Preface viii
About the Authors ix

Chapter 1 Providing Context 1

Photographing the Scene within a Crime Scene Processing Framework 5

Chapter 2 Equipment and Accessories 7

Chapter 3 Camera Terms and Photography Principles Made Easy to Understand 16

Camera Shooting/Exposure Modes 16
Other Modes 18
Obtaining Quality Crime Scene Images: Concepts and Methods 19
Exposure and Light Quality 20
Ambient Light 20
ISO 21
Aperture/f-Stop 22
Shutter Speed 24
Exposure Compensation 26
Bracketing 26
Exposure Meters 28
Unusually Lit Scenes 31
Exposure Summary 34
Flash 34
Flash Controls and Functions 38
Flash Modes 38
Off-Camera Flash 41
Bounce Flash 43
Other Flash Diffusion Techniques 46
Obtaining Clear and Sharp Images 50

v

	Properly Focusing the Camera	51
	Preventing Blur through Shutter Speed Selection	54
	Depth of Field	56
	Auto Shooting Mode Causes Inferior Depth of Field	59
	Focusing Techniques to Improve Depth of Field	60
Chapter 4	Crime Scene Photography: An Overview and Checklist	61
	An Overview and Checklist	61
	Checklist	65
	Summary	69
Chapter 5	Overall Photographs	72
	Overall Photograph Procedure	74
Chapter 6	Mid-Range Photographs	82
Chapter 7	Close-Up Photographs	92
	Steps	97
	Close-Up Photograph Tips	100
Chapter 8	Photographing Footwear/Tire Tracks and Impressions	103
	Indoor Dust Impressions	103
	Photographing Prints Lifted with an Electrostatic Dust Print Lifter	107
	Outdoor Photography of Impressions	108
	Tire Impressions	115
Chapter 9	Photographing Latent Fingerprints	117
	Photographing a Latent Print: Step by Step	120

Chapter 10 Night Photography: Painting with Light 127
Painting with Light Using a Flashlight or Other Continuous Light Sources 130
Painting with Light by Using a Flash: Step by Step 131

Chapter 11 Alternate Light Source Photography 134
Method 136
Infrared 141

Chapter 12 Photographing Vehicles 143

Chapter 13 Injury/Deceased Remains Photography 148
Exposure Techniques 150
Injury Photographs of Living Persons 151
Autopsy Photography 154

Chapter 14 Mobile Device Photography 160

Chapter 15 Tips for Photographing Bloodstain and Shooting Scene Evidence 166
Bloodstain Evidence Photography 167
Photography of Chemical Reagents Used to Visualize Latent Bloodstains 170
Shooting Scene Photography 175
Photographic Documentation of Bullet Holes and Bullet Trajectories 177
Photography of Trajectories 180
Photography of Trajectories Depicted by Lasers 181
