Contents

Foreword VII
I. Elsebai

Preface IX
B. Hoogstraten

Part I. Lung Tumors

1. Epidemiology 3
S. G. Spiro

Introduction 3
Etiologic Considerations 4
Trends in Tobacco Consumption 6
Further Reading 8

2. Early Detection: Screening 9
S. G. Spiro and H. H. Hansen

The Philadelphia Pulmonary Neoplasm Project 10
The Mayo Lung Project 10
Further Reading 11

3. Biology of Lung Cancer 13
H. H. Hansen, F. R. Hirsch, and M. Rørth

Growth Characteristics 13
Chromosomal Studies 14
In Vitro Clonogenic Assays 14
Monoclonal Antibodies 15
Heterotransplantation 15

Tumor Markers 16
Tumor Heterogeneity 16

4. Pathology of Lung Cancer 17

B. J. Addis

Premalignant Change and Early Carcinoma 17
Bronchial Papillomas and Papillary Carcinoma 19
Squamous Cell (Epidermoid) Carcinoma 21
Adenocarcinoma 22
Adenosquamous Carcinoma 25
Large Cell Undifferentiated Carcinoma 25
Spindle-Cell Carcinoma and Carcinosarcoma 28
Small Cell Carcinoma 30
Tumors of Low-Grade Malignancy 33
Further Reading 35

5. Histopathology, Ultrastructure, and Cytology 37

F. R. Hirsch

WHO Classification 38
Squamous Cell Carcinoma 38
Small Cell Carcinoma 41
Adenocarcinoma 44
Large Cell Carcinoma 47
Bronchial Carcinoids 50
Mesothelioma 52
Further Reading 53

6. Clinical Features 55

S. G. Spiro and M. Rørth

Intrathoracic Symptoms 55
Extrathoracic Metastatic Symptoms 57
Paraneoplastic Manifestations 59

7. Diagnostic Procedures 63

H. H. Hansen and S. G. Spiro

The Lung 63
Radiology 63
Conventional Tomography 68
Other Radiological Techniques 68
Sputum Cytology 69

Bronchoscopy 71
Transthoracic Lung Biopsy 73
Pleura 74
Pleural Fluid 74
Mediastinum 75
Invasive Techniques 75
Mediastinoscopy 75
Distant Metastases 76
Detection of Liver Metastases 77
Detection of Bone and Bone Marrow Metastases 79
Detection of Central Nervous System Metastases 81
Detection of Other Metastases 82

8. Staging 83

P. Goldstraw

T Stage 85
N Stage 86
Noninvasive Assessment of the Mediastinum 87
M Stage 88
Staging at Thoracotomy 89
Autopsy Staging 89
Relevance to Small Cell Lung Cancer 90
References 90

9. Staging and Prognosis 91

H. H. Hansen, F. R. Hirsch, and M. Rørth

10. Treatment at the Finsen Institute 97

H. H. Hansen, F. R. Hirsch, and M. Rørth

Treatment of Squamous Cell, Adeno-, and Large Cell Carcinoma 97
Small Cell Carcinoma of the Lung 104
Mesothelioma 109
Further Reading 109

11. Surgical Treatment in Non-Small Cell Carcinoma of the Lung: The Memorial Sloan-Kettering Experience 111

N. Martini, M. S. Bains, P. McCormack, L. R. Kaiser, M. E. Burt, and A. H. Pomerantz

Occult Carcinomas of the Lung 112
Treatment of T1 N0 M0 and T2 N0 M0 Tumors 114

Treatment of T1 N1 and T2 N1 Tumors 115
Surgery in Patients with Advanced Disease 119
Tumors Invading Chest Wall (T3) 119
Superior Sulcus Tumors 122
Treatment of N2 M0 Tumors 124
Treatment of T3 Lesions Due to Proximity to Carina 129
Conclusion 130
References 131

12. Treatment at Brompton Hospital and Royal Marsden Hospital . . 133
P. Goldstraw, S. G. Spiro, and J. R. Yarnold

Pretreatment Preparation (by P. Goldstraw) 133
Surgery (by P. Goldstraw) 134
Adjuvant Therapy (by P. Goldstraw) 139
Role of Radiotherapy (by J. R. Yarnold) 140
Chemotherapy (by S. G. Spiro) 148
Specific Problems in Inoperable Patients and Terminal Care (by S. G. Spiro) 157

13. Prognosis and End Results 163
S. G. Spiro

Non-Small Cell Lung Cancer 163
Natural History of Inoperable Disease 164
Small Cell Lung Cancer 165
Further Reading 166

Part II. Tumors of the Mediastinum, Pleura, and Chest Wall

14. Pathology of Mediastinal Tumors 169
B. J. Addis

Endocrine Tumors and Hyperplasias 171
Tumors of the Thymus 171
Tumors of Neural Origin 189
Mediastinal Lymphadenopathy and Related Disorders 193
Mediastinal Cysts 196
Soft Tissue Tumors of the Mediastinum 198

Mediastinal Fibrosis (Sclerosing Mediastinitis) 199
References 200

15. Pathology of Tumors of the Pleura and Chest Wall 205

B. J. Addis

Pleural Tumors 205
Tumors of the Chest Wall 214
References 221

16. Primary Mediastinal Tumors 225

T. Treasure

Introduction 225
Anatomical Boundaries 225
Classification 226
Symptoms and Signs 228
Investigation 230
Reference 232

17. Chest Wall Tumors 233

T. Treasure

Introduction 233
Presenting Symptoms and Signs 233
Investigation 234
Surgical Management 234
The Incision 234
Resection 235
Closure 235

18. Malignant Mesothelioma 237

M. E. Hodson

Introduction 237
Epidemiology 237
Pathology 238
Clinical Features 238
Diagnosis 240
Treatment 243
Prognosis 244
Conclusions 245
References 246

19. Radiotherapy of Mediastinal and Chest Wall Tumors 247

J. S. Tobias

Tumors of the Mediastinum 247
Tumors of the Chest Wall and Pleura 252
Radiation Techniques 255
Radiation Dosage 258
Further Reading 259

20. Chemotherapy of Mediastinal Tumors 261

R. L. Souhami

Hodgkin's Disease 261
Non-Hodgkin's Lymphomas 262
Germ Cell Tumors 263
Thymomas 264
Sarcomas 264
Chemotherapy of Primary Malignant Chest Wall Tumors 264
Management 265

Subject Index 267
