Contents

Chemistry and physiology

Comparison of three ligands for calcitonin binding sites 1
R. Maurer, P. Marbach, M. Azria, R. Huguenin, J. Pless and S. Guttmann

Biological effects of calcitonin

Antipyrogenic effect of intravenous administration of salmon calcitonin in rabbits 10
B. Dupuy and P. Mirc

Vascular effects of calcitonin and parathyroid hormone 15
R. Schleiffer, J.J. Helwig, F. Pernot and A. Gairard

Immunoreactive calcitonin in brain regions and pituitary of sheep 25
S. Balabanova, O. King, R. Nowak and H. Sachs

Experimental studies on the mechanism of calcitonin-induced analgesia 32
J. Rohner and D. Planche

Effects of calcitonin on bone resorption and calcium movement in bone cells 38
C. Bonneton and S.Y. Ly

Evidence that calcitonin has a physiological role in renal calcium homeostasis: stimulation of endogenous calcitonin release in the rat 42
S.L. Carney

Hyperglycaemic effect of calcitonin: development and reversibility of tolerance 48
M. Stracca and W. Doepfner

Biological effects of intranasally administered salmon calcitonin in normal subjects 56
P. Burckhardt, J.P. Randin, A. Azria, A.F. Jacquet and F. Gomez

Calcitonin production by tumour tissues

Calcitonin gene-related products in nonthyroid tumours 62
C.J. Hillyard and C. Lynch

Plasma immunoreactive calcitonin in hepatoma 69
N. Conte, P.A. Pavan, M. Cecchettin, R. Di Virgilio, G.C. Foscolo, P. Manente and V. Bettiol

Calcitonin in lymphomas 73
N. Conte, M. Cecchettin, F. Salandin, I. Roiter, M.A. Monco, P. Manente and R. Di Virgilio

Calcitonin, carcinoembryonic antigen and catecholamines: tumour markers in sporadic cases of type IIb multiple endocrine neoplasia 78
K. Frank, F. Raue and R. Ziegler

Calcitonin use in myeloma and in tumour bone metastases

Induced hypocalcaemia test using salmon calcitonin in multiple myeloma and monoclonal gammopathy of undetermined significance 83
J.G. Fuzibet, J.P. Cassuto, L. Euller-Ziegler, G. Viot, E. Cassuto-Viguier, G. Ziegler and P. Dujardin

Evaluation of myeloma osteoclastic activity using a standard salmon-calcitonin-induced hypocalcaemia test 89
R. Bataille, C. Legendre and J. Sany

Clinical aspects

Calcitonin and age 94
M. Passeri, E. Palummeri, M. Pedrazzoni, G. Cervellin, R. Di Ruvo, L. Butturini and M. Barbagallo

Comparison of the hypocalcaemic activities of three calcitonins using a new biological method 104
M. Azria, M. Attinger, H. Schüpfer and P. Tanner

Calcitonin treatment of acute osteoporosis resulting from paraplegia 111
P. Minaire, J. Depassio, P. Meunier, C. Edouard, G. Pilonchery, B. Argémi, J. Gueris, D. Julien, J. Kanis and F. Caulin

A double-blind study on the effect of calcitonin on pain and acute resorption related to recent osteoporotic crush fractures 119
J. Levernieux, D. Julien and F. Caulin

Serum estrone and estradiol as determinants of serum calcitonin 126
G.F. Jensen, K. Emmertsen and I. Transbøl

Osteoporotic risk in early postmenopause: effects of medroxyprogesterone acetate on mineral metabolism 131
A. D'Angelo, B. Mozzanega, D. Marchesoni, G.B. Nardelli, L. Sartori, A. Meani and G. Crepaldi

Salmon calcitonin nasal spray. A new therapy for Paget's disease 140
J.-Y. Reginster, A. Albert, A. Greday and P. Franchimont

Calcitonin-induced increase in ACTH, beta-endorphin and cortisol secretion 147
L. Laurian, Z. Oberman, E. Graff, R. Chayen and E. Hoerer

Effect of naloxone on immunoreactive calcitonin in cerebrospinal fluid and plasma in sheep 153
S. Balabanova, B. Kuhnt, M. Benk, R. Nowak, H. Sachs, H.P. Richter, G. Antoniadis and C.J. Kirkpatrick

Cerebrospinal fluid calcitonin levels after peripheral injection of human calcitonin 159
F. Tagliaro, R. Dorizzi, G.F. Maffezzoli, L. Pacini, V. Lo Cascio and S. Ferrari

Effects of salmon calcitonin infusion on circulating somatostatin and gastrin: clinical observations 164
A. Benke, K. Dinstl and W. Woloszczuk

Serum calcitonin levels in heroin addicts before and after detoxication treatment: a critical evaluation 171
R. Dorizzi, F. Tagliaro, S. Lafisca, V. Lo Cascio and M. Marigo

Mineral content of unaffected bone tissue during long-term treatment of Paget's disease with calcitonin 176
J.-D. Ringe

Calcitonin in the treatment of algodystrophy. An update 182
P. Doury, P. Massias, P. Meunier, E. Seguy, A. Julien and F. Caulin

Does calcitonin play a role in the treatment of dialysis and kidney transplant patients? 188
E. Brinch, H. Daugaard, M. Egfjord and K. Ølgaard

Serum calcitonin levels in kidney transplant patients 194
G. Luisetto, G.P. Zanatta, F. Cataldi, M.L. Gasparotto, M. Urso and D. Ziliotto

Authors' index 198
