Contents

1. Drugs for treating respiratory system diseases **1**

1.1 Bronchodilators 1
1.2 Corticosteroids 13
1.3 Combination agents 16
1.4 Mucoactive drugs 16
1.5 Development of new drugs for COPD 20
References 35

2. Novel structural features and advances in antithrombotic drugs (anticoagulant, antiplatelet, and thrombolytic drugs) **43**

2.1 Anticoagulant drugs 44
2.2 Antiplatelet drugs 56
2.3 Fibrinolytic drugs 66
2.4 Novel antithrombotic drugs 67
2.5 Novel antiplatelet strategies 69
2.6 Targeting platelet surface receptors 70
References 84

3. Thyroid and antithyroid drugs **97**

3.1 Drugs for treatment of hyperthyroidism 98
3.2 Drugs for treatment of hypothyroidism 99
References 105

4. Hyperglycemic and hypoglycemic drugs **109**

4.1 Insulin and insulin preparations 110
4.2 Oral antidiabetic drugs 112
4.3 Sodium glucose cotransporter inhibitors 131
4.4 Drugs in development 132
References 155
Further reading 171

5. Steroid hormones **173**

5.1 Glucocorticoids 175
5.2 Mineralocorticoids 182
5.3 Estrogens 185
5.4 Progestins 189
5.5 Androgens 195
5.6 Recent advances in steroids 205
5.7 Brief schemes for synthesizing some widely used steroids 208
References 213
Further reading 222

6. Antineoplastic agents **223**

6.1 Chemotherapeutic agents 224
6.2 Targeted cancer therapy agents 245
6.3 Immunotherapeutic agents 255
6.4 Hormonal anticancer drugs 258
6.5 Novel recently developed small molecule anti-cancer agents 269
References 276

7. Immunopharmacological drugs **289**

7.1 Immunosuppressants 289
7.2 Immunostimulants 301
References 307

8. Antibiotics **315**

8.1 β-Lactam antibiotics—Penicillins, cephalosporins, carbapenems, monobactams 316
8.2 Tetracyclines 334
8.3 Macrolide antibiotics 344
8.4 Aminoglycosides 348
8.5 Peptide antibiotics 352
8.6 Miscellaneous antibiotics 363
8.7 An overview of the antibiotics approved in the last 2 decades 378
References 386

9. Antibacterial drugs **405**

9.1 Sulfonamides 405
9.2 Antimicrobial quinolones 410
9.3 Antimicrobial nitrofurans 422
9.4 The latest supplements to the area of new antibacterial drugs 427
References 429

10. Antimycobacterial drugs 437

10.1 Antituberculosis drugs 437
10.2 Antileprosy drugs 443
References 447

11. Antifungal drugs 453

11.1 Polyenes 454
11.2 Azoles 455
11.3 Echinocandins 458
11.4 Allylamines 458
11.5 Antimetabolites 460
11.6 Miscellaneous antifungal agents 460
11.7 New antifungal alternatives 461
References 468

12. Antiviral drugs 473

12.1 Direct virus-targeting antiviral drugs 477
12.2 Indirect virus targeting antivirals 510
12.3 Attempts to develop effective medication for the treatment of COVID-19 512
References 535

13. Drugs for treating protozoan infections 555

13.1 Drugs for pharmacotherapy of malaria (antimalarials) 555
13.2 Drugs for pharmacotherapy of amebiasis 557
13.3 Drugs for pharmacotherapy of leishmaniasis 559
13.4 Drugs for pharmacotherapy of trypanosomiasis 561
13.5 Drugs for pharmacotherapy of balantidiasis and cystoisosporiasis 564
13.6 Drugs for pharmacotherapy of giardiasis 564
13.7 Novel antiprotozoal drugs 567
References 575

14. Anthelmintics 583

14.1 Piperazines 586
14.2 Phenothiazines 587
14.3 Benzimidazoles 587
14.4 Imidazothiazoles 588
14.5 Tetrahydropyrimidines 588
14.6 Isoquinolines 588

14.7 Salicylanilides 589
14.8 Arylisothiocyanates 590
14.9 Aminoacetonitrile derivatives 590
14.10 Spiroindoles 591
14.11 Macrocyclic lactones 591
14.12 Melaminylthioarsenates 593
14.13 Peptides (cyclooctadepsipeptide) 593
14.14 Quaternary/tertiary amines 593
14.15 Pyridines 594
14.16 Benzene-sulphonamides 594
14.17 Halogenated phenols 594
14.18 Natural plant products with anthelmintic properties 595
References 598

15. Proton pump inhibitors **605**

15.1 Esomeprazole—nexium 607
15.2 Lansoprazole—prevacid 610
15.3 Dexlansoprazole—dexilant 611
15.4 Pantoprazole—protonix 613
15.5 Rabeprazole—aciphex 614
References 617

16. Drugs for treatment of erectile dysfunction **625**

16.1 Drugs for intracavernosal administration 626
16.2 Drugs for nonintracavernosal administration 628
16.3 PDE-5 inhibitors 629
16.4 Novel therapies for erectile dysfunction 637
References 640

17. Antiobesity drugs **647**

17.1 Recent anti-obesity drugs 647
17.2 Main anti-obesity drugs of today 653
17.3 Anti-obesity compounds in development 659
References 669
