

Contents

- 6 **Preface**
- 8 **Introduction**

1

- 14 **The history of 3D printing in relation to the visual arts**

2

- 37 **An overview of current 3D printing technologies, what each offers and how they might develop in the future**

3

- 57 **Crafts and craftspeople**
- 63 Case study: Jonathan Keep
- 68 Case study: Marianne Forrest
- 73 Case study: Michael Eden

4

- 78 **The Fine Arts**
- 87 Case study: Professor Keith Brown
- 92 Case study: Tom Lomax

5

- 98 **Design and designers: case studies from contemporary designers**
- 105 Case study: Assa Ashuach
- 109 Case study: Dr Lionel T. Dean
- 116 Case study: Dr Peter Walters, industrial designer and researcher

6

- 120 **The public face of 3D printing and its future in the arts: animators, hackspaces, geeks and fashion designers**
- 122 Fashion
- 123 Animation
- 127 The open source hardware community

- 136 **Conclusion**
- 139 **Glossary**
- 143 **Interview questionnaire**
- 144 **Index**
