Preface	xi
Introduction	xv
PART ONE: DESCRIPTION OF RELIGIOUS BEHAVIOR	1
Chapter 1: The Evolution of Religious Behavior in Its Socioecological Contexts <i>Stephen K. Sanderson</i>	3
Chapter 2: Toward a Testable Definition of Religious Behavior <i>Lyle B. Steadman, Craig T. Palmer, and Ryan M. Ellsworth</i>	20
Chapter 3: Natural Gazes, Non-Natural Agents: The Biology of Religion's Ocular Behaviors <i>Thomas B. Ellis</i>	36
Chapter 4: Religion and Hidden Patterns in Behavior: Religion as a Biological Phenomenon <i>Magnus S. Magnusson</i>	52
PART TWO: THE EVOLUTIONARY HISTORY OF RELIGIOUS BEHAVIOR	69
Chapter 5: The Evolutionary History of Religious Behavior <i>Jay R. Feierman</i>	71

PART THREE: THE DEVELOPMENT OF RELIGIOUS BEHAVIOR IN THE INDIVIDUAL	87
Chapter 6: Religious Behavior as a Reflection of Childhood Corporal Punishment <i>Benjamin J. Abelow</i>	89
Chapter 7: Religious Behavior and the Adolescent Brain <i>Candace S. Alcorta</i>	106
PART FOUR: CAUSES OF RELIGIOUS BEHAVIOR	123
Chapter 8: The Brain and Religious Adaptations <i>Michael T. McGuire and Lionel Tiger</i>	125
Chapter 9: Is Religious Behavior "Internally Guided" by Religious Feelings and Needs? <i>Lluís Oviedo</i>	141
Chapter 10: Mirror Neurons, Culture, and Spirit: Causes of Religious Behavior <i>Burgess C. Wilson</i>	157
PART FIVE: THE ADAPTIVENESS OF RELIGIOUS BEHAVIOR	173
Chapter 11: The Adaptiveness of Changing Religious Belief Systems <i>John S. Price</i>	175
Chapter 12: The Adaptiveness of Fasting and Feasting Rituals: Costly Adaptive Signals? <i>Rick Goldberg</i>	190
Chapter 13: Cooperative Punishment and Religion's Role in the Evolution of Prosocial Altruism <i>Klaus Jaffe and Luis Zaballa</i>	204
Chapter 14: Religious Behavior and Cooperation <i>Maria Emília Yamamoto, Monique Leitão, Rochele Castelo-Branco, and Fívia de Araújo Lopes</i>	219

PART SIX: CONCLUSION	241
Chapter 15: Conclusion	243
<i>Jay R. Feierman</i>	
About the Editor and Contributors	265
Index	271

Preface

Index

- Aboriginal, Australian, 27
- Abstention, 193, 195, 203
- Ache tribe, 118
- Action: anticipated, 160; bodily, 126;
 - collective, 192; coordinated, 185;
 - costly, 206; goal-directed, 159–60;
 - hand-grasping, 159, 161; Jesus's, 91;
 - motor, 159–60; pattern, 245, 259;
 - potential, 109; protective, 99;
 - sound-producing, 159
- Acts: 23, 90; 4:27–28, 91
- Adam, 92–96, 104
- Adaptation: by-product of, 223; definition of, 255; evolutionary, 244, 250–51, 261; human, 236; human biological, 223; religious, 223
- Adaptiveness: behavioral, 71, 219, 253, 258; changing religious belief systems', 175; environment of evolutionary, 220; fasting and feasting rituals', 190; religion's, 223
- Addiction: alcohol, 114; drug, 114; nicotine, 117
- Adolescence, 87, 107–9, 111–17, 119, 257, 264
- Adopted, 80
- Adoption, 219
- Adrenocortotropic hormone (ACTH), 126, 131–32, 134
- Adversary, 77–78
- Aesthetics, 148
- Affect: facial, 74, 76–77, 245, 247;
 - general, 94, 115, 160, 182, 250
- Affiliation: general, 38–39, 42, 94, 221;
 - religious, 127, 208, 237, 252
- Africa, 7, 8, 26, 97, 108, 136, 180, 203
- Afterlife, 127, 133, 148
- Agency: of action, 160; attributed to
 - nonhuman forms in nature, 158, 161–62; detector of, 224;
 - hypersensitive, 157, 223;
 - hypersensitive detection device of, 250; intentional stance's view of, 40;
 - naturalist's view of, 37;
 - non-natural, 37; overattribution of, 40; wonder's influence on, 146
- Agents: intentional, 160; moralizing, 224; natural, 37; non-natural, 36–37, 42, 47; supernatural, 22, 145–46, 192
- Aggressiveness, 76
- Aggressor, 38–39, 41–42, 45–48, 50, 76
- Agni, 9
- Alarm calls, 219
- Alexander, Richard, 82
- Algonquin tribe, 196
- Algorithms, 116, 118–19
- Alleles, polymorphic, 253
- Alpha wave, 132

- Altered states of consciousness, 5–6, 13
- Altruism: in-group prosocial, 264; prosocial, 204–6, 208–10, 214, 249; prosocial group, 261; reciprocal, 166
- Amon, 9
- Amygdala, 110–12, 115, 129–31, 133
- Analogy, 52–53, 61
- Ancestors: common, 193; deceased, 28, 245; general, 38, 40, 80, 135, 177, 220; genetic, 199; hominid, 177; hunter-gatherer, 220, 234–35; living, 7; metaphorical, 199; prehuman, 79; premammalian, 77; small-scale society, 165; social vertebrate, 79; spirits of the dead, 7; supernatural, 200
- Ancestor worship, 7, 9, 245
- Andean, 195
- Angels, 14
- Animism: empathic theory of, 164, 168; general, 157–58, 162–63, 166, 169, 249
- Animist, 106, 108
- Anthropology: cultural, 22; functional, 3; general, 180, 205; social, 26
- Antisocial Personality Disorder, 151, 206
- Ants, 62
- Anxiety, 13, 45, 119, 130, 148–49, 152, 259
- Apes, 62, 65, 220
- Aphrodite, 9
- Apocalyptic, 150
- Argyle, Michael, 55
- Armstrong, Karen, 177
- Arnheim, Rudolph, 161
- Arousal, 98
- Art, 161, 163, 168
- Aryans, 9
- Asceticism, 114, 193, 199
- Ashanti tribe, 8
- Atheist, 106, 225, 228, 231–33, 236
- Athena, 9
- Atran, Scott, 22, 37, 146, 157, 164–68
- Attachment system, 48, 51, 145, 250
- Attendance, church, 102
- Attention: aggressor's, 41, 46; diverting, 195; emotionally enhanced, 146; general, 7, 42; God's, 43, 79; Hindu mother's, 45; inanimate form related, 163; my, 41; natural resource related, 167; non-natural agent's, 44; observed pain related, 162, 167; ocular, 43, 45–46; opposite sex related, 190; our, 107; particular, 41; religious congregant's, 130; ritually focused, 131; shared, 40–41, 45–46; social structure of, 43; social structure of esoteric, 43; sociological, 3; special, 54; spiritual, 7; superior's, 43; wonder motivated, 146; your, 41
- Attitude, 28, 162, 200
- Attunement, 160, 162–64, 168
- Augustine, Saint, 97
- Australia, 14, 27, 108
- Awe, 5, 81, 114–15, 146, 149, 248
- Axelrod, Robert, 223
- Axial Age, 10, 13
- Azande tribe, 26
- Badge, 221
- Balinese, 243
- Bands, hunter-gatherer, 4, 108, 208, 234–35
- Baptism, 58, 79, 89, 93–96, 101
- Baron-Cohen, Simon, 40
- Barrett, H. Clark, 41
- Barrett, Justin L., 157, 168
- Basal ganglia, 132
- Behavior: adolescent, 112; appetitive, 78–79, 85, 245–48, 259; approach, 44, 111, 166; approach-avoidance, 77, 166; avoidance, 39, 166; bowing, 43, 75, 77, 131, 256, 263; consummatory, 78, 85, 245–48, 259; courtship, 74, 76–77, 245–46, 259; delinquent, 116; dominance, 43, 50, 74, 85, 130, 166; empathic, 114, 127, 160, 162, 166, 167; ethnocentric, 223, 234; exploratory, 39; flexible, 58, 74, 75; gaze, 21, 40–41, 43–46, 49, 51; lower-or-smaller-or-more-vulnerable (LSV),

- 21, 76–78, 83–85, 127, 244–48, 256, 259–60, 263–64; non-lower-or-smaller-or-more-vulnerable (non-LSV), 248–52, 256; nonverbal, 26, 54–55, 76, 110; novelty seeking, 113, 117; ocular, 36–38, 40, 42–48, 50–51; play, 110, 113, 226–28, 230–32, 234, 236; postinfancy maternal caring, 75; proceptive, 259; proximity-causing, 245–47; proximity-seeking, 79; risk taking, 113, 116–17; sacrificial, 9, 114, 191–93, 199; selfish, 186, 206, 208–9, 219; submissive, 74, 76–77, 85; Type I, 72–76, 78–81, 83, 246, 259; Type II, 72–76, 79–82, 259–260; verbal, 27, 54–56, 59, 64, 73
- Behavior, cooperative: evolutionary dilemma of, 219; game-playing-related, 225, 228–30; in-group prosocial, 21; reciprocation-dependent, 167; serotonin-related, 130; social, 151
- Behavior, prosocial: adolescent religion related, 116; agency attributed, 158; altruistic costs of, 205; altruistic punishment related, 207; cooperative, 21; cooperative punishment related, 214–215; definition of, 205; evolutionary stable, 214; fruits of, 206; Hamilton's rule related, 216; mirror neuron elicited, 167; punishment enforced, 215; religiously promoted, 214; simulated agent's, 210–11; social synergy related, 206–7
- Being: spiritual, 163; supernatural, 65, 180
- Belief: counterfactual, 25, 178; counterintuitive, 25, 115, 118–19, 178; enemy, 180; explicit, 26; implicit, 26; nonreflective, 157; sacred, 107–8; shared, 177; structural, 72; supernatural, 23, 25, 27, 108; symbolically coded, 80–82
- Belief, religious: advantages of, 186; affected by natural selection, 80; attribution of meaning and, 149; authenticity of, 28; behavioral biasing, 257; believed oneself, 132; betraying a natural history and foundation, 37; brainsoothing effects of, 127; by-products of other evolved traits, 145; changes in, 153; claimed causes of behavior, 27; cognitive, 150–51; concept of self and, 143; conscious dimensions of, 143; contributing causes of religious behavior, 72, 80, 141; contributing to adaptation, 135; contributors to holding, 81; counterbalancing the symbols of evil, 133; counterintuitive and counterfactual, 25; culturally transmitted, 151; definition of, 30; effects on brain, 129; functions of, 149; improvement of social relationships and, 149; internally guided, 141; lack of correlation with supernatural phenomena, 25; management of fear and death and, 149; management of uncertainty and anxiety and, 149; moral codification and, 149; natural aspects of, 133; neural correlates of, 127; neurophysiological signature of, 125; as passed on among believers, 132; preferences for persons of the same, 230; presumptions about, 27; problems in observing and identifying, 25; positive emotion's influence on, 145; reduction of ambiguity and uncertainty, 133–34; relationship to uncertain events, 149; religious explanation related, 25; resistance to exploring no, 127; resistance to exploring other, 127; as said by members of the cloth, 132; as selected by natural selection, 135; sharing of, 233, 235–36; simplistic approach to, 25; skepticism regarding, 116; statements about people's, 25, 27; stress reducing, 123; vocalized

- statements about, 27; as written in sacred texts, 132
- Belief system: bizarre, 181; change of, 175, 178, 182, 186; cultural, 162; indoctrinated, 83
- Believers: behavior of, 28; community of, 252; fellow, 235; firm, 143; religious, 94–96, 101, 108, 127–32, 134–36, 237; true, 25–26
- Bellah, Robert, 3
- Belongingness, 146
- Benefit, fitness, 114, 206
- Berger, Peter, 22
- Bible: admonitions about looking at God in, 43; behavior that influenced, 65; behaviors used to write, 79; fasting and the, 194; giant verbal string containing, 56; reading from, 24; religion based on, 53; Revised Standard Version of, 103
- Bigfoot, 30
- Birds, 75, 208, 247, 250
- Bits, 54
- Blood flow, 131, 260
- Blood pressure, 112, 132
- Body: action of, 126; brain as component of, 64; change of position of, 73; chemicals of, 132, 136; child's, 99; church's, 94; desires of, 104; detoxification of, 196; fasting of, 196, 201; front of, 76; human, 98, 256; information processing of, 98; Jesus's, 14, 95–96; language of, 40; material, 37; mystical, 94; neuronal cell, 109; physiological profiles of, 136; purification of, 195; organs of, 73; orientation of, 41; other's, 40; recalcitrant, 201; of research, 160; sexual needs of, 201; size of, 62, 109; social, 107; states of, 125–26, 134; tissues of, 196
- Body language, 40
- bomobs*, 247
- Bondage, 196
- Bonding, 41, 74, 196
- Book of Psalms, 43
- Borderline Personality Disorder, 151
- Boredom, 184
- Borneo, 28
- Bosch, Hieronymus, 45
- Bowing, 75, 77, 131
- Boyer, Pascal, 22, 222–34
- Brain: activity, 26–27, 169; adaptations of, 257; adolescent, 106, 111, 113–14, 116; amygdala and, 111; animate being detection of and, 158, 168; anterior cingulate cortex and, 129; areas associated with beliefs, 127; association networks of, 111; attachment system and, 250; aversive states of, 125–26, 134; avoidance of ambiguity and uncertainty and, 133–34; behavioral motivation and, 248, 258; beliefs and, 162; chemical changes in, 128, 131–32, 136; chimpanzee's, 109; cocaine and, 111; cognitive consistency and, 162; cognitive emotional systems of, 127; cognitive function models of, 157; cognitive generating tissues of, 82; concept of self and, 111; culture and, 162; delta waves and, 132; depression and, 117; desires and, 37; development of, 110, 117; domain-specific modules and, 157; dopamine and, 111; effects of thoughts on, 128; emotionally generating parts of, 152; environmental stimuli effects on, 110; executive functions of, 110; experience expectant developmental periods and, 113; eye detection detector and, 40–41; face sensitive cells and, 129; feelings of confidence and, 133; feelings producing tissues of, 81, 83; God within, 246; human, 109; hypersensitive agency detection device (HADD) and, 250; imaging studies of, 26, 111, 126, 128, 133, 249; inanimate form processing, 169; inferential reasoning processes and, 162;

- intentions and, 37; knowledge and, 162; language production and processing areas of, 107; learning and, 118; maturation of, 110; mechanistic understanding of, 147; memory traces in, 98; mirror neuron system of, 123, 129; mood producing tissues of, 81, 83; moral capacities and, 111; motivational structures of, 82, 255; neuronal firing and, 116; non-LSV religious behaviors and, 251; nucleus accumbens and, 110–11; observer's, 161; operations of, 147; oxytocin and, 130; perception of self and, 260; pleasure center of, 110; posterior superior parietal lobe, 260; prayer and, 249; prefrontal cortex of, 110–11, 117, 130; presumed structural adaptations and, 250; prime directive of, 98; Prozac and, 129; relationship to consciousness, 147; relationship to mind, 40, 256; religion's effect on, 136; religious adaptations and, 125; religious emotions and, 249; religious moment areas of activation, 125; research on, 107; reward system of, 111, 117; rituals and, 16, 129; serotonin and, 129; size of, 62; size of structures in, 80; social functions of, 110; socialization and, 128–29; spiritual meditation and, 249; structure co-opted for another function, 261; suicide and, 117; as superorganism's body part, 64; temporal cortex of, 110; threatening information processing and, 98; transcendent consciousness and, 246; tryptophan and, 130; white matter of, 110; yet-to-be-discovered structure and, 250
- Brainsoothing, 123, 125, 127, 129–30, 132, 134–36
- Brain waves, 132
- Brazil, 224–25, 228, 235, 239
- Brazilian Council for Ethics in Scientific Research (CONEP), 32
- Buddhism: adolescent rites of passage and, 108; development of, 106; hums of monks, 247; on Java, Indonesia, 263; noncommunalist, 195; ordination programs and, 116; origin of, 10, 247; petitioning prayer and, 77; relationship to Buddha, 14
- Bulbulia, Joseph, 222, 236
- Burkert, Walter, 22
- By-product, 81, 86, 157, 164, 223, 236, 261, 263
- Bytes, 54
- Canonized, 193
- Caplan, Pat, 198
- Caregiver-careseeker schema, 41
- Caregivers, 39, 113
- Cathedral, 163
- Catholic: Church and iconoclasm, 47; Church and iconography, 50; nun, 177; ordination programs, 116; ritual wear of priests, 14
- Catholics: Brazilian, 224–25, 227–28, 232, 234–35; icons and, 47; low-involvement, 224; market share in Latin America, 255; Mariolatry and, 44; medieval, 193
- Causation, nonmaterial, 83
- Celebrant, 194
- Celibacy, 176, 193, 201
- Cereal grains, 208
- Ceremonies: circumcision, 79, 114; curing, 5–6, 15; departing, 74; funerary, 7; greeting, 74; healing, 5–6, 11, 79, 243, 245, 247; rain dance, 79
- Certainty, 26–27, 133, 149–50
- Chanting, 5, 131
- Charisma, 176
- Charisma, 15, 180–81
- Chasidism, 202
- Child: Adam described as, 92; affectual bond with parents, 250; automatic behavioral response of, 77; belief system inculcation into, 183; care eliciting crying and, 146; Christ, 94; corporally punished, 99–100;

- fear reduction and, 78; Hindu mother and, 45; hostile acts directed toward, 77; innocent, 101; language acquisition and, 254, 262; marrying off of a, 98; maze learning of, 177; obedient, 93; physical discipline and, 95; playing, 73; premature, 243; psychological conversion of, 95–96; relationship to father, 90, 104; relationship to salvation, 91; resistance of, 99; teenage, 75; transition to adult, 117; what is done to, 93; willfulness and, 93
- Childhood: baptism and, 95; behavioral repetition and, 101–2; correction by father in, 90; critical period learning of religion and, 254; culturally sanctioned behavioral repetitions of, 102; cultural norms of, 89; damnation and, 92; discipline, 91, 99, 101; early, 113; effects of abuse and abandonment on, 79; fear reduction in, 78; inculcated obedience and, 95; influence on New Testament themes, 89–90; influence on religion, 89; influence on sacred narratives, 264; language acquisition and, 107; mankind's, 104; maze learning in, 177; painful realities of, 95, 101; paradoxical behavior in, 100; parallels with Christianity, 102; parallels with Islam, 103; parallels with Judaism, 103; play behaviors of, 113; punishment in, 89–90, 92, 95–97, 102, 104; relationship to father, 91–92; religion's influence on, 257; religious behavior and, 93; resonance with New Testament traditions, 92; salvational parallel with, 91; shaping of New Testament, 102; socially sanctioned childhood trauma and, 96; suffering and, 96; suppression of the will and, 93; trauma and, 102
- Children: compelled to obey, 93; consumption of by "hot deities," 45; corporal punishment of, 90, 93, 97, 99–101; creation of, 235, 252–53; disobedience of, 92; experiences of ordinary, 90–91; exposure to religion, 108; external circumstances of, 93; eyes open toward attachment figures, 44; filial submission and ordinary, 91; gaze aversion toward strangers, 44; of God, 44; of heavenly Father, 92; Hindu mother's relationship with, 45; models of behavior and, 101; patriarch reared, 101; pleading of ordinary, 91; post-traumatic reenactments and, 98; raising of, 235; reaction to environmental stimuli, 112; realignment to obedience and, 93; relationship to father, 92; relationship to primary caregivers, 39; Roman, 97; small, 246; socialization of, 77; transformation into adult rites, 108; Western, 163; of wrath, 104
- Chimpanzee, 177
- China, 8, 10, 54, 61, 194, 198
- Choirs, 245
- Chomsky, Noam, 55
- Christ. *See* Jesus Christ
- Christian: acceptance of unearned suffering, 100; act of accepting and identifying with Jesus, 93; belief psychology, 103; churches, 136; church services, 24; conversion experience, 95; convert, 95; denominations, 14, 77, 255; Eucharist, 47; foundational teachings, 94; Holy Communion, 47; iconoclasm, 47; identity, 194; imitative injunction, 101; individualism, 199; infants, 106; interpreters, 89; mystic, 50; path, 93; Pentecostal religions, 260; religious experience, 102; religious holidays, 203; rites, 107–8, 115; rituals, 93–94; salvation teachings, 91; scriptures, 79; societies, 55;

- teachings about damnation, 92;
 teaching about Father-Son relationship, 102; text of Paul, 92; traditions, 115; values, 193; Western societies, 263; women, 262; world, 197; worship, 197
