Contents

I. Epidemiology and etiology

Epidemiological study on esophageal cancer in Japan
Kunio Aoki, Ryuichiro Sasaki, Hiroshi Okada and William Haenszel 3

II. Pathology

Carcinoma of the esophagus in relation to epithelial dysplasia
Eiichi Sato, Takeshi Shimizu and Kenzo Maruta 9

Growth patterns of esophageal carcinomas
Naoyoshi Fukuzumi, Teiji Motojima and Kinichi Nabeya 13

III. Fundamental study

Esophageal carcinoma induced in rat and rabbit by N-methyl-amyl nitrosamine; carcinogenesis and a model for treatment of human esophageal carcinoma
Toshifumi Iizuka 19

Dietary modifier of the esophageal carcinogenesis
Masakatsu Yamamoto, Koshiro Hioki, Masaharu Nishi, Takashi Koreeda and Masahide Kobayashi 22

Altered growth and differentiation of human esophageal carcinoma cell lines
Susan P. Banks-Schlegel 26

Primary cultures and serial passages of normal human esophageal epithelial cells in a serum-free medium
Masafumi Katayama, Takashi Akaishi, Tetsuro Nishihira, Morio Kasai, Miko Kan and Isao Yamane 31

Characteristics of growth and effectiveness of anti-cancer drugs on tissue cultured human esophageal cancer cells
Takashi Akaishi, Yoshihito Sekine, Kazunori Sanekata, Tetsuro Nishihira and Morio Kasai 35

Evaluation of the biological properties of continuous human esophageal carcinoma cell lines in vitro and in vivo in the nude mouse
Kathy Robinson 39

Heterotransplantation of human esophageal carcinoma to nude mice and experimental chemotherapy
Michihiko Kitamura, Junji Sagawa, Tetsuro Nishihira and Morio Kasai 43

Biochemical characteristics of human esophageal carcinoma cell lines
Ryuzaburo Shineha, Tetsuro Nishihira, Yoshihito Sekine, Yasuo Iwasawa, Kimihiko Sato, Kiyomi Sato and Morio Kasai 45

Flow cytometric DNA analysis in human esophageal carcinomas
Kazunori Sanekata, Tetsuro Nishihira and Morio Kasai 49

Malignant potentiality of squamous cell carcinoma of the esophagus predictable by DNA analysis
Keizo Sugimachi, Yoshihiko Koga, Soichiro Maekawa, Hiroyuki Matsuda and Hidenobu Kai 53

IV. Diagnosis

Radiological detection of early esophageal cancer with endoscopic correlation
Hikoo Shirakabe, Goro Yamaki and Toshihide Maruyama 57

X-ray findings of superficial esophageal carcinoma with special reference to lymph node metastasis and vascular invasion
Akiyoshi Yamada, Seiichiro Kobayashi, Hiroko Ide, Akinori Sugiyama, Yoko Murata, Norihiko Okushima, Masahiko Muroi, Fujio Hanyu and Mitsuo Endo 61

Endoscopic examination of the esophagus
Mitsuo Endo 66

Evaluation of X-CT, MR-CT and ultrasound to the metastatic lymphnodes of the esophageal cancer
Sadao Uematsu and Kaichi Isono 68

Mass-screening using capsulated brushing cytology for esophageal cancer
Kinichi Nabeya, Shigen Ri and Hisahito Miyajima 73

V. Treatment

Nonsurgical treatment

Radiation therapy for carcinoma of the esophagus
H. Tsunemoto, T. Ishikawa, K. Isono, S. Onoda, H. Sato, K. Morita and T. Inada 79

Photodynamic therapy with hematoporphyrin derivative in esophageal cancer
Yoshihiro Hayata, Harubumi Kato, Hiroshi Okitsu and Kazuoki Sakurauchi 83

Surgical treatment for primary lesion

Calculation of risk in patients with esophageal cancer
H. Pichlmaier and J. Müller 87

Surgical indication of esophageal carcinoma
Hideaki Yamana, Teruo Kakegawa, Hiromasa Fujita, Kazuyoshi Sakamoto, Genzan Shirozu, Toshifumi Bekki and Taizoh Minami 91

The surgical treatment of superficial esophageal cancer
Mitsuo Endo 93

Indications and results of esophagectomy without thoracotomy in benign and malignant diseases of the esophagus
E. Moreno Gonzalez 96

Esophageal stripping
Akira Watanabe, Takashi Matsumoto, Atsushi Murakami, Ichiro Matano, Shingo Shibazaki and Hiroshige Sairenji 99

Surgical treatment for midthoracic esophageal carcinoma accompanying esophago-bronchial fistula
Toshio Mitomi, Hiroyasu Makuuchi, Takashi Sugihara, Takao Machimura, Hisao Nakasaki, Tetsuji Sasaki and Tomoo Tajima 101

Combined resection of the esophagus with the bronchus
Masao Tomita, Hiroyoshi Ayabe and Katsunobu Kawahara 105

Resection and reconstruction of the aorta associated with subtotal esophagectomy
Hideyuki Kawahara, Shigetoh Odagiri, Hiromasa Fujita, Masaharu Hidaka and Hiroshi Yoshimatsu 109

Ústřední knihovna lékařských informací LÉKAŘSKÁ V PRAZE

Resection along with lymph node dissection

Technique of *en bloc* resection for carcinoma of the distal esophagus
David B. Skinner 113

Extended dissection of lymph nodes in operation for thoracic esophageal carcinoma
Shozo Mori, Kaoru Ishida, Kazumi Okamoto, Tomomi Ohtsu, Koji Murakami, Katsu Suzuki and Nobuhiro Sato 118

Radical operation for thoracic esophageal carcinoma
Teruo Kakegawa, Hideaki Yamana, Hiromasa Fujita and Junji Machi 122

Reconstruction of the esophagus

Surgical techniques of esophagogastrostomy
Hiroshi Akiyama 127

Reconstruction of cervical esophagus using pectoralis major myocutaneous flap technique
Yasushi Murakami 131

Free jejunal graft replacing the cervical esophagus in patients with cervical esophageal carcinoma
Toshifumi Iizuka, Hoichi Kato, Hiroshi Watanabe and Isamu Ono 135

Jejunal transplantation for the reconstruction of cervical esophagus with micro-surgical technique
Ou Ling Huang, Teh Sun Chang and Wei Wang 137

Esophageal anastomosis by circular stapler
John Wong 139

Stapled esophageal surgery at present, in Japan
Ryuichi Nakayama, Akahito Aoki and Shigeo Okazeri 143

Antethoracic esophageal reconstruction by means of the pedunculated gastric tube with additional microvenous anastomosis and right thoracic sympathectomy
Koichi Ishigami, Takuo Murakami and Masaaki Oka 145

Ante sternal route reconstruction using stomach after esophagectomy
Kinichi Nabeya, Tateo Hanaoka, Kimio Onozawa, Shigen Ri, Teiji Motojima, Yuji Arai and Tetsuya Nyumura 149

Retrosternal reconstruction of esophagus with pedicled transverse colon
Masao Fujimaki 153

Reconstruction of the thoracic esophagus: Esophago-gastrostomy via posterior mediastinal route
Shichisaburo Abo and Tamotsu Kudo 157

Reconstruction with pedicled jejunal segment interposed between the thoracic esophagus and the cardia after resection of carcinoma in the middle third of the thoracic esophagus
Morio Kasai 161

Resection and reconstruction of cardia cancer invading lower esophagus
Teruo Kakegawa, Jinryou Takeda, Hideaki Yamana, Ken Hashimoto and Junji Machi 166

Adenocarcinoma of the gastroesophageal junction
Arnulf H. Hölscher and Jörg Rüdiger Siewert 170

Reoperation and/or reconstruction in the postgastrectomized patient

Reoperation after surgery for esophageal cancer
C. Tremolada, A. Ruol, A. Nosadini, B. Martella, A. Segalin, C. Castoro, M. Ferrini and A. Peracchia 173

Esophageal replacement with pedicled jejunal segments in patients with carcinoma of the esophagus who have previously undergone gastrectomy
Tetsuro Nishihira, Katsu Hirayama and Morio Kasai 177

Postoperative management

Immediate complications in surgery of the esophagus. Results of the prospective study of the group O.E.S.O. (790 resected tumors)
Annie Elman and Robert Giuli 181

Respiratory function following different types of esophagectomy—esophagus reconstruction with delayed urgency versus transmediastinal esophagectomy
Jörg Rüdiger Siewert, Arnulf H. Hölscher, Jost Adolf and Holger Bartels 185

Pre- and postoperative feeding with elemental diet in patient with cancer of the esophagus
Tadeusz M. Orlowski 190

Critical care using Swan-Ganz catheter following esophageal cancer surgery
Nobutoshi Ando, Hajime Yonekawa, Yohtaro Shinozawa, Atsushi Ohshima, Hitoshi Ohtaka, Makoto Fujisaki, Tatsuichiro Tanahashi, Masahiro Ohgami, Mitsuhide Kitano and Osahiko Abe 193

VI. Operative results and adjuvant therapy

Surgical strategy in hypopharyngeal and cervical esophageal cancer: Ten-year experience
A. Peracchia, E. Ancona, A. Ruol, S. Merigliano, A. Nosadini, C. Tremolada, R. Bardini, A. Segalin and S. Narne 199

Long-term survival after curative resection of carcinoma of the thoracic esophagus: Improvement by postoperative combined therapy
Morio Kasai, Tetsuro Nishihira, Michihiko Kitamura, Katsu Hirayama, Takashi Akaishi, Ryuzaburo Shineha and Yoshihito Sekine 203

"Adjuvant therapy for carcinoma of the esophagus" Is there any progress?
P. B. Desai 208

Combined therapy of esophageal cancer with cisplatin (CDDP) and irradiation
Kaichi Isono, Shoichi Onoda, Noriyuki Tonosu and Sadao Uematsu 213

Hyperthermo-chemo-radiotherapy for carcinoma of the esophagus
Keizo Sugimachi, Hidenobu Kai, Hidemasa Matsufuji, Hideo Matsuoka and Masayuki Kitamura 217

VII. Palliative treatment

Surgical procedure for palliative treatment of esophageal carcinoma
Hiroshi Watanabe 223

Through-bougie esophageal prosthesis intubation
Hiroyoshi Koizumi, Norio Aoyama, Makoto Akaike and Haruo Sekino 227

The combined laser-afterloading-therapy in the palliative treatment of malign stenoses of the upper gastrointestinal tract
J. R. Siewert, Max Bader, H. J. Dittler, B. Ultsch and G. Ries 231
