Contents

Chapter 1	**Nature's Chemical Treasure Trove**	**1**
	1.1 Green With Envy	1
	1.2 Amazing Chemistry	2
	1.3 Ubiquitous Pigments	7
	1.4 Shellfish Poisoning	11
	1.5 Nature's Numbers	14
	1.6 The Human Chemical Factory	16
	1.7 In the Beginning	19
	1.8 Uses and Abuses	21
	References	25
Chapter 2	**The Scent of Beavers**	**27**
	2.1 Ewhurst Park	27
	2.2 Hunted to Extinction	29
	2.3 Castoreum	31
	2.4 Anal Gland Secretions	35
	References	37
Chapter 3	**The Shepherd and the Draper**	**39**
	3.1 Weatherproof Smocks	39
	3.2 Lanolin	40
	3.3 Gabardine	43

Nature's Amazing Chemistry: Reflections on Its Complexity and Diversity
By Michael Freemantle

Published by the Royal Society of Chemistry, www.rsc.org

3.4 Luxury Fashion House 45
References 46

Chapter 4 Snakes and Hypertension 48

4.1 ACE Inhibitors 48
4.2 A Landmark Discovery 50
4.3 Another Remarkable Discovery 54
4.4 Teprotide 55
References 57

Chapter 5 Exotic Lobsters and Scarlet Ibises 60

5.1 Unusual Shell Colours 60
5.2 Astaxanthin 62
5.3 Sources of Astaxanthin 64
5.4 Human Health Benefits 66
References 68

Chapter 6 Toxic African Beetle Larvae 71

6.1 Kalahari Desert 71
6.2 Arrow Poison 74
References 76

Chapter 7 Mediterranean Rock Snails and the Colour Purple 77

7.1 Pervasive Purple 77
7.2 Tyrian Purple 78
7.3 Perkin's Purple 83
References 88

Chapter 8 Sleeping Beauties 90

8.1 Water Bears 90
8.2 Microscopic Animals 92
8.3 Cryptobiosis 93
8.4 Desiccation 95
8.5 Tun Formation 98
References 99

Chapter 9 Keeping Time Day and Night 101

9.1 Our Internal Alarm Clock 101
9.2 The Fruit Fly 103
9.3 One of the Great Mysteries of Neuroscience 109
References 111

Chapter 10 Puddling in Mud **114**

10.1 A Kaleidoscope of Butterflies 114
10.2 A Supplementary Diet 116
10.3 Puddling for Sodium 118
10.4 Animal Body Fluids 120
References 124

Chapter 11 Pigs and Pannage **126**

11.1 An Early Trip to the New Forest 126
11.2 Pannage and Poisoning 128
11.3 Cause of Acorn Poisoning 130
References 132

Chapter 12 Dumb Cane **134**

12.1 Excruciating Torments 134
12.2 Nuremberg Military Tribunals 135
12.3 Poisonings 138
12.4 A Conundrum 140
References 141

Chapter 13 Lady's Bedstraw **143**

13.1 A Walk in the Countryside 143
13.2 Coumarin 145
13.3 Human Consumption 148
13.4 Warfarin 150
References 151

Chapter 14 The Common Snowdrop **152**

14.1 Mid-January 152
14.2 Snowdrop Proteins 154
14.3 Snowdrop Alkaloids 155
14.4 Galantamine 156
14.5 Mid-February 158
References 159

Chapter 15 Himalayan Blue Poppies and Autumn Leaves **161**

15.1 Warring Flowers 161
15.2 Blue Poppy Pigments 163
15.3 Colour Change 164
15.4 Autumn Foliage 169
References 172

Chapter 16 An Ancient Blue Dye 174

16.1 A Terrible Appearance in Fight 174
16.2 Extracting the Dye From Woad 176
16.3 Synthetic Indigo 179
References 182

Chapter 17 The First True Drug 184

17.1 Analgesic of Choice 184
17.2 Heroin Cough Mixture 186
17.3 Opium: Known Since Ancient Times 187
17.4 Opiates and Opioids 190
17.5 Unlocking the Mysteries of Opium 192
References 194

Chapter 18 The World's Most Abundant Polymer 196

18.1 Billions of Tons 196
18.2 Chemists Get to Grips With Cellulose 198
18.3 Synthesis of Cellulose 200
18.4 Nitrocellulose 202
18.5 The First Synthetic Plastic 207
References 210

Chapter 19 Old Harry and Wild Cabbage 213

19.1 Old Harry Rocks 213
19.2 Zig-Zag Paths 215
References 219

Chapter 20 Fixing Nitrogen 221

20.1 Essential for Life on Earth 221
20.2 Nitrate Minerals 223
20.3 Darwin Visits the Mines 225
20.4 Fertilizers 226
20.5 Explosives 229
References 231

Chapter 21 Cobalt in Cornwall and the Congo 234

21.1 A Prize for the Best Cobalt 234
21.2 Cobalt Confusion 238

21.3 Bristol Blue Glass 240
21.4 Cobalt Production and Applications 243
21.5 Cobalt in the Congo 244
References 249

Chapter 22 Not Just a Nasty Gas 252

22.1 As I Lay Awake 252
22.2 Sulphuretted Hydrogen 254
22.3 Analysis 256
22.4 Therapeutic Applications 259
References 261

Chapter 23 The Rise and Fall of Mercury 263

23.1 Gold Mining 263
23.2 The Element Mercury and Its Uses 265
23.3 Cinnabar and Vermillion 271
23.4 Corrosive Sublimate 273
23.5 An Explosive Mercury Compound 276
References 280

Chapter 24 Blue John 284

24.1 A Horror Story 284
24.2 Fluorite 285
24.3 Cause of Blue John Colours 287
24.4 Radioactive Damage and Rare Earth Elements 289
References 291

Chapter 25 Dark Oxygen and Manganese Nodules 292

25.1 An Essential Element 292
25.2 Oxygen in the Oceans 293
25.3 Polymetallic Nodules 295
25.4 Oxygen Production in the Abyss 298
References 300

Chapter 26 The Secrets of Soil 302

26.1 A Walk in the Woods 302
26.2 Humus, Humic Substances and Humification 307

26.3 Selman Waksman, Soil Microbiologist and Nobel Laureate 308
26.4 The Humic Substance Paradigm 311
26.5 The Soil Humeome 313
26.6 Non-invasive Techniques 315
References 316

Subject Index 319
