

Table of contents

CHAPTER I MACHINE DESIGN	1
A New Stand for Fatigue Testing of Pillars	3
L. Barton	
HCR Gears in the Industrial Gearbox.....	7
M. Burian, M. Trochta and J. Havlik	
Design of the Vibration Separatory Apparatus	13
M. Dub, S. Sadek, J. Hendrych and P. Spacek	
Designing of Mixing Equipment, Reactors and Bioreactors.....	17
T. Jirout and D. Jiroutova	
Modern Trends in the Drive Wheelsets of Rail Vehicles.....	25
J. Kolar	
Scale-up of Equipment for Thermal-Expansionary Pretreatment of Lignocelluloses	33
L. Kratky	
Should We Teach Polymeric Machine Elements As Well?	39
B. Krizan	
Design of Semi-active Magnetorheological Valve	45
M. Kubik and I. Mazurek	
Support Tools in the Development of Bearings for Wind Turbines....	51
R. Madaj and R. Kohar	
Note to an Undercut Limit of Involute Gearing.....	57
M. Nemcek	
Assessment of Industrial Design Projects with Use of Online Evaluation System	63
M. Ondra, R. Machalek, D. Skaroupka, D. Semrad and F. Uhlir	
Vibration Isolation Pneumatic System with a Throttle Valve	69
L. Pesik, A. Skarolek and O. Kohl	
Development of the Assembly Set for the Logistic Transport Solution	75
R. Sasik, M. Haluska, R. Madaj, M. Gregor and P. Grznar	

The Design of the Device for the Manufacture of Planar Filter	81
L. Sevcik	
The Structural Design of Industrial Vacuum Cleaner for Dental Laboratories	85
R. Slanina and P. Sniehotta	
Reading of Operating Values of End Effector During Goods Manipulation	91
F. Stary, V. Dynybyl and J. Mrazek	
Building Platform for Identification of Important Parameters for 3D Printing of Huge Parts.....	95
M. Suransky and M. Zlebek	
On Cardan Joint – Some Special Applications	103
J. Zicha and K. Macuchova	
<u>CHAPTER II TRIBOLOGY</u>	<u>107</u>
Experimental Analysis of Tribological Properties of Heat Treated Graphitic Cast Irons.....	109
J. Broncek, P. Fabian, M. Dzimko and N. Radek	
The Experimental Determination of the Grease Amount to Effective Wear Reduction in the Wheel-Rail Contact.....	117
J. Fryza and M. Omasta	
The Effect of Friction Modifier on the Wheel-Rail Contact	123
R. Galas and M. Omasta	
Measurement Methodology of Low-Shear Viscosity of Reference Liquid under High-Pressure	129
S. Hornak	
Modification of Tooth Flank as the Possibility of Increasing Resistance of Gearing to Pitting	135
B. Kopilakova, M. Bosansky and J. Zapotocny	
Including the Method of Lubricant Film Thickness Measurement with the Use of the Monochromatic Interferometry to the Education of Tribology	141
D. Kostal, I. Krupka and M. Hartl	

Frictional Properties of PVA Hydrogel	147
D. Necas, M. Vrbka, S. Yarimitsu, K. Nakashima, Y. Sawae, P. Sperka, I. Krupka and M. Hartl	

Effect of Sanding on Adhesion under Oil and Water Condition between Wheel and Rail.....	153
D. Smejkal	

CHAPTER III HYDRAULICS – FLUID MECHANISMS .. 159

Experimental Research and Optimization of Characteristic Parameters of the Valve Plate of the Axial Piston Pump/Motor	161
R. Petrovic, M. Andjelkovic, M. Radosavljevic and N. Todic	

The Effects of the Temperatures on the Performance of the Gas Turbine	171
A. Wahab and T. Ibrahim	

CHAPTER IV ENGINEERING ANALYSES 179

Innovation of Methodological Support of Risk Analyses of Technical Products in Their Life Cycle During Their Designing	181
J. Dvorak, M. Sasiadek and S. Hosnedl	

The Mathematical Description of Sunflower Seed's Hulling Process Using Impact Huller	187
J. Hoidekr, J. Andrus and V. Dynybyl	

Roller Bearing Fatigue Life Calculation with Inclusion of the Fits Parameters.....	191
S. Hreck and R. Kohar	

Application of Statistical Methods to Analysis of Parallel structure of Gearbox Test Rig.....	197
J. Chmelar, K. Petr and V. Dynybyl	

Driving Shaft Fracture Analysis.....	203
K. Kalab	

Force Conditions at an Antbacklash Designed Gear Mechanism	209
V. Kloucek	

The Effect of Fits Stiffness on Distribution of Internal Loading in Rolling Bearings	215
R. Kohar and S. Hrcek	
Design Calculation of Spur Gear Module.....	221
E. Kronerova	
Application of the Bond Graphs to the Description of Technical Systems.....	227
Z. Matuszak	
Assessment of the Validity of Technical Elements of the Complex Structure Using Flow Streams of Energy Factors	233
Z. Matuszak	
Influence of Short-circuit Valve on Hydraulic Recovery of Vehicle Kinetic Energy	239
Z. Nemecek and J. Nevrlý	
FEM Simulations on Gears with Different Carbonized Depth	245
K. Petr, V. Dinybyl and J. Krepela	
Numerical Simulation of Ductile Fracture	251
M. Spaniel	
Dynamic of Propulsion, New Challenges for Analysis	257
V. Zoul	

**CHAPTER V MODERN MATERIAL
 AND TECHNOLOGY.....** **263**

Corrosion in Some Iron Alloys	265
M. Khidhair and M. Hasan	
The Process of Preparation Prototypes Bearing Cages for the Durability Testing.....	271
P. Spisak and R. Madaj	

CHAPTER VI OPTIMIZATION AND DESIGN..... **277**

Optimisation of the Geometric Design Parameters of a Five Speed Gearbox for an Automotive Transmission	279
M. Bozca	

Modification of Experimental Station AXMAT.....	285
J. Dvoracek, L. Komenda and L. Nohal	
Basic Conditions of the Implementation of Extremal Regulation.....	291
J. Homisin and M. Moravic	
Design of a Disc Grinder for EDM Electrodes Machining	297
J. Hosek and J. Drahokoupil	
Optimized Design of the Wind Turbine's Composite Blade to Flatten the Stress Distribution in the Mounting Areas.....	301
P. Oganessian, I. Zhilyaev, S. Shevtsov and J.-K. Wu	
Research of New Composites for Lightweight Construction with Low Impact on the Environment.....	307
M. Petru, P. Lepsik and O. Novak	
System of Low Profile Roller Conveyors	313
F. Stary and V. Hanus	
Fiber driven tilting mechanism	317
P. Svatos, Z. Sika, M. Valasek, J. Zicha, V. Bauma and V. Rada	

CHAPTER VII PRODUCT INNOVATION 321

Pneumatic Dual Mass Flywheel – Damper Concept for Downspeeding	323
R. Grega and P. Baran	
Rationalising the Use of Design for Assembly as DfX Knowledge to Increase Competitiveness of Designed Technical Products	329
S. Hosnedl, M. Kopecky and M. Sasiadek	
Materials and Sustainable Development	335
I. Mazinova and M. Bochinsky	

CHAPTER VIII EXPERIMENTAL METHODS AND MEASURING..... 341

Design of Experiment for Load Gear Solution in Planetary Transmission	343
O. Berka, F. Lopot and M. Dub	

Investigation of Tram Gearbox Hinge Behaviour	349
M. Dub, J. Kolar, F. Lopot, V. Dynybyl and O. Berka	
Mechanical properties of fasteners	355
V. Fliegel, A. Lufinka and R. Martonka	
Mathematical Description of Non-linear Mechanical Behaviour of Materials under Compression Loading, Case Study: Spruce Bulk Wood Chips	361
D. Herak, A. Kabutey and R. Sigalingging	
Influence of Steel Sheet Width on Bearing Capacity of Resistance Spot Welding	367
P. Hrabe and M. Muller	
Calculation of Fuel Consumption on the Vehicle Simulation Model	373
M. Kobza	
Identification of Parameters of Stiffness and Damping Based on the Amplitude Frequency Characteristics.....	377
O. Kohl	
Method of Experimental Measurement of a Bucket in Laboratory Conditions.....	383
P. Kribala, V. Dynybyl and J. Kricka	
Biaxial Stress of the Textile Car Seat Cover Tested in a Climatic Chamber	387
P. Kulhava, N. Kovalova, R. Martonka and J. Petrik	
Hexapod Control System Optimization	393
A. Lufinka and R. Martonka	
Integration of Light: A Way to Measure Spectral Characteristics ...	397
K. Macuchova	
The Equipment for Temperature Measurements near a Gear Tooth Flank	403
M. Mazac, P. Herajn and M. Svoboda	
Determination of Power Losses Based on the Measurement in Closed Loop Test Bench for Automotive Gearboxes	409
O. Milacek and G. Achtenova	
Experimental Measurements and Development of Agricultural Trailer	415
P. Mossoczy, R. Uhlir and P. Maly	

Deformable Mirror for High Power Lasers	419
S. Nemcova and J. Zicha	
Identification of Failures of Technical Equipment Using Acoustic Camera.....	427
S. Poljak and I. Gajdac	
Assessment of the Mechanical Properties the Polyurethane Foam under Multiaxial Loading in a Different Climatic Conditions	433
P. Srb, P. Kulhavy and R. Martonka	
Experimental Analysis of Prototype Rubber Suspension for Agricultural Machine	439
P. Syrovatka, F. Lopot and M. Janda	
Contribution to the Methodology of Measuring Transmission Error	443
M. Trochta, Z. Folta and M. Burian	
Climate Chamber for Testing of Multiaxial Loading	447
D. Vejrych, R. Martonka and R. Kovar	

CHAPTER IX NANOTECHNOLOGY **451**

System for High-temperature Calcination of Nanofibers	453
R. Kovar
