

CONTENTS

<i>List of Contributors</i>	xiii
<i>Introduction</i> <i>Philip Clayton</i>	1
PART I. RELIGION AND SCIENCE ACROSS THE WORLD'S TRADITIONS	5
1. Hinduism and Science <i>Sangeetha Menon</i>	7
2. Buddhism and Science <i>B. Alan Wallace</i>	24
3. Judaism and Science <i>Norbert M. Samuelson</i>	41
4. Christianity and Science <i>John Polkinghorne</i>	57
5. Islam and Science <i>Seyyed Hossein Nasr</i>	71
6. Indigenous Lifeways and Knowing the World <i>John Grim</i>	87
7. Religious Naturalism and Science <i>Willem B. Drees</i>	108
8. Atheism and Science <i>Peter Atkins</i>	124

PART II. CONCEIVING RELIGION IN LIGHT OF THE CONTEMPORARY SCIENCES	137
9. Cosmology and Religion <i>Bernard Carr</i>	139
10. Fundamental Physics and Religion <i>Kirk Wegter-McNelly</i>	156
11. Molecular Biology and Religion <i>Martinez Hewlett</i>	172
12. Evolutionary Theory and Religious Belief <i>Jeffrey P. Schloss</i>	187
13. Ecology and Religion <i>Susan Power Bratton</i>	207
14. Neurophenomenology and Contemplative Experience <i>Evan Thompson</i>	226
15. Psychology, the Human Sciences, and Religion <i>Raymond F. Paloutzian</i>	236
16. Sociology and Religion <i>Richard Fenn</i>	253
17. Anthropology and Religion <i>Michael Lambek</i>	271
PART III. THE MAJOR FIELDS OF RELIGION/SCIENCE	291
18. Contributions from the History of Science and Religion <i>John Hedley Brooke</i>	293
19. Contributions from the Social Sciences <i>Robert A. Segal</i>	311

20. Contributions from the Philosophy of Science 328
Robin Collins
21. Contributions from Philosophical Theology and Metaphysics 345
Joseph A. Bracken, SJ
22. Contributions from Systematic Theology 359
Wolfhart Pannenberg
23. Contributions from Practical Theology and Ethics 372
Ted Peters
24. Contributions from Spirituality: Simplicity—
Complexity—Simplicity 388
Pauline M. Rudd

PART IV. METHODOLOGICAL APPROACHES TO THE STUDY OF RELIGION AND SCIENCE

25. The Scientific Landscape of Religion: Evolution, Culture,
and Cognition 407
Scott Atran
26. Varieties of Naturalism 430
Owen Flanagan
27. Interpreting Science from the Standpoint of Whiteheadian
Process Philosophy 453
David Ray Griffin
28. Anglo-American Post-modernity and the End
of Theology–Science Dialogue? 472
Nancey Murphy
29. Trinitarian Faith Seeking Transformative Understanding 488
F. LeRon Shults
30. Religious Experience, Cognitive Science, and the Future of Religion 503
Phillip H. Wiebe

31. Toward a Comprehensive Integration of Science and Religion:
A Post-metaphysical Approach 523
Sean Esbjörn-Hargens and Ken Wilber

PART V. CENTRAL THEORETICAL DEBATES IN RELIGION AND SCIENCE 547

- 'Science and Religion' or 'Theology and Science'? 549
32. Science and Theology: Their Relation at the Beginning
of the Third Millennium 551
Michael Welker
33. Religion-and-Science 562
Philip Hefner
- Science, Theology, and Divine Action* 577
34. Quantum Physics and the Theology of Non-Interventionist
Objective Divine Action 579
Robert John Russell
35. Theologies of Divine Action 596
Thomas F. Tracy
36. Ground-of-Being Theologies 612
Wesley J. Wildman
- Panentheism and its Critics* 633
37. The Potential of Panentheism for Dialogue between Science
and Religion 635
Michael W. Brierley
38. Problems in Panentheism 652
Owen C. Thomas
- Evolution, Creation, and Belief in God* 665
39. Evolution, Religion, and Science 667
William B. Provine

40.	Darwinism	681
	<i>Alister E. McGrath</i>	
41.	God and Evolution	697
	<i>John F. Haught</i>	
	<i>Intelligent Design and its Critics</i>	713
42.	In Defence of Intelligent Design	715
	<i>William A. Dembski</i>	
43.	The Pre-modern Sins of Intelligent Design	732
	<i>Robert T. Pennock</i>	
	<i>Theologies of Emergent Complexity and their Critics</i>	749
44.	Physics, Complexity, and the Science-Religion Debate	751
	<i>George F. R. Ellis</i>	
45.	Emergence and Complexity	767
	<i>Niels Henrik Gregersen</i>	
46.	Emergence, Theology, and the Manifest Image	784
	<i>Michael Silberstein</i>	
47.	The Hidden Battles over Emergence	801
	<i>Carl Gillett</i>	
	<i>Feminist Approaches</i>	819
48.	Going Public: Feminist Epistemologies, Hannah Arendt, and the Science-and-Religion Discourse	821
	<i>Lisa L. Stenmark</i>	
49.	Feminist Perspectives in Medicine and Bioethics	836
	<i>Ann Pederson</i>	
	<i>Human Nature and Ethics</i>	851
50.	The Sacred Emergence of Nature	853
	<i>Ursula Goodenough and Terrence W. Deacon</i>	

51. Science, Ethics, and the Human Spirit 872
William B. Hurlbut

PART VI. VALUES ISSUES IN RELIGION AND SCIENCE 889

52. Theology, Ecology, and Values 891
Celia Deane-Drummond
53. Environmental Ethics and Religion/Science 908
Holmes Rolston III
54. Biotechnology and the Religion–Science Discussion 929
Ronald Cole-Turner
55. Relations between *Homo sapiens* and Other Animals:
Scientific and Religious Arguments 946
Nancy R. Howell
56. Concluding Reflections: Dover Beach Revisited 962
Mary Midgley

Index 979

 varieties of 117–18
 and scientific naturalism 466
 evolutionary theory 469
 knowledge of actual world 466–7
 knowledge of ideal entities 467
 mind-body relation 468
 pantheism 466
 panexperientialism 466
 perception 466
 and supernatural, objectionable form of 433, 436
 and theistic naturalism 117
 and Whitehead's critique of 455–6
- naturalistic theism:
 and divine action 454–5
 and naturalism 116–17, 454–5
 and pantheism 661
 and theism 116–17, 454–5
- nature:
 and beauty 341–2
 and Buddhism 216, 217, 218
 and caring for 922–6
 and Christianity 58–9, 213–14, 216, 217
 and Daoism 218
 and desacralization of 329
 and God 342, 781–2
 and Hinduism 217
 and human separation from 962–3
 and intelligent design 724–7, 739, 740
 and Islam 81–2, 217
 and Judaeo-Christian views of 911–12
 and Judaism 217
 and metaphysical principles 455
 and methodological materialism/
 naturalism 723–4
 and New Age 217
 and Paganism 217
 and reductionism 328–9
 and Romanticism 214–15
 and Shinto 218
 and status of humanity within 688–9
 and Transcendentalism 214–15
 and value issues 910–12, 919–21
 and Zen Buddhism 217
- naturalism 118
 Navaho people 218
 near-death experiences 129, 513
 necessity, and evolution 61, 63
 neo-Darwinism 378
 and molecular biology 174–5
 and religion 175–6
 see also Darwinism; evolution
 network analysis 182–3
 network biology 182–3
 neurophenomenology:
 and aim of 227, 232
 and contemplative mental training 229–32
 and embodied approach 226–7
 and introspection 228–9
 and religion:
 mutual circulation approach 232–3
 as source of expertise 227
 and self-knowledge/cultivation 227
 and working hypothesis of 227, 231
- New Age:
 and nature 217
 and religion and science 381–2
- new religious movements (NRMs), and
 spirituality 239–40
- nihilism 962–3
 and naturalized ethics 448
- non-contradiction 456–7
- non-interventionism:
 and divine action 162–3, 601–2, 605, 609
 chaos theory 605–6
 quantum theory 606–7, 608
- non-interventionist objective divine action
 (NIODA) 579–80
 and criteria for successful proposal 583
 and misconceptions about:
 God's action hidden from science 585
 interpretation of scientific theories 584–5
 miracles 585
 natural causes 585
 not a gaps argument 584
 not physico-theology 583–4
 and quantum mechanics 585–6
 chance 590–1
 continuous creation 590
 episodic divine action 587–8
 general providence 590
 God's action hidden from science 587
 God's action in quantum events 591–2
 God's knowledge of outcomes 587
 human freedom 592–3
 natural causes 587
 not a gaps argument 586–7
 special providence 590, 591–2
 'tetrallemma' argument against 588–9
 theistic evolution 590
 theodicy 593–4
 and terms and assumptions:
 causality 582
 direct or indirect acts 581

- (in)compatibilism 582-3
- laws of nature 580
- mediated and immediate divine action 581-2
- objective vs subjective acts of God 581
- ontological indeterminism 580-1
- non-overlapping magisteria (NOMA) 184, 232, 303
- non-reductive intelligibility (NRI) 329, 336-7
 - and emergent complexity 337-8
 - and scientific realism 338-9
- non-violence, and Hinduism 9
- normativity:
 - and naturalism 113
 - and naturalized epistemology 439-40
 - and naturalized ethics 440-4
 - philosophical psychology 441 n13
 - and normative principles 461-2
- North American Indians, and environmental management 209-10
- novelty, and contingency as source of 363
- objectivity:
 - and exclusion of difference 824
 - and feminist epistemologies 826-8
 - and masculinist conceptions of 822-3
- Occam's razor 967
- old earth creationism, and Darwinism 692
- omnipresence, and space/time 366-7
- one-and-many problem 621
- ontology:
 - and naturalism 110-11, 436-8
 - and ontological indeterminism 580-1
- open-question arguments, and naturalized ethics 446
- order:
 - and creativity 393-6
 - and sociology 253, 255
- organicism, and emergence theory 770-1
- original sin 196
- origin-of-life:
 - and diverse opinions on 910
 - and emergence of human mentalities 862-4
 - and emergence theory 857-60
 - and trait generation 860-2
 - see also creation
- otherness 976
- Paganism:
 - and ecology 219, 220
 - and nature 217
- pain:
 - and dealing with 400-1
 - and theology of evolution 709-11
- panentheism:
 - and analogies for God/cosmos relationship 638-9
 - and animals 958-9
 - and causal joint 350
 - and development of 641
 - and divine action 66-7, 641-3, 659-60
 - and divine love 640
 - and enthusiasm for 661-3
 - and eschatological panentheism 637, 658
 - and evil 639, 646, 658
 - and generic panentheism 640
 - and God as Ground of Being 117, 640
 - and God's dependence on cosmos 639
 - and meaning of 636-9
 - distinctiveness of 639-40
 - diversity 652-3
 - incoherence 652
 - and moral potential of 644-6
 - and mutual coinherence 640, 645
 - and naturalistic theism 661
 - and pantheism 636
 - and problems with:
 - coeternal world 655
 - divine action 659-60
 - divine immanence 655-6
 - eschatological panentheism 658
 - evil 658
 - explaining enthusiasm for 661-3
 - God's incomplete knowledge 655
 - inclusion 654
 - process panentheism 653-5
 - soteriological panentheism 658
 - soul-body metaphor 657-8
 - theology/science relation 660-1
 - and process theism 639
 - and reasons for adopting 643, 644
 - and religion and science 636, 660-2
 - and religious experience 643-4
 - and Romantic movement(s) 662-3
 - and science 641, 647
 - appeal to 644
 - and scientific naturalism 466
 - knowledge of ideal entities 467
 - and soteriological panentheism 637, 658
 - and theism 636, 637-8, 640
 - criticism of 657
- panexperientialism:
 - and freedom 468
 - and mental causation 468
 - and scientific naturalism 466
 - knowledge of ideal entities 467
 - mind-body relation 468
- panpsychism 354
- pantheism:
 - and Gaia concept 220
 - and panentheism 636
 - and ultimate reality 617
- paradigms, and epistemology 482-3
- particle physics, and cosmology 143-5
- particularity 959-60
- passion:
 - and reason 494
 - and soteriological passion 499
- Pentecostalism 267

- perception:
 - and cosmology 455
 - and scientific naturalism 466
 - knowledge of actual world 466–7
- perceptual release theory, and religious experience 515–17
- perennial philosophy 626
- performative contradictions 457
- perlocutionary speech acts 282
- personhood:
 - and emergence of human 879–82
 - and non-human animals 957–8
- perspectivism 279
- Phage Group 173–4
- phenomenology:
 - and experience 227
 - and Integral Theory 530, 533–4
- philosophical behaviourism, and mental events 505
- philosophical psychology 441 n13
- philosophy:
 - and Anglo-American philosophy 472, 473
 - and Continental philosophy 472, 473
 - and cultural assumptions 473
 - and definition 25
 - and discontinuity in post-modern 473–5
 - atheism 485
 - competing traditions 484–5
 - epistemology 474, 481–3, 484
 - ethics 474
 - metaphysics 475–7
 - philosophy of language 474, 477–81
 - philosophy of science 474
 - religion and science 483–6
 - systems thinking 476
 - and rationality 494–6
 - see also* philosophy of science
- philosophy of science:
 - and chemical compositional reductionism 332
 - and compositional reductionism 329–30
 - Bohm's interpretation of quantum theory 334–6
 - discoverability 340
 - quantum holism 330–1
 - quantum theory measurement problem 332–4
 - why physicists use 332
 - and emergent complexity 329, 337–8
 - and instrumentalism, no-miracles argument 338–9
 - and integrative developments 488
 - and non-reductive intelligibility 329, 336–7
 - and emergent complexity 337–8
 - scientific realism 338–9
 - and post-modern philosophy 474
 - and process philosophy 337
 - and reductionism 328–9
 - and theistic non-reductive intelligibility 336, 339–40
 - discoverability 339, 340
 - implications of 341–2
 - and work in 328
- physical sciences, and revolutions in 32
- physicalism 789, 805–6, 807, 815–16
- physico-theology 59, 213
- and non-interventionist objective divine action 583–4
- physics:
 - and authority of 156
 - and causal incompleteness of 756–9
 - and completeness of 815–16
 - and development of, ancient Greeks 158
 - and emergent complexity 751–2

 and theology/science dialogue 476
 dangers of reductionism 558–60
 reincarnation 35
 relational epistemology, and feminist
 epistemologies 822, 823, 826
 relationality:
 and centrality of 489
 and hermeneutical significance of 488–9,
 494
 and philosophical turn to 494–6
 and re-turn to 500

relativism:

- and moderate relativism 449–51
- moral judgement 450
- and naturalized ethics 447–8

relativity theory:

- and cosmology 140
- and creation 131
- and general theory of 165–6
- and religious implications 164–6
- and space 367
- and special theory of 164–5

religion:

- as antithesis of science 376
- and changed meaning of 298
- and comparison with science 124–7
- and costliness of 408–9
- and definition 864
- and diversity of faith traditions 299–300
- and domain of 124, 407, 509
- and earth-despising bias 972–3
- and environmental ethics 921–2, 925
- as evolutionary by-product 408–10
- as fact of life 510
- and functions of 409–10, 426
- and fundamentalism 762
- and goal of 236
- and human nature 920
- and Integral Theory 537–40

 - Integral post-metaphysics 538–9
 - integration with science 540
 - multiple meanings 537
 - understandings of 539
 - understandings of God 537–8
- and masculine bias 824
- and meaning of religious 864–5
- and moral behaviour 575
- and nature of the term 568–9
- and origin and function of 312
- and postulated entities 507–9, 518
- as practice 569
- as quest for the 'most important' 566–7
- and questions addressed by 24–5
- and requirements of religious utterances 555
- and social life:
 - de-differentiation of 265–6
 - differentiation of 264–5
- and soul 69, 504, 505
- and theoretical thinking 569
- and truth claims 509
- see also religion and science; religious experience; theology

religion and science:

- and apologetics 571–2
- and central questions of 2–3
- as cliché 562
- and common goal 501
- and common good 575
- and community 574–5
- and conflict between 347

- fundamentalism 762–4
- and contrasting techniques of 124–7
- and dialogue between 347, 360, 523–4, 636
- dangers of reductionism 558–60
- hypothetical consonance 381
- impossibility of 552
- interaction problems 554–7
- maximalist level 554–5
- minimalist level 555–6
- minimum requirements for 552
- phases of 553–4
- primal quest for meaning 567–8
- purpose of 486, 552, 558
 - as spiritual-religious undertaking 562, 566
 - in truth-seeking communities 557–8
- and differences between 389, 407–8
- as distinct field of study 1
 - doubts over 574
- and diversity of approaches 3
- and diversity of faith traditions 299–300
- and fusions between 556
- and goals of 236
- and independence of 347
- and integration of 347–8
 - afterlife 356, 357
 - causal joint 348–50
 - field-oriented approach to reality 351–6
 - locating causal joint 350–4
 - trinitarianism 354–5, 356
 - Whitehead's philosophy 347–8
- and integrative dynamics in
 - epistemology 493–6
- and models for interrelation of 347
- and mutual circulation approach 232–3
- and nature of the term 'religion' 568–9
- and non-overlapping magisteria 184, 232, 303
- and non-warfare models of relationship:
 - ethical overlap 381
 - hypothetical consonance 381
 - New Age spirituality 381–2
 - two languages model 380
- and post-modern philosophy 483–6
- as practical undertaking 569
- as problematic concepts 233
- and separationist model 44–5, 49
- and status of proposals for meaning 572–4
- and synthesis between 345, 346
- and tensions between 453–4
 - development of 346–7
 - non-supernatural naturalism 455
 - science's one-sided cosmology 455–6
 - supernatural theism 454–5
- and theoretical thinking 569–71
- and truth claims 552
- and types of interaction 184
- and warfare models of relationship:
 - battle over Darwinian evolution 378–9
 - ecclesiastical authoritarianism 376–7
 - scientific imperialism 376
 - scientism 375–6

- religious, and meaning of 864-5
