1 Thematic Area I. – Sustainable Development of the Regions	13
1.1 What is a Region?	13
1.1.1 Homogeneous region	13
1.1.2 Heterogeneous region	13
1.2 What is a regionalism?	14
1.3 What is a regionalization?	14
1.4 What is a development?.....	14
1.4.1 The difference between terms “the Development” – “the Growth” and “the Evolution”	14
1.4.2 Regional planning.....	15
1.4.3 Regional Operations Plans (ROP)	15
1.5 Development tools in EU	15
1.5.1 EU Structural Funds.....	15
1.6 EU Region.....	16
1.6.1 Cohesion Regions	16
1.7 Euroregion	16
1.8 Push and pull regions.....	16
1.8.1 Push – pull factors	16
1.9 What is a Sustainability.....	17
1.9.1 Sustainability/Persistence/Resistance of a Development	17
1.9.2 Local Agenda 21	17
1.9.3 Community/participatory/local planning	17
1.10 Ways to ensure the sustainability of regional development	18
1.11 Tools of the Sustainable Regional Development.....	18
1.12 Principles of the Sustainable Regional Development.....	19

1.13	Components of sustainable regional development.....	20
1.14	Vision of Sustainable Regional Development	21
1.15	Role of quality of environment and landscape in regional development	21
1.15.1	European Landscape Convention	21
1.15.2	Importance of the Convention for participation of local people in care about landscape	22
1.15.3	Vision of Landscape Strategic Plan	22
1.16	European Strategy for Sustainable Development	23
1.17	The Strategic Framework for Sustainable Development in the Czech Republic ..	24
1.17.1	Nature Conservation and Landscape Protection Programme of the Czech Republic	25
1.17.2	Policy statement, the coalition agreement	25
1.17.3	Branding of Local Products – Regional Branding.....	25
1.17.4	Landscape integrated development plan - LIDP.....	25
1.17.5	Sustainable Development of tourism.....	26
1.17.6	Sustainable Development of touristic destination.....	26
1.18	What is a Geopark?.....	27
1.18.1	National Geoparks in the Czech Republic.....	28
1.19	Barriers to sustainable regional development.....	29
1.20	And what next?.....	30
2	Thematic area II. – Strategic Resources of Regional Development – Power	
	Industry	31
2.1	An introduction to power industry	31
2.2	World consumption of primary energy sources	32
2.3	State Energy Policy of the Czech Republic.....	35
2.4	Principles of Sustainable Power Industry.....	40
3	Thematic area III. – Natural Resources – Sustainable agriculture, Climate	43

3.1	Agriculture	43
3.1.1	Position of agriculture	43
3.2	Weather and Climate.....	44
3.2.1	Climate of the Czech Republic.....	44
3.3	Human impacts.....	48
3.3.1	Radiation balance.....	48
3.3.2	Total energy balance of the Earth's surface.....	49
3.4	Climatic conditions in the Czech Republic.....	50
3.4.1	Climatic region	51
3.5	Greenhouse effect.....	51
3.5.1	Conclusion	52
4	Thematic area IV – Nature and Landscape Protection in Sustainable Regional Development	53
4.1	Nature and Landscape Protection	53
4.2	History of Nature Protection	54
4.3	Main goal of present nature and landscape protection.....	55
4.3.1	Biological diversity (biodiversity)	55
4.3.2	Natural (ecosystem) process.....	56
4.4	Ecosystem services (Czech Republic)	57
4.5	Problems of nature and landscape protection.....	57
4.6	Main conceptual documents on nature and landscape protection in the Czech Republic	58
4.7	Conclusion	58
5	Thematic area V – The social aspects of sustainable regional development	59
5.1	Tourism	59
5.1.1	The economic importance of tourism in the Czech Republic	59
5.1.2	Analysis of the tourism offer.....	62
5.1.3	Analysis of the tourism demand	65

5.1.4	Analysis of the external environment destination of the Czech Republic	68
5.1.5	Tourism policy	68
5.1.6	Priority 1: Competitiveness of national and regional tourism products	69
5.1.7	Priority 2: Expansion and improvement of infrastructure and tourism services	70
5.1.8	Priority 3: Tourism marketing and human resource development	71
5.1.9	Priority 4: Creating the organizational structure of tourism	73
5.1.10	The regional view	73
5.2	Current tourism trends, what awaits us in the coming seasons	74
5.2.1	Implementation plan of EC activities in tourism	74
5.2.2	Trends in the tourist offer	74
5.2.3	Expected activities in destinations	75
5.2.4	The quality of tourism services	75
5.2.5	New technologies in tourism	75
5.3	New trends in cycle tourism	76
5.3.1	Terminology	76
5.3.2	Basic typology of cyclotourists and bikers	76
6	Thematic area VI – Environmental Management Systems, Environmental Audits	77
6.1	Sustainable development in the Czech Republic	77
6.2	Local Agenda 21	78
6.3	Instruments realization of State Environmental Policy	81
6.4	Legislative instruments of State Environmental Policy	81
6.4.1	Basic characteristics of the Legislative instruments	81
6.4.2	Basic division	82
6.4.3	Ecological audit	82
6.4.4	Risk Analysis	84
6.4.5	Technical Feasibility Study	86

6.4.6	Environmental Impact Assessment (E.I.A.)	86
6.4.7	Analysis and assessment of risk of a major accident	89
6.4.8	Methodology for risk assessment of environmental damage	89
6.4.9	Emergency Plan	91
6.4.10	Flood Protection Plan	92
6.4.11	Good Agricultural Practice	92
6.4.12	Integrated prevention IPPC	93
6.5	Voluntary instruments of State Environmental Policy	94
6.5.1	Definition of voluntary environmental activities	94
6.5.2	Division of voluntary environmental activities	94
6.5.3	Formation of voluntary environmental activities	94
6.5.4	Division of voluntary activities	95
6.5.5	Recommended practices	96
6.5.6	EMS (ISO 14001)	96
6.5.7	EMAS	97
6.5.8	Ecodesign	97
6.5.9	Monitoring a targeting	98
6.5.10	Type I environmental labelling programme	98
6.5.11	Voluntary environmental agreements	99
6.5.12	LCA – Life cycle assessment	99
6.5.13	Cleaner Production Assessment	99
6.5.14	Environmental Management Accounting (EMA)	100
6.5.15	Environmental benchmarking	100
6.5.16	Environmental reporting	100
6.5.17	Self-declared environmental claims (environmental labelling type II) ..	100
6.5.18	Type III environmental declarations, Environmental Product Declaration (EPD)	101

6.6	Environmental Management Systems.....	101
6.6.1	History of ISO 14001.....	101
6.6.2	History of EMAS (EU).....	101
6.6.3	History of EMAS (ČR).....	102
6.6.4	Comparison of ISO 14000 and EMAS.....	102
6.6.5	Requirements on system EMS.....	103
7	Thematic area VII – Economic and Politics of SDR – Assessment and valuation of natural resources	105
7.1	Basic terms and their content.....	105
7.2	The origins of life.....	106
7.3	Briefly about the history of economics and evaluation of nature.....	110
7.3.1	Changing of ethical values with the onset of the industrial revolution .	110
7.3.2	Classical English political economy.....	110
7.3.3	Neoclassical economic theory.....	111
7.4	Fundamentals of valuation of market natural resources.....	112
7.4.1	Basic methods of valuing natural resources.....	113
7.5	The economic value of nature by neoclassical economics.....	115
7.5.1	Direct use value.....	115
7.5.2	Indirect use value.....	115
7.5.3	Option and existence value.....	116
7.5.4	Preferential methods.....	117
7.5.5	Hedonic pricing.....	117
7.5.6	Method of travel (transport, transportation) costs.....	118
7.5.7	Contingent valuation method - CVM.....	118
1.1	Non-market evaluation of ecosystem services.....	119
7.5.8	Demand (preferred) method.....	119
7.5.9	Cost method.....	120

7.5.10	Hessian method of evaluating habitat.....	121
7.6	Life-Giving Ecosystems	123
7.7	The approaches used to assess of ecosystem services	125
7.7.1	Estimate of the value of annual ecosystem services of 1 ha forest (healthy mixed forest with plenty of water):.....	125
7.7.1.1	Estimating the value of annual ecosystem services of 1 ha of floodplains (method of cost of replacement and BVM):	126
8	Recommended literature	128
