Preface to the Twenty-fifth Anniversary Edition xi

Preface to the First Edition xxiii

1. THE IDEA OF EVOLUTION: ITS SCOPE AND IMPLICATIONS 1

The Old Worldview and the New 3

The Possibilities of Change 7

The Nature of Science 13

The Historian's Problems 18

2. THE PRE-EVOLUTIONARY WORLDVIEW 27

Human History 29

Theories of the Earth 31

The Meaning of Fossils 35

Natural Theology 38

The New Natural History 41

The Problem of Generation 45

3. EVOLUTION IN THE ENLIGHTENMENT 48

Human Nature 50

The Origin of Society 54

The History of the Earth 57

The Chain of Being 62

The New Classification 66

The New Theories of Generation 71

The Materialists 81

The First Transmutationists 84

4. NATURE AND SOCIETY, 1800–1859 96
The Invention of Progress 99
The Framework of Science 106
Georges Cuvier: Fossils and the History of Life 108
Catastrophism and Natural Theology in Britain 115
The Philosophical Naturalists 120
Radical Science 126
The Principle of Uniformity 129
The Vestiges of Creation 134

5. THE DEVELOPMENT OF DARWIN'S THEORY 141
Darwin's Early Career 148
The Crucial Years: 1836–1839 155
Development of the Theory, 1840–1859 164
Wallace and Publication of the Theory 173

6. THE RECEPTION OF DARWIN'S THEORY 177
The Foundations of Darwinism 180
The Scientific Debate 188
Darwinism and Design 202
Human Origins 207
Evolution and Progress 216

7. THE ECLIPSE OF DARWINISM:
SCIENTIFIC EVOLUTIONISM, 1875–1925 224
Reconstructing the History of Life 227
The Age of the Earth 234
Neo-Lamarckism 236
Orthogenesis 247
Neo-Darwinism 251
Mendelism and the Mutation Theory 260

8. EVOLUTION, SOCIETY, AND CULTURE, 1875–1925 274
The Missing Link 278
The Origins of Culture and Society 284
Evolution and Race 292
Social Evolutionism 297
Biological Determinism 307
Neo-Lamarckism and Society 315

Evolution and Philosophy 317
Evolution and Religion 322

9. THE EVOLUTIONARY SYNTHESIS 325
Population Genetics 327
The Modern Synthesis 333
The Origin of Life 339
Wider Implications of the Synthesis 340

10. MODERN DEBATES AND DEVELOPMENTS 347
The History of Life 349
Human Origins 353
Sociobiology and Ultra-Darwinism 356
Opponents of Ultra-Darwinism 361
Anti-Darwinians 366
Darwinism not Scientific? 369
Creationism 375

Bibliography 383
Index 451
