Contents

I. Prologue

3 Introductory Lecture of the President.
Neuronal Characteristics of Pinealocytes: Reflections - Concepts - Prospects
A. Oksche

II. Nature and morphological features of pinealocytes

13 Neuronal Properties of Mammalian Pinealocytes?
L. Vollrath and H. Schröder

25 Ganglia in the Pineal Stalk of the Domestic Fowl
T. Sato, S. Ebisawa and K. Wake

29 Adaptation in Pineal Photoreceptors of the Trout
H. Meissl and P. Ekström

35 Photoreceptor Differentiation and Neuronal Organization of the Pineal Organ
H.-W. Korf and P. Ekström

49 Glycoprotein Synthesis in the Diencephalic Roof. A Histochemical and Cytochemical Study Using Lectins and Specific Antibodies
R. Meiniel, N. Duchier and A. Meiniel

53 Na^{+}-K^{+}-ATPase and Ca^{++}-ATPase Activity in the Pineal Organ of the Frog *(Rana Esculenta)*
M. Ueck, M. Umar, H. Umar and A. Hach

57 Immunoreactivity of Calbindin-27 kDa (a calcium binding protein) in Vertebrate Pineal and Retina
R. Pochet, J.-P. Collin, A. Roman, P. Brisson and B. Pasteels

61 Vitamin A Immunocytochemistry of the Retina and Pineal Complex in Various Vertebrates
I. Vigh-Teichmann, B. Vigh and G.H. Wirtz

III. Regulatory signals for pineal function

67 Compensatory Increase of Retinal Melatonin After Pinealectomy
S. Steinlechner, A. Seidel, M. Klingenspor and G. Heldmaier

71 The Peptidergic Innervation of the Mammalian Pineal Gland
M. Møller, B. Cozzi, H. Schröder and J.D. Mikkelsen

79 The Mammalian Pineal and Retinae as Geomagnetic Field Detectors
J. Olcese, S. Reuss, J. Stehle, S. Steinlechner and L. Vollrath

83 Monoaminergic Synaptic Contacts on Pinealocytes in the Deep Pineal of the European Hamster *(Cricetus cricetus,* L.)
M. Masson-Pévet, P. Pévet and S. Gourmelen

87 Vasoactive Intestinal Peptide (VIP) in the Pineal Gland of the Rat
J.D. Mikkelsen, H.-W. Korf and M. Møller

91 Indolic, Aminergic and Peptidergic Receptors and Their Modulation of Pineal Functions
M. Ebadi

111 Integration of Multiple Receptor Mechanisms Regulating Pineal Cyclic Nucleotides
D.C. Klein, J. Weller, A.L. Sugden, D. Sugden, J. Vaněček, C.L. Chik and A.K. Ho

121 Mammalian Pineal Beta-Adrenergic Receptors: Their Regulation and Physiological Significance
A. Gonzalez-Brito and R.J. Reiter

125 α_2-Adrenergic Regulation of Arylalkylamine N-Acetyltransferase in Organ Cultured Chicken Pineal Gland
P. Voisin, C. Martin and J.-P. Collin

129 *In Vivo* Elevation of Rat Pineal Gland Melatonin After Treatment with Adenosine Analog
A. Gharib, N. Sarda, B. Vivien-Roels, D. Reynaud, L. Ou, P. Pévet and H. Pacheco

133 Control of Melatonin Synthesis in Ovine Pineals: an *In Vitro* Study
P.J. Morgan, L.M. Williams, W. Lawson and G. Riddoch

137 Pineal: a Multieffector Organ
D.P. Cardinali, M.I. Vacas and R.E. Rosenstein

151 Seasonal Effects of Steroids on Ovine Pineal β-Adrenoceptors and on Plasma Hormone Profiles
A. Foldes, C.A. Maxwell and R.J. Scaramuzzi

IV. Photoperiods and circadian rhythms

157 The Pineal Gland and Imprinting of the Orientation System of Migratory Birds
P. Semm

161 Pineal Role in Circadian Locomotor Rhythm and Cellular Basis of Photic Entrainment
Y. Morita, M. Samejima and K. Uchida

165 Pineal N-Acetyltransferase: a Model to Study Properties of Biological Clocks
H. Illnerová and J. Vaněček

179 Modification of Pineal Cell Electrical Activity by Brief Light Pulses in the Syrian Hamster Depends on Photoperiodic History
R. Stoughton, S. Patel, V. Carnell and C. Demaine

183 Electrophysiology as an Approach to Pineal Function in Mammals
S. Reuss

191 The Effect of Constant Light on the Circadian Pacemaker(s) Driving Pineal N-Acetyltransferase and Drinking Rhythms in Rats
J. Vaněček, M. Kolihová and H. Illnerová

195 Melatonin Phase-Shifts a Mammalian Circadian Clock
S.M. Armstrong and M.J. Chesworth

199 Effects of Photoperiod and Pinealectomy on the Diurnal Rhythm of Serum Testosterone and Prolactin in the Djungarian Hamster (Phodopus Sungorus)
M. Hoerster and K. Hoffmann

203 Lack of Effect of Low Temperature on the Daily Pattern of Melatonin Secretion in the Golden Hamster
B. Vivien-Roels, P. Pévet and M. Masson-Pévet

207 Regulation of the Pineal-Reproductive Axis by Near Ultraviolet Radiation (UV-A) in Three Rodent Species
G.C. Brainard and F.M. Barker

211 Influence of Different Photoperiods on Sexual Maturation, Melatonin Secretion and on Circadian Rhythms of Sensitivity to Exogenous Melatonin in Young Male Rats
U. Lang, R.W. Rivest, M.L. Aubert, J.C. Vinas-Bradtke and P.C. Sizonenko

215 Melatonin is Released Episodically from the Mammalian Pineal Gland
R.J. Reiter, B. Cozzi, J.P. Ravault and B. Ferrandi

V. Pineal function and neuroendocrine correlations

221 Pineal and Photoperiodic Control of Different Seasonal Functions in the European Hamster: Importance of Gonadal Steroids and of the Central Vasopressinergic Innervation
P. Pévet, R.M. Buijs, M. Masson-Pévet and B. Canguilhem

237 Neurotransmitter Systems in the Central Organization of Reproduction
M. Zoli, L.F. Agnati, K. Fuxe, M. Ruggeri, C. Carani, G. Toffano and H.G.W. Steinbusch

251 The Effects of Central Passive Immunization Against Melatonin, or Programmed Infusions Combined with Suprachiasmatic Lesions, on Photoperiodic Control of FSH Secretion in the Male Syrian Hamster
C. Bonnefond, A.P. Walker, J.A. Stutz, J. Arendt, M.H. Hastings and J. Herbert

257 Functional Relationships between Pineal Gland and Habenular Complex
C. Ruzsás

271 Daily Photoperiod and β-Endorphin Concentrations in Medial Basal Hypothalamus and Pituitary Gland
A.R. Genazzani, M. Criscuolo, M. Bergamaschi, M. Cleva, F. Petraglia and G.P. Trentini

277 Melatonin Counteracts the Effect of Acute Stress on the Immune System via an Opiatergic System
G.J.M. Maestroni, A. Conti and W. Pierpaoli

281 Pineal Responses to Stress are Different During the Day and at Night
R.J. Reiter and M.E. Troiani

VI. The human pineal and clinics

287 Decrease of Nocturnal Melatonin in the Plasmas of Healthy Adults Following Administration of Dexamethasone
L. Demisch, K. Demisch and T. Nickelsen

291 Pineal Calcification in Different Physiopathological Conditions in Humans
G.P. Trentini, C.F. De Gaetani, M. Criscuolo, M. Migaldi and G. Ferrari

305 Effects and Metabolism of Melatonin in Humans
J. Arendt, M.E. Aldhous, C.J. Bojkowski, J. English, C. Franey and D.J. Skene

311 Assay Methodology: Advances and Applications to Pineal Research
D.J. Skene

321 Melatonin in Humans: Methodological and Ethical Problems in Clinical Studies
B. Claustrat, J. Brun, C. Mallo, A. Faure, R. Zaidan, Y. Touitou and G. Chazot

329 Medical Imperatives and Moral Quandaries in Pineal Research on Children
D. Gupta

337 Saliva Melatonin Concentrations and Urinary 6-Hydroxymelatonin Sulphate Excretion Rates: Two Non-Invasive Techniques for Monitoring Human Circadian Rhythmicity
R. Nowak and R.V. Short

341 Synthesis of Carbon-11 Labelled Melatonin for PET Study *In Vivo*
D. Le Bars, S.K. Luthra, V.W. Pike, C. Luu-Duc and B. Claustrat

345 Serum Melatonin in Microsurgery of Pineal Tumors
P. Vorkapic, F. Waldhauser, T. Czech and G. Pendl

349 Drugs Affecting Melatonin Secretion in Man
Y. Touitou, A. Bogdan, B. Claustrat and C. Touitou

357 Effects of Triazolam, Taken at Bedtime, on Melatonin Circadian Rhythm and Sleep in Normal Man
M. L'Hermite-Balériaux, A. Van Onderbergen, M. Szyper, S. Casteels, M. L'Hermite, G. Copinschi and E. Van Cauter

361 Nocturnal Serum Melatonin Levels in Response to Different Intensities of Evening Bright Light Exposure in Healthy Man
G. Borg, J. Beck-Friis, B.F. Kjellman, B.E. Thalén, F. Unden and L. Wetterberg

365 Effects of the Administration of Melatonin on Daily Plasma Melatonin, Prolactin and Cortisol Profiles in Humans
C. Mallo, R. Zaidan, A. Faure, J. Brun, G. Chazot and B. Claustrat

369 Age-Related Alterations of Human Serum Melatonin
F. Waldhauser and I. Trinchard-Lugan

377 Further Studies on the Circadian Rhythms of Serum Melatonin and Testosterone in Elderly Men
C. Carani, A. Baldini, F. Morabito, M. Resentini, G. Diazzi, G. Sarti, G. Del Rio and D. Zini

381 Pineal Anti-Tumor Activity (PATA) of Rats Under Different Physiological Conditions
H. Bartsch, C. Bartsch and B. Flehmig
