Preface xxiii

Your Book Comes with Exclusive Perks - Here's How to Unlock Them xxvii

Part 1: The Basics 1

Chapter 1: Understanding Business Intelligence and Power BI 3

Exploring key concepts of business intelligence 4

Domain • 4

Data • 5

Internal and external data • 5

Structured, unstructured, and semi-structured data • 6

Model • 7

Transforming and cleansing • 7

Defining and categorizing • 8

Organizing • 8

Analysis • 9

Visualization • 10

Discovering the Power BI ecosystem 11

Core and Power BI-specific • 11

Core and non-Power BI-specific • 12

Non-core and Power BI-specific • 12

Natively integrated Microsoft technologies • 13

The extended Power BI ecosystem • 14

Choosing the right license 15

Shared capacity • 15

Free • 15

Pro • 16

Dedicated capacity • 16
Microsoft Fabric • 16
Premium Per User • 17
Embedded • 17
Power BI Report Server • 18
Introducing Power BI Desktop and the Power BI service 18
Power BI Desktop • 18
The Power BI service • 19
Summary 20
Questions 20
Further reading 21

Chapter 2: Planning Projects with Power BI 23

Planning business intelligence projects 23
Identifying stakeholders, goals, and requirements • 24
Stakeholders • 24
Goals • 24
Requirements • 25
Procuring the required resources • 27
Domain experts • 27
Data modelers • 28
Report authors • 28
Administrators • 29
Defining the data sources • 29
Designing a data model • 29
Identifying facts and dimensions • 30
Creating a bus matrix • 30
Determining a model mode • 31
Planning reports and dashboards • 32
Example scenario: utilization reporting 32
Identifying stakeholders, goals, and requirements • 33
Procuring the required resources • 34
Defining the data sources • 34
Designing a model • 34
Planning reports and dashboards • 35

Summary 36
Questions 37
Further reading 37

Part 2: The Desktop 39

Chapter 3: Up and Running with Power BI Desktop 41

Technical requirements 41
Downloading and running Power BI Desktop 42
Downloading Power BI Desktop • 42
Power BI Desktop (the trusted Microsoft Store app) • 42
Power BI Desktop (EXE) • 43
Power BI Desktop (Report Server edition) • 43
Running Power BI Desktop • 44
Touring the desktop 44
Header • 45
Views • 46
Panes • 46
Canvas • 47
Wallpaper • 47
Page and Layout Controls • 47
Footer • 47
Ribbon • 47
The Formula Bar • 49
Introducing DAX 49
Generating data 50
Creating a calculated table • 50
Creating calculated columns • 52
Formatting columns • 54
Creating visualizations 55
Creating your first visualization • 55
Formatting your visualization • 58
Adding analytics to your visualization • 60
Creating and using a slicer • 60
Creating more visualizations • 63
Editing visual interactions • 67

Summary 70
Questions 70
Further reading 71

Chapter 4: Connecting to and Transforming Data **73**

Technical requirements 73
Getting data 74
Creating your first query • 74
Getting additional data • 80
Transforming data 81
Touring Power Query Editor • 81
Header • 82
Ribbon • 83
Formula Bar • 83
Queries Pane • 83
Data Canvas • 84
Query Settings • 84
Footer • 84
Transforming budget and forecast data • 84
Cleaning up extraneous bottom rows • 85
Filtering rows • 86
Unpivoting data • 87
Using Fill • 88
Changing data types • 88
Transforming People, Tasks, and January data • 89
Transforming the People query • 89
Transforming the Tasks query • 89
Transforming the January query • 90
Merging, copying, and appending queries 91
Merging queries • 91
Expanding tables • 93
Disabling queries from being loaded • 94
Duplicating queries • 95
Changing sources • 95
Appending queries • 96
Verifying and loading data 98
Organizing queries • 100

Checking column quality, distribution, and profiles • 101
Loading the data • 102
Summary 103
Questions 103
Further reading 103

Chapter 5: Creating Semantic Models and Calculations **105**

Technical requirements 105
Creating a semantic model 106
Touring the Model view • 106
Modifying the layout • 108
Creating and understanding relationships • 110
Exploring the semantic model • 114
Creating calculations 115
Calculated columns • 115
Understanding the context for calculated columns • 115
Creating calculated columns for utilization • 117
Using calculated columns to resolve data granularity issues • 120
Measures • 120
Understanding the context for measurements • 121
Creating measures for utilization • 123
Using visual calculations • 128
Checking and troubleshooting calculations 129
Boundary cases • 129
Slicing • 130
Grouping • 132
Summary 134
Questions 134
Further reading 135

Chapter 6: Unlocking Insights **137**

Technical requirements 137
Segmenting data 138
Creating groups • 138
Creating hierarchies • 140
Exploring hierarchies • 141

Understanding Row Level Security • 142
Creating roles • 142
Testing roles • 144
Using report navigation features 146
Drill through • 146
Using drill through • 146
Buttons • 149
Types of buttons • 149
Page and bookmark navigator buttons • 150
Button actions • 151
Button states • 152
Bookmarks • 153
Creating and using bookmarks • 153
Advanced bookmarks • 155
Questions and answers (Q&A) • 158
Best practices for Q&A • 158
Using a Q&A button • 159
Using Q&A in report authoring • 161
Synonyms • 163
Advanced analysis techniques 164
The Analyze and Summarize features • 164
Top-N filtering • 167
Gauges and KPIs • 168
What-if parameters • 169
Conditional formatting • 171
Quick measures • 172
Report tooltip pages • 173
Creating a report tooltip page • 174
Using a report tooltip page • 175
Key influencers • 175
Summary 176
Questions 177
Further reading 177

Chapter 7: Creating the Final Report 179

Technical requirements **179**

Preparing the final report **179**

Planning the final report • 180

Cleaning up • 180

Using a theme • 181

Creating a page template • 184

Using Sync slicers • 192

Adjusting the calendar • 193

Adding report filters • 194

Creating the final report pages **194**

Creating the Executive Summary page • 195

Creating the Division Management page • 198

Creating the Branch Management page • 201

Creating the Hours Detail page • 204

Creating the Employee Details page • 209

Creating the Introduction page • 211

Finishing up **212**

Creating mobile views • 212

Testing • 214

Cleaning up • 215

Summary **216**

Questions **217**

Further reading **217**

Part 3: The Service 219

Chapter 8: Publishing and Sharing 221

Technical requirements **221**

Creating an account **221**

Microsoft 365 • 222

Microsoft Fabric trial • 222

Introducing the service 222
Touring the service • 222
Header • 223
Preferences • 224
Resources and extensions • 225
Governance and insights • 225
Navigation pane • 226
Canvas • 227
Publishing and sharing 227
Creating a workspace • 227
Publishing • 229
What happens when you publish? • 232
Sharing • 234
Summary 237
Questions 237
Further reading 238

Chapter 9: Using Reports in the Power BI Service 239

Technical requirements 239
Viewing and using reports 240
File menu • 240
Save a copy • 241
Download this file • 241
Manage permissions • 241
Print this page • 243
Embed report • 244
Generate a QR code • 250
Settings • 250
Export menu • 252
Analyze in Excel • 252
PowerPoint • 252
PDF • 253
Share • 253
Teams • 256
Explore • 257
Subscribe to report • 258
Managing subscriptions • 261

Set alert • 261
Edit • 262
Ellipsis (...) • 262
Reset • 263
Bookmark • 263
Report bookmarks • 264
Personal bookmarks • 264
Persistent filters • 266
View • 266
Refresh visuals • 266
Comment • 267
Add to Favorites • 269
Editing and creating reports 269
Editing reports • 269
Creating a mobile layout • 270
Creating a report • 270
Summary 272
Questions 272
Further reading 273

Chapter 10: Understanding Dashboards, Apps, Metrics, and Security 275

Technical requirements 275
Understanding dashboards 275
Creating a dashboard • 276
Working with dashboards • 277
The File menu • 278
Edit • 279
Ellipsis menu • 282
Working with tiles • 282
Sizing and position • 283
Tile options • 283
Creating and using apps 286
Creating an app • 286
Getting and using apps • 291
Working with metrics 293
Creating scorecards and goals • 293
Using scorecards and goals • 294

KNIHOVNA
KNIHOVNA
VYSOKÁ ŠKOLA EKONOMICKÁ V PRAZE
Nam. W. Churchilla 4

Understanding security and permissions 296
Workspace permissions • 297
App permissions • 298
Object permissions • 298
RLS • 300
Summary 301
Questions 302
Further reading 302

Chapter 11: Refreshing Content 305

Technical requirements 305
Installing and using data gateways 305
Downloading and installing a data gateway • 307
Personal mode installation • 308
Standard mode installation • 310
Running a data gateway • 314
Personal mode • 315
Standard mode • 315
Configuring a data gateway • 316
Service Settings • 316
Diagnostics • 317
Network • 317
Connectors • 318
Recovery Keys • 318
Managing a data gateway • 319
Adding connections • 324
Refreshing semantic models 325
Scheduling a refresh • 325
Summary 331
Questions 331
Further reading 331

Part 4: The Future 333

Chapter 12: Deploying, Governing, and Adopting Power BI 335

Technical requirements 335

Understanding usage models **336**
Anarchy model • 336
Centralized model • 337
Federated model • 338
Golden semantic model • 340
Hybrid model • 341
Governing and administering Power BI **342**
Classifying content • 342
Domains • 343
Tags • 345
Endorsements and featured content • 348
Tenant settings • 350
Microsoft Fabric • 351
Help and support settings • 351
Domain management settings • 352
Workspace settings • 352
Information protection • 352
Export and sharing settings • 352
Discovery settings • 354
App settings • 354
Integration settings • 354
Power BI visuals • 355
R and Python visual settings • 355
Audit and usage settings • 356
Dashboard settings • 356
Developer settings • 356
Admin API settings • 357
Gen1 dataflow setting • 357
Template app settings • 357
Q&A settings • 357
Semantic model security • 357
Advanced networking • 358
Metric settings • 358
User experience experiments • 358
Share data with your Microsoft 365 services • 358
Insight settings • 358
Datamart setting • 358

Data model setting • 358
Scale-out settings • 358
OneLake settings • 358
Git integration • 358
Copilot and Azure OpenAI Service • 359
Additional workloads • 359
Organizational visuals • 359
Deploying Power BI content • 361
Gateway governance • 364
Purview • 365
Adopting Power BI 367
Adoption strategies • 367
Summary 369
Questions 369
Further reading 370

Chapter 13: Working with Microsoft Fabric and Copilot 371

Technical requirements 371
Leveraging Data Factory 372
Working with Data Warehouse 375
Using Microsoft Fabric items 386
Working with Copilot 390
Summary 394
Questions 395
Further reading 395

Chapter 14: Putting Your Knowledge to Use 397

Technical requirements 397
Understanding the BI opportunity 397
Understanding the types of BI jobs and roles • 398
BI analysts • 398
BI developers • 400
BI administrators • 401
BI project managers • 402
Data warehouse architects • 403
BI managers • 404
BI directors or CDOs • 405

Growing your job and career **406**

Understanding the employment and career opportunities • 407

Consulting services • 407

Understanding the differences between consultants and employees • 408

Job search strategies • 409

Interviewing tips • 411

Negotiating benefits and compensation • 412

Negotiating the salary • 414

Continuing your journey **416**

Summary **419**

Questions **419**

Further reading **420**

Other Books You May Enjoy **423**
