Foreword IX

Hanson, L.Å.; Adlerberth, B.; Carlsson, K.; Coffman, K.; Dahlgren, U.; Nilsson, K.; Jalil, F.; Roberton, D. (Göteborg/Lahore): Mucosal Immunity – From Past to Present 1

Mucosal Barrier

Svanborg Edén, C.; Linder, H.; Man, P. de; Mattsby-Baltzer, I. (Göteborg): Adherence, Lipopolysaccharide and Mucosal Inflammation 9

Carlstedt, I. (Lund); Sheehan, J.K. (Manchester): Structure and Macromolecular Properties of Mucus Glycoproteins 16

Leffler, H. (San Francisco, Calif.): The Role of Epithelial Cell Surface Glycoconjugates in Self-Not-Self and Self-Self Interaction 25

Lomberg, H.; Svanborg Edén, C. (Göteborg): Density of Mucosal Receptors for Attaching *Escherichia coli* 35

Abraham, S.N.; Beachey, E.H. (Memphis, Tenn.): Binding of Bacteria to Mucosal Surfaces 38

Andersson, B.; Svanborg Edén, C. (Göteborg): Mechanisms of Pneumococcal Attachment 44

Formal, S.B.; Hale, T.L.; Kapfer, C. (Washington, D.C.): Association of Pathogens with the Intestinal Mucosa and the Design of Vaccines 46

Interaction of Lymphoid Cells with the Epithelial Environment

Brandtzaeg, P.; Sollid, L.M.; Bjerke, K.; Kett, K.; Kvale, D.; Rognum, T.O.; Scott, H.; Thrane, P.S. (Oslo): Interactions of Lymphoid Cells with the Epithelial Environment 51

Sollid, L.M.; Brandtzaeg, P.; Kvale, D.; Gaudernack, G.; Scott, H.; Thorsby, E. (Oslo): T Cell-Epithelium Interactions in Relation to Gut Immunity..... 60
Breitfeld, P.P. (Cambridge, Mass./Boston, Mass.); Harris, J.M.; Mostov, K.E. (Cambridge, Mass.): Cell Biology of the IgA Receptor in Polarized Epithelia 66
Ahlstedt, S.; Enander, I.; Johansen, K. (Göteborg): Immunological Regulation of the Appearance of Goblet Cells in the Mucosa..... 71
Mayer, L.; Eisenhardt, D.; Shlien, R. (New York, N.Y.): Selective Induction of Antigen Nonspecific Suppressor Cells with Normal Gut Epithelium as Accessory Cells..... 78
McGuire, E.J.; Cebra, J.J.; Roth, St. (Philadelphia, Pa.): Copurification from Human Milk of a Galactosyltransferase and Secretory Component..... 81
Mestecky, J. (Birmingham, Ala.): Interaction of Lymphoid Cells with Epithelial Cells: Selectivity of the Expression of IgA in Mucosal Plasma Cells and of the Transport of Polymeric IgA..... 83

Secreted Mucosal Mediators

Nadel, J.A. (San Francisco, Calif.): Secreted Mucosal Mediators in Airway Epithelium..... 91
Coffman, R.L.; Mosmann, T.R. (Palo Alto, Calif.): Isotype Regulation by Helper T Cells and Lymphokines..... 96
Lundgren, O.; Svanborg Edén, C.; Jodal, M. (Göteborg): Mucosal Nerves and Immunological Function..... 104
Dahlgren, U.I.H.; Wold, A.E.; Hanson, L.Å; Jodal, M.; Lundgren, O. (Göteborg): Vasoactive Intestinal Polypeptide Might Influence the Biliary IgA Antibody Response in the Rat..... 118
Lachmann, P.J. (Cambridge): Does Complement Play a Role in Mucosal Immunity?..... 121
Rits, M. (Louvain); Hiemstra, P.S. (Leiden); Bazin, H. (Louvain/Brussels); Es, L.A. van; Daha, M. (Leiden); Vaerman, J.P. (Louvain): Activation of Rat Complement by Soluble and Insoluble Immune Complexes of Rat IgA..... 129
Bienenstock, J.; Denburg, J.; Scicchitano, R.; Staed, R.; Perdue, M.; Stanisz, A. (Hamilton, Ont.): Role of Neuropeptides, Nerves and Mast Cells in Intestinal Immunity and Physiology..... 134

Migratory Patterns of Lymphoid Cells Associated with Mucosal Tissue

Jalkanen, S. (Turku); Streeter, P.; Lakey, E.; Bargatze, R.; Butcher, E.C. (Stanford, Calif./Palo Alto, Calif.): Lymphocyte and Endothelial Cell Recognition Elements that Control Lymphocyte Traffic to Mucosa-Associated Lymphatic Tissues..... 144

Reynolds, J. (Calgary, Alta.): Functional Studies of Peyer's Patches Based on Emigrant Cell Analysis..... 150
Ottaway, C.A. (Toronto, Ont.): Neuropeptides, Neurons and Mucosal Lymphoid Cell Migration..... 157
Cerf-Bensussan, N.; Jarry, A.; Gnéragbé, T.; Brousse, N.; Lisowska-Grospierre, B.; Griscelli, C.; Guy-Grand, D. (Paris): Monoclonal Antibodies Specific for Intestinal Lymphocytes..... 167
Cebra, J.J.; Cebra, E.R.; Cebra-Thomas, J.A.; George, A.; Lebman, D.A.; London, St. D.; Rubin, D.H.; Schweitzer, P.A. (Philadelphia, Pa.): Specific and Non-specific Perturbations of B- and T-Cell Subsets in Peyer's Patches..... 173

IgA B Cell Differentiation in the Mucosal System

Strober, W.; Sneller, M.C. (Bethesda, Md.): Cellular and Molecular Events Accompanying IgA B Cell Differentiation..... 181
Radbruch, A.; Irlenbusch, S. (Köln): Directed Ig Class Switch Recombination..... 191
Stavnezer, J.; Radcliffe, G. (Worcester, Mass.); Severinson, E. (Stockholm): Specificity of Immunoglobulin Heavy Chain Switching by Cultured I.29 B Lymphoma Cells..... 197
Tokumoto, H.; Shimada, T.; Doi, T.; Takeuchi, E.; Kawabe, T.; Yoshida, H.; Yodoi, J. (Kyoto): Monoclonal Antibody (G6) Inhibiting IgA Binding to FixedαFc R(+) T2D4 Cells..... 208
Mayer, L. (New York, N.Y.): Regulation of IgA Synthesis and Secretion: Role of Isotype Restricted and Nonrestricted Signals..... 215

Oral Tolerance

Kagnoff, M. (La Jolla, Calif.): Oral Tolerance..... 222
Sorensen, C.M.; Kapp, J.A.; Pierce, C.W. (St. Louis, Mo.): Ir Gene Control of Help and Suppression..... 227
Green, D.R. (Edmonton, Alta.); McGhee, J. (Birmingham, Ala.); Ptak, W. (Krakow): Contrasuppression and the Control of Microenvironmental Immune Responses..... 236
Emancipator, St. N.; Lamm, M.E. (Cleveland, Ohio): Oral Tolerance as a Protective Mechanism against Hypersensitivity Disease..... 244
Wold, A.E.; Dahlgren, U.I.H.; Ahlstedt, St.; Hanson, L.Å. (Göteborg): Rats Are Sensitive to Induction of Tolerance by Feeding Only at Young Age..... 251
Ferguson, A.; Bruce, M.G.; Strobel, S. (Edinburgh): 'Processing' of Antigen by the Gut..... 253
Chiller, J.M.; Glasebrook, A.L. (La Jolla, Calif.): Oral Tolerance and the Induction of T Cell Unresponsiveness..... 256

Effector Mechanisms in Mucosal Defense

Ogra, P.L. (New York, N.Y.); Volovitz, B. (Petach Tiqva); Riepenhoff-Talty, M. (New York, N.Y.); Freihorst, J. (Hannover): Mucosal Viral Infections: Mechanisms of Immunity and Disease..... 266
Lycke, N.; Holmgren, J. (Göteborg): Mucosal Immune Response to Cholera Toxin – Cellular Basis of Memory and Adjuvant Action..... 274
Sibille, Y.; Chatelain, B.; Staquet, P.; Delacroix, D.L.; Vaerman, J.P. (Brussels): IgA Receptors on Human Alveolar Macrophages..... 282
Underdown, B.J.; Skea, D.L.; Loney, G.M. (Hamilton, Ont.): Snider, D.P. (Bethesda, Md.): Murine Giardiasis and Mucosal Immunity: A Model for the Study of Immunity to Intestinal Protozoan Parasites..... 287
Behar, S.M.; Fischer, B.; Diamond, B.; Scharff, M.D. (Bronx, N.Y.): Variable Region Gene Utilization and Environmental Antigens in Autoimmunity..... 297
Wold, A.E. (Göteborg); Mestecky, J. (Birmingham, Ala.); Svanborg Edén, C. (Göteborg): Agglutination of *E. coli* by Secretory IgA-A Result of Interaction between Bacterial Mannose-Specific Adhesins and Immunoglobulin Carbohydrate? 307
Mascart-Lemone, F. (Brussels); Cadrane, S. (Brussels/Louvain); Delacroix, D.L.; Duchateau, J.; Vaerman, J.P. (Brussels): Change in Molecular Size of Antigliadin IgA in Serum Related to Presence of Antigen in the Gut..... 310
Robbins, J.B.; Schneerson, R.; Acharya, I.L.; Lowe, Ch.U.; Szu, S.Ch.; Daniels, E.; Yang, Y.; Trollfors, B. (Bethesda, Md.; Teku; Göteborg): Protective Roles of Mucosal and Serum Immunity against Typhoid Fever..... 315
Subject Index..... 321
