

CONTENTS

Abbreviations	4
1. THEORETICAL PART	5
1.1. The role of the liver in carbohydrate metabolism	5
1.2. Glucose tolerance tests in chronic liver diseases	8
2. CLINICO-EXPERIMENTAL PART	13
2.1. Methods	13
2.2. Standard and hydrocortisone glucose tolerance tests in cirrhosis of the liver	14
2.2.1 The effect of certain factors on standard and hydrocortisone glucose tolerance tests in cirrhosis of the liver	28
2.2.1.1 The effect of age on glucose tolerance tests in cirrhosis of the liver	29
2.2.1.2 The effect of patients' weight on glucose tolerance tests in cirrhosis of the liver . . .	39
2.2.1.3 Glucose tolerance tests in different clinical forms of cirrhosis of the liver	41
2.2.1.4 Glucose tolerance tests in cirrhosis of the liver with and without jaundice	44
2.2.1.5 Glucose tolerance tests in patients with cirrhosis of the liver with different activity of serum transaminases	45
2.2.1.6 The effect of the duration of a liver disease on glucose tolerance tests in cirrhotic patients	47
2.2.1.7 Glucose tolerance tests in patients with cirrhosis of the liver with operative anastomosis	49
2.3. Standard and hydrocortisone glucose tolerance tests in chronic hepatitis	52
2.4. Standard and hydrocortisone glucose tolerance tests in porphyria cutanea tarda . . .	57
2.5. The effect of certain oral antidiabetics on glucose tolerance tests in cirrhosis of the liver	62
2.5.1 The effect of metformin on glucose tolerance tests in cirrhosis of the liver	62
2.5.2 The effect of chlorpropamide on glucose tolerance tests in cirrhosis of the liver . . .	66
2.6. Tolbutamide tests in cirrhosis of the liver	68
3. CONCLUSION	75
