–2002 Slowdown	173
5.7	Spreads and Business Cycle	175
5.8	Chile: Structural and Actual Balances, 1997–2006	183
5.9	Estimates of Structural Primary and Overall Balance, Latin America	185
5.10	Real Current Expenditures, 1990–2005	186
5.11	Structural and Actual Fiscal Balances in Argentina, 1994–2001	187
6.1	Latin America: Fiscal Adjustment and Public Investment	197
6.2	European Union: Primary Deficit and Public Investment	199
6.3	Fiscal Targets and Public Expenditure Composition	211
9.1	Elements of the Long-Term Fiscal Projection for New Zealand	290
10.1	Ratio of Public Investment to GDP	300
10.2	Public Investments as a Proportion of GDP	301
10.3	Growth Rate of Power-Generating Capacity	302
10.4	New Paved Roads and Investment	303
10.5	GDP, Public Structures, and Public Equipment	304
10.6	Response of per Capita GDP and *KPe* to a One-Unit Shock to *KGs*	308
10.7	Simulated Paths of the Debt-to-GDP Ratio	313
