

CONTENTS

Introduction to Pathophysiology, xv

PART ONE CENTRAL CONCEPTS OF PATHOPHYSIOLOGY: CELLS AND TISSUES

UNIT 1 The Cell

1 Cellular Biology, 1

Kathryn L. McCance

Prokaryotes and Eukaryotes, 2

Cellular Functions, 2

Structure and Function of Cellular Components, 2

Nucleus, 2

Cytoplasmic Organelles, 4

Plasma Membranes, 11

Cellular Receptors, 16

Cell-to-Cell Adhesions, 17

Extracellular Matrix, 17

Specialized Cell Junctions, 18

Cellular Communication and Signal Transduction, 20

Signal Transduction, 21

Extracellular Messengers and Channel

Regulation, 22

Second Messengers, 22

Cellular Metabolism, 25

Role of Adenosine Triphosphate, 25

Food and Production of Cellular Energy, 26

Oxidative Phosphorylation, 27

Membrane Transport: Cellular Intake and Output, 28

Movement of Water and Solutes, 28

Transport by Vesicle Formation, 33

Movement of Electrical Impulses: Membrane

Potentials, 36

Cellular Reproduction: The Cell Cycle, 37

Phases of Mitosis and Cytokinesis, 37

Rates of Cellular Division, 37

Growth Factors, 38

Tissues, 39

Tissue Formation, 39

Types of Tissues, 39

2 Altered Cellular and Tissue Biology, 49

Kathryn L. McCance, Todd Cameron Grey, and

George Rodway

Cellular Adaptation, 50

Atrophy, 50

Hypertrophy, 51

Hyperplasia, 51

Dysplasia: Not a True Adaptive Change, 53

Metaplasia, 54

Cellular Injury, 54

General Mechanisms of Cell Injury, 55

Hypoxic Injury, 56

Free Radicals and Reactive Oxygen

Species—Oxidative Stress, 59

Chemical Injury, 62

Unintentional and Intentional Injuries, 70

Injury from Errors in Health Care, 71

Infectious Injury, 75

Immunologic and Inflammatory Injury, 75

Injurious Genetic/Epigenetic Factors, 75

Injurious Nutritional Imbalances, 75

Injurious Physical Agents, 75

Manifestations of Cellular Injury, 83

Cellular Manifestations: Accumulations, 83

Systemic Manifestations, 88

Cellular Death, 88

Necrosis, 88

Apoptosis, 91

Autophagy: Death but Also Survival, 92

AGING and Altered Cellular and Tissue Biology, 93

Normal Life Span and Life Expectancy, 94

Somatic Death, 97

3 The Cellular Environment: Fluids and Electrolytes,

Acids and Bases, 103

Alexa K. Doig and Sue E. Huether

Distribution of Body Fluids, 103

AGING and Distribution of Body Fluids, 104

Water Movement Between ICF and ECF, 105

Water Movement Between Plasma and

Interstitial Fluid, 105

Alterations in Water Movement, 105

Edema, 105

Sodium, Chloride, and Water Balance, 108

Sodium and Chloride Balance, 108

Water Balance, 109

Alterations in Sodium, Chloride, and Water

Balance, 109

Isotonic Alterations, 109

Hypertonic Alterations, 110

Hypotonic Alterations, 112

Alterations in Potassium, Calcium, Phosphate, and

Magnesium Balance, 114

- Potassium, 114
- Calcium and Phosphate, 119
- Magnesium, 122
- Acid-Base Balance, 122
 - Hydrogen Ion and pH, 122
 - Buffer Systems, 123
 - Acid-Base Imbalances, 126

UNIT II Genes and Gene-Environment Interaction

4 Genes and Genetic Diseases, 135

Lynn B. Jorde

- DNA, RNA, and Proteins: Heredity at the Molecular Level, 136
 - DNA, 136
 - From Genes to Proteins, 141
- Chromosomes, 142
 - Chromosome Aberrations and Associated Diseases, 143
- Elements of Formal Genetics, 151
 - Phenotype and Genotype, 151
 - Dominance and Recessiveness, 151
- Transmission of Genetic Diseases, 151
 - Autosomal Dominant Inheritance, 152
 - Autosomal Recessive Inheritance, 154
 - X-Linked Inheritance, 156
 - Evaluation of Pedigrees, 159
- Linkage Analysis and Gene Identification, 159
 - Classical Pedigree Analysis, 159
 - Assigning Loci to Specific Chromosomes, 160

5 Genes, Environment-Lifestyle, and Common Diseases, 164

Lynn B. Jorde

- Factors Influencing Incidence of Disease in Populations, 164
 - Concepts of Incidence and Prevalence, 164
 - Analysis of Risk Factors, 165
 - Principles of Multifactorial Inheritance, 165
 - Basic Model, 165
 - Threshold Model, 166
 - Recurrence Risks and Transmission Patterns, 167
 - Nature and Nurture: Disentangling the Effects of Genes and Environment, 169
 - Twin Studies, 169
 - Adoption Studies, 170
 - Genetics of Common Diseases, 171
 - Congenital Malformations, 171
 - Multifactorial Disorders in the Adult Population, 171
- ### 6 Epigenetics and Disease, 183
- Lynn B. Jorde
- Epigenetics and Development, 184

Twin Studies Provide Insights on Epigenetic Modification, 185

- Epigenetics and Cancer, 186
 - DNA Methylation and Cancer, 186
 - miRNAs and Cancer, 186
 - Strategies for Treating Epigenetic Disease, 186
- Genomic Imprinting, 187
 - Prader-Willi and Angelman Syndromes, 187
 - Beckwith-Wiedemann Syndrome, 188
 - Russell-Silver Syndrome, 188
- Future Directions, 188

UNIT III Mechanisms of Self-Defense

7 Innate Immunity: Inflammation, 191

Neal S. Rote, Sue E. Huether, and Kathryn L. McCance

- Human Defense Mechanisms, 192
- First Line of Defense: Physical, Mechanical, and Biochemical Barriers, 192
 - Physical and Mechanical Barriers, 192
 - Biochemical Barriers, 192
- Second Line of Defense: The Inflammatory Response, 195
 - Vascular Response, 195
 - Plasma Protein Systems, 197
 - Cellular Mediators of Inflammation, 201
- Local Manifestations of Inflammation, 213
- Systemic Manifestations of Acute Inflammation, 213
 - Fever, 213
 - Leukocytosis, 213
 - Plasma Protein Synthesis, 214
- Chronic Inflammation, 214
- Resolution and Repair, 215
 - Reconstructive Phase, 216
 - Maturation Phase, 218
 - Dysfunctional Wound Healing, 218
- PEDIATRICS and Mechanisms of Self-Defense, 220
 - AGING and Mechanisms of Self-Defense, 220

8 Adaptive Immunity, 224

Neal S. Rote and Kathryn L. McCance

- General Characteristics of Adaptive Immunity, 225
 - Humoral and Cell-Mediated Immunity, 226
 - Active vs. Passive Immunity, 227
- Recognition and Response, 227
 - Antigens and Immunogens, 228
 - Molecules That Recognize Antigen, 229
 - Molecules That Present Antigen, 233
 - Molecules That Hold Cells Together, 235
 - Cytokines and Their Receptors, 235
- Generation of Clonal Diversity, 236
 - T-Cell Maturation, 237
 - B-Cell Maturation, 240

Induction of an Immune Response: Clonal Selection, 241

Secondary Lymphoid Organs, 242

Antigen Processing and Presentation, 242

T-Helper Lymphocytes, 245

B-Cell Activation: The Humoral Immune Response, 247

T-Cell Activation: The Cellular Immune Response, 249

Effector Mechanisms, 251

Antibody Function, 251

T-Lymphocyte Function, 255

FETAL and NEONATAL Immune Function, 257

AGING and Immune Function, 257

9 Alterations in Immunity and Inflammation, 262

Neal S. Rote and Kathryn L. McCance

Hypersensitivity: Allergy, Autoimmunity, and Alloimmunity, 262

Mechanisms of Hypersensitivity, 263

Antigenic Targets of Hypersensitivity Reactions, 270

Autoimmune and Alloimmune Diseases, 277

Deficiencies in Immunity, 281

Initial Clinical Presentation, 281

Primary Immune Deficiencies, 281

Secondary Immune Deficiencies, 289

Evaluation and Care of Those with Immune Deficiency, 292

Replacement Therapies for Immune Deficiencies, 293

10 Infection, 298

Neal S. Rote and Sue E. Huether

Emerging Infections, 299

Microorganisms and Humans: A Dynamic Relationship, 300

Microorganisms and Infections, 300

Process of Infection, 300

Clinical Infectious Disease, 301

Classes of Infectious Microorganisms, 302

Acquired Immunodeficiency Syndrome (AIDS), 322

Transmission, 322

Pathogenesis, 324

Clinical Manifestations, 326

Treatment and Prevention, 327

Pediatric AIDS and Central Nervous System Involvement, 327

Countermeasures Against Pathogens, 329

Infection Control Measures, 329

Antimicrobials, 330

Active Immunization: Vaccines, 332

Passive Immunotherapy, 333

11 Stress and Disease, 338

Margaret F. Clayton and Kathryn L. McCance

Historical Background and General Concepts, 338

Concepts of Stress, 339

Psychoneuroimmunologic Mediators of Stress, 342

Stress Response, 343

Central Stress Response, 343

Neuroendocrine Regulation, 344

Stress and the Immune System, 353

Stress, Personality, Coping, and Illness, 355

Coping, 357

AGING and Stress: Stress-Age Syndrome, 358

UNIT IV Cellular Proliferation: Cancer

12 Cancer Biology, 363

Neal S. Rote and David M. Virshup

Cancer Characteristics and Terminology, 363

Tumor Classification and Nomenclature, 364

The Biology of Cancer Cells, 368

The Genetic Basis of Cancer, 372

Cancer-Causing Mutations in Genes, 372

Oncogenes and Tumor-Suppressor Genes:

Accelerators and Brakes, 373

Gene Changes That Occur in Cancer, 375

Guardians of the Genome, 379

Types of Genes Misregulated in Cancer, 380

Inflammation, Immunity, and Cancer, 382

Cancer Invasion and Metastasis, 387

Only Rare Cells in a Cancer Are Able to

Metastasize, 388

Detachment and Invasion, 388

Survival and Spread in the Circulation, 389

Selective Adherence in Favorable Sites, 389

Escape from the Circulation and Development of a New Microenvironment, 390

Clinical Manifestations and Treatment of Cancer, 392

Clinical Manifestations of Cancer, 392

Cancer Treatment, 395

13 Cancer Epidemiology, 402

Kathryn L. McCance

Genetics, Epigenetics, and Tissue, 403

Incidence and Mortality Trends, 409

Incidence Trends, 409

Mortality Trends, 410

In Utero and Early Life Conditions, 410

Environmental-Lifestyle Factors, 413

Tobacco Use, 413

Diet, 414

Infection, Sexual and Reproductive Behavior,

Human Papillomaviruses, 423

Other Viruses and Microorganisms, 424

Ionizing Radiation, 424

Ultraviolet Radiation, 431
 Electromagnetic Radiation, 431
 Chemicals and Occupational Hazards as
 Carcinogens, 432
 Air Pollution, 433

14 Cancer in Children, 442

Nancy E. Kline
 Incidence and Types of Cancer, 442
 Etiology, 443
 Genetic Factors, 444
 Environmental Factors, 444
 Prognosis, 445

PART TWO PATHOPHYSIOLOGIC ALTERATIONS: ORGANS AND SYSTEMS

UNIT V The Neurologic System

15 Structure and Function of the Neurologic System, 447

Richard A. Sugerman
 Overview and Organization of the Nervous System, 447
 Cells of the Nervous System, 448
 Neurons, 448
 Neuroglia and Schwann Cells, 449
 Nerve Injury and Regeneration, 450
 Nerve Impulse, 451
 Synapses, 451
 Neurotransmitters, 452
 Central Nervous System, 454
 Brain, 454
 Spinal Cord, 460
 Motor Pathways (Tracts), 463
 Sensory Pathways, 464
 Protective Structures, 464
 Blood Supply, 467
 Peripheral Nervous System, 469
 Autonomic Nervous System, 470
 Anatomy of the Sympathetic Nervous System, 470
 Anatomy of the Parasympathetic Nervous System, 473
 AGING and the Nervous System, 477
 Tests of Nervous System Function, 477
 Skull and Spine Roentgenograms, 477
 Computed Tomography, 478
 Magnetic Resonance Imaging, 478
 Magnetic Resonance Angiography, 478
 Positron-Emission Tomography Scan, 478
 Brain Scan, 478
 Cerebral Angiography, 480

Myelography, 480
 Echoencephalography (Ultrasound), 480
 Electroencephalography, 480
 Evoked Potentials, 480
 Cerebrospinal Fluid Analysis, 480

16 Pain, Temperature Regulation, Sleep, and Sensory Function, 484

Sue E. Huether, George Rodway, and Curtis DeFriez
 Pain, 485
 Theories of Pain, 485
 Neuroanatomy of Pain, 485
 Pain Modulation, 487
 Clinical Descriptions of Pain, 491
 PEDIATRICS and Perception of Pain, 495
 AGING and Perception of Pain, 495
 Temperature Regulation, 495
 Hypothalamic Control of Temperature, 496
 PEDIATRICS and Temperature Regulation, 498
 AGING and Temperature Regulation, 498
 Pathogenesis of Fever, 498
 Benefits of Fever, 498
 Disorders of Temperature Regulation, 500
 Sleep, 502
 Non-Rapid Eye Movement (NREM) Sleep, 502
 Rapid Eye Movement Sleep, 503
 PEDIATRICS and Sleep Patterns, 503
 AGING and Sleep Patterns, 504
 Sleep Disorders, 504
 Sleep Disorders Associated with Mental, Neurologic, or Medical Disorders, 505
 Somatosensory Function and the Special Senses, 506
 Touch, 506
 Proprioception, 506
 Vision, 507
 AGING and Vision, 509
 Hearing, 514
 AGING and Hearing, 515
 Olfaction and Taste, 517
 AGING and Olfaction and Taste, 518
 17 Alterations in Cognitive Systems, Cerebral Hemodynamics, and Motor Function, 527
 Barbara J. Boss and Sue E. Huether
 Alterations in Cognitive Systems, 527
 Alterations in Arousal, 528
 Alterations in Awareness, 535
 Data Processing Deficits, 539
 Seizure Disorders, 550
 Alterations in Cerebral Hemodynamics, 555
 Increased Intracranial Pressure, 555
 Cerebral Edema, 557
 Hydrocephalus, 558

- Alterations in Neuromotor Function, 559
 - Alterations in Muscle Tone*, 559
 - Alterations in Movement*, 561
 - Extrapyramidal Motor Syndromes*, 573
- Alterations in Complex Motor Performance, 574
- 18 Disorders of the Central and Peripheral Nervous Systems and the Neuromuscular Junction, 581
 - Barbara J. Boss and Sue E. Huether
 - Central Nervous System Disorders, 581
 - Traumatic Brain and Spinal Cord Injury*, 581
 - Degenerative Disorders of the Spine*, 594
 - Cerebrovascular Disorders*, 598
 - Headache Syndromes*, 607
 - Infection and Inflammation of the Central Nervous System*, 609
 - Demyelinating Disorders*, 618
 - Peripheral Nervous System and Neuromuscular Junction Disorders, 621
 - Peripheral Nervous System Disorders*, 621
 - Neuromuscular Junction Disorders*, 624
- Tumors of the Central Nervous System, 626
 - Cranial Tumors*, 626
 - Spinal Cord Tumors*, 633
- 19 Neurobiology of Schizophrenia, Mood Disorders, and Anxiety Disorders, 641
 - Lorey K. Takahashi
 - Schizophrenia, 642
 - Etiology and Pathophysiology*, 642
 - Clinical Manifestations*, 644
 - Treatment*, 646
 - Mood Disorders: Depression and Bipolar Disorder, 647
 - Etiology and Pathophysiology*, 647
 - Clinical Manifestations*, 650
 - Treatment*, 651
 - Anxiety Disorders, 654
 - Panic Disorder*, 654
 - Generalized Anxiety Disorder*, 655
 - Posttraumatic Stress Disorder*, 655
 - Obsessive-Compulsive Disorder*, 656
- 20 Alterations of Neurologic Function in Children, 660
 - Lynne M. Kerr and Sue E. Huether
 - Structure and Function of the Nervous System in Children, 660
 - Brain Development*, 661
 - Structural Malformations, 663
 - Defects of Neural Tube Closure*, 663
 - Craniosynostosis*, 666
 - Malformations of Cortical Development*, 667
 - Alterations in Function: Encephalopathies, 670
 - Static Encephalopathies*, 670
 - Acute Encephalopathies*, 674

- Cerebrovascular Disease in Children, 677
 - Perinatal Stroke*, 677
 - Childhood Stroke*, 677
- Epilepsy, 678
- Childhood Tumors, 681
 - Brain Tumors*, 681
 - Embryonal Tumors*, 684

UNIT VI The Endocrine System

- 21 Mechanisms of Hormonal Regulation, 689
 - Valentina L. Brashers, Robert E. Jones, and Sue E. Huether
 - Mechanisms of Hormonal Regulation, 689
 - Regulation of Hormone Release*, 690
 - Hormone Transport*, 691
 - Hormone Receptors*, 691
 - Plasma Membrane Receptors and Signal Transduction*, 692
 - Hormone Effects*, 696
 - Structure and Function of the Endocrine Glands, 696
 - Hypothalamic-Pituitary Axis*, 696
 - Thyroid and Parathyroid Glands*, 700
 - Endocrine Pancreas*, 704
 - Adrenal Glands*, 706
 - Neuroendocrine Response to Stressors*, 710
 - Tests of Endocrine Function*, 710
 - AGING and the Endocrine System*, 711
- 22 Alterations of Hormonal Regulation, 717
 - Valentina L. Brashers, Robert E. Jones, and Sue E. Huether
 - Mechanisms of Hormonal Alterations, 717
 - Alterations of the Hypothalamic-Pituitary System, 718
 - Diseases of the Posterior Pituitary*, 718
 - Diseases of the Anterior Pituitary*, 720
 - Alterations of Thyroid Function, 724
 - Hyperthyroidism*, 725
 - Hypothyroidism*, 728
 - Alterations of Parathyroid Function, 731
 - Hyperparathyroidism*, 731
 - Hypoparathyroidism*, 733
 - Dysfunction of the Endocrine Pancreas: Diabetes Mellitus, 734
 - Types of Diabetes Mellitus*, 735
 - Acute Complications of Diabetes Mellitus*, 743
 - Chronic Complications of Diabetes Mellitus*, 746
 - Alterations of Adrenal Function, 752
 - Disorders of the Adrenal Cortex*, 752
 - Disorders of the Adrenal Medulla*, 758

UNIT VII The Reproductive Systems

23 Structure and Function of the Reproductive Systems, 768

Gillian Tufts, George Rodway, Sue E. Huether, and Angela Deneris

Development of the Reproductive Systems, 768

Sexual Differentiation and Hormone Production In Utero, 768

Puberty and Reproductive Maturation, 770

The Female Reproductive System, 771

External Genitalia, 771

Internal Genitalia, 772

Female Sex Hormones, 776

The Menstrual (Ovarian) Cycle, 778

Structure and Function of the Breast, 782

The Female Breast, 782

The Male Breast, 784

The Male Reproductive System, 784

External Genitalia, 784

Internal Genitalia, 787

Spermatogenesis, 789

Male Sex Hormones, 789

Tests of Reproductive Function, 791

AGING and Reproductive Function, 791

24 Alterations of the Female Reproductive System, 800

Julia C. Phillippi, Gwen A. Latendresse, and Kathryn L. McCance

Abnormalities of Reproductive Tract Development, 800

Alterations of Sexual Maturation, 802

Delayed Puberty, 802

Precocious Puberty, 803

Disorders of the Female Reproductive System, 804

Hormonal and Menstrual Alterations, 804

Infection and Inflammation, 813

Pelvic Organ Prolapse, 817

Benign Growths and Proliferative

Conditions, 820

Cancer, 825

Sexual Dysfunction, 834

Impaired Fertility, 835

Disorders of the Breast, 836

Galactorrhea, 836

Benign Breast Disease, 837

Cancer, 843

25 Alterations of the Male Reproductive System, 885

George Rodway and Kathryn L. McCance

Alterations of Sexual Maturation, 885

Delayed Puberty, 886

Precocious Puberty, 886

Disorders of the Male Reproductive System, 888

Disorders of the Urethra, 888

Disorders of the Penis, 888

Disorders of the Scrotum, Testis, and Epididymis, 891

Disorders of the Prostate Gland, 897

Sexual Dysfunction, 911

Impairment of Sperm Production and Quality, 912

Disorders of the Male Breast, 913

Gynecomastia, 913

Cancer, 914

26 Sexually Transmitted Infections, 918

Julia C. Phillippi and Gwen A. Latendresse

Sexually Transmitted Urogenital Infections, 919

Bacterial Infections, 919

Chlamydial Infections, 929

Viral Infections, 932

Parasitic Infections, 937

Sexually Transmitted Infections of Other Body Systems, 940

Hepatitis B Virus, 940

Acquired Immunodeficiency Syndrome, 941

UNIT VIII The Hematologic System

27 Structure and Function of the Hematologic System, 945

Neal S. Rote and Kathryn L. McCance

Components of the Hematologic System, 945

Composition of the Blood, 945

Lymphoid Organs, 951

Development of Blood Cells, 954

Hematopoiesis, 954

Development of Erythrocytes, 959

Development of Leukocytes, 964

Development of Platelets, 965

Mechanisms of Hemostasis, 965

Function of Blood Vessels, 965

Function of Platelets, 967

Function of Clotting Factors, 969

Control of Hemostatic Mechanisms, 970

Lysis of Blood Clots, 971

Clinical Evaluation of the Hematologic System, 973

Tests of Bone Marrow Function, 973

Blood Tests, 975

PEDIATRICS and the Hematologic System, 975

AGING and the Hematologic System, 975

28 Alterations of Erythrocyte Function, 982

Neal S. Rote and Kathryn L. McCance

Anemia, 982

Classification, 982

Macrocytic-Normochromic Anemias, 987

Microcytic-Hypochromic Anemias, 989

Normocytic-Normochromic Anemias, 993

Myeloproliferative Red Blood Cell Disorders, 1002

Polycythemia Vera, 1003

Iron Overload, 1004

29 Alterations of Leukocyte, Lymphoid, and Hemostatic Function, 1008

Anna L. Schwartz and Neal S. Rote

Alterations of Leukocyte Function, 1008

Quantitative Alterations of Leukocytes, 1009

Infectious Mononucleosis, 1011

Leukemias, 1013

Alterations of Lymphoid Function, 1023

Lymphadenopathy, 1023

Malignant Lymphomas, 1023

Plasma Cell Malignancies, 1030

Alterations of Splenic Function, 1036

Alterations of Platelets and Coagulation, 1037

Disorders of Platelets, 1037

Disorders of Coagulation, 1042

30 Alterations of Hematologic Function in Children, 1055

Nancy E. Kline

Fetal and Neonatal Hematopoiesis, 1055

Postnatal Changes in the Blood, 1056

Erythrocytes, 1057

Leukocytes and Platelets, 1057

Disorders of Erythrocytes, 1058

Acquired Disorders, 1058

Inherited Disorders, 1062

Disorders of Coagulation and Platelets, 1070

Inherited Hemorrhagic Disease, 1070

Antibody-Mediated Hemorrhagic Disease, 1073

Leukemia and Lymphoma, 1074

Leukemia, 1074

Lymphomas, 1078

UNIT IX The Cardiovascular and Lymphatic Systems

31 Structure and Function of the Cardiovascular and Lymphatic Systems, 1083

Susanna G. Cunningham, Valentina L. Brashers, and

Kathryn L. McCance

Circulatory System, 1083

The Heart, 1085

Structures That Direct Circulation Through the Heart, 1085

Structures That Support Cardiac Metabolism: The Coronary Vessels, 1090

Structures That Control Heart Action, 1092

Factors Affecting Cardiac Output, 1101

Systemic Circulation, 1106

Structure of Blood Vessels, 1106

Factors Affecting Blood Flow, 1109

Regulation of Blood Pressure (Arterial Pressure), 1114

Regulation of Coronary Circulation, 1117

Lymphatic System, 1118

Tests of Cardiovascular Function, 1119

Cardiac and Coronary Artery Evaluation, 1119

Systemic Vascular Evaluation, 1122

AGING and the Cardiovascular System, 1123

32 Alterations of Cardiovascular Function, 1129

Valentina L. Brashers

Diseases of the Veins, 1129

Varicose Veins and Chronic Venous Insufficiency, 1129

Deep Venous Thrombosis, 1130

Superior Vena Cava Syndrome, 1131

Diseases of the Arteries, 1132

Hypertension, 1132

Orthostatic (Postural) Hypotension, 1140

Aneurysm, 1140

Arterial Thrombus Formation, 1142

Embolism, 1143

Peripheral Vascular Diseases, 1144

Atherosclerosis, 1145

Peripheral Artery Disease, 1148

Coronary Artery Disease, Myocardial Ischemia, and Acute Coronary Syndromes, 1148

Disorders of the Heart Wall, 1163

Disorders of the Pericardium, 1163

Disorders of the Myocardium: The Cardiomyopathies, 1165

Disorders of the Endocardium, 1167

Cardiac Complications in Acquired Immunodeficiency Syndrome, 1175

Manifestations of Heart Disease, 1175

Heart Failure, 1175

Dysrhythmias, 1182

33 Alterations of Cardiovascular Function in Children, 1194

Nancy L. McDaniel

Development of the Cardiovascular System, 1194

Developmental Anatomy, 1194

Transitional Circulation, 1196

Postnatal Development, 1198

Congenital Heart Defects, 1198

Classification of Congenital Heart Defects and Associated Conditions, 1199

Defects Increasing Pulmonary Blood Flow, 1202

Defects Decreasing Pulmonary Blood Flow, 1207

Obstructive Defects, 1210

Mixing Defects, 1214

Acquired Cardiovascular Disorders, 1218

Kawasaki Disease, 1218

Systemic Hypertension, 1218

Childhood Obesity, 1221

UNIT X The Pulmonary System**34 Structure and Function of the Pulmonary System, 1225***Valentina L. Brashers***Structures of the Pulmonary System, 1225***Conducting Airways, 1225**Gas-Exchange Airways, 1229**Pulmonary and Bronchial Circulation, 1229**Chest Wall and Pleura, 1231***Functions of the Pulmonary System, 1232***Ventilation, 1232**Gas Transport, 1238***Tests of Pulmonary Function, 1243***AGING and the Pulmonary System, 1244***35 Alterations of Pulmonary Function, 1248***Valentina L. Brashers and Sue E. Huether***Clinical Manifestations of Pulmonary Alterations, 1248***Signs and Symptoms of Pulmonary Disease, 1248**Conditions Caused by Pulmonary Disease or Injury, 1251***Disorders of the Chest Wall and Pleura, 1253***Disorders of the Chest Wall, 1253**Pleural Abnormalities, 1254***Pulmonary Disorders, 1255***Restrictive Lung Disorders, 1255**Obstructive Pulmonary Disease, 1263**Respiratory Tract Infections, 1271**Viral Pneumonia, 1273**Pulmonary Vascular Disease, 1275**Malignancies of the Respiratory Tract, 1278***36 Alterations of Pulmonary Function in Children, 1290***Valentina L. Brashers and Sue E. - Alterations in Renal and Bladder Function in Children, 1378
- Congenital Abnormalities, 1378
- Glomerular Disorders, 1381
- Kidney Injury, 1385
- Wilms Tumor, 1385
- Bladder Disorders, 1386
- Urinary Incontinence, 1388

UNIT XII The Digestive System

40 Structure and Function of the Digestive System, 1393

Alexa K. Doig and Sue E. Huether

The Gastrointestinal Tract, 1393

Mouth and Esophagus, 1395

Stomach, 1396

Small Intestine, 1400

Large Intestine, 1407

Intestinal Bacteria, 1408

Accessory Organs of Digestion, 1409

Liver, 1409

Gallbladder, 1413

Exocrine Pancreas, 1413

Tests of Digestive Function, 1415

Gastrointestinal Tract, 1415

Liver, 1416

Gallbladder, 1416

Exocrine Pancreas, 1416

AGING and the Gastrointestinal System, 1417

41 Alterations of Digestive Function, 1423

Alexa K. Doig and Sue E. Huether

Disorders of the Gastrointestinal Tract, 1423

Clinical Manifestations of Gastrointestinal Dysfunction, 1423

Disorders of Motility, 1428

Gastritis, 1434

Peptic Ulcer Disease, 1435

Malabsorption Syndromes, 1439

Inflammatory Bowel Disease, 1440

Intestinal Vascular Insufficiency, 1446

Disorders of Nutrition, 1446

Disorders of the Accessory Organs of Digestion, 1451

Common Complications of Liver Disorders, 1451

Disorders of the Liver, 1457

Disorders of the Gallbladder, 1463

Disorders of the Pancreas, 1464

Cancer of the Digestive System, 1466

Cancer of the Gastrointestinal Tract, 1466

Cancer of the Accessory Organs of Digestion, 1472

42 Alterations of Digestive Function in Children, 1486

Sue E. Huether

Disorders of the Gastrointestinal Tract, 1486

Congenital Impairment of Motility, 1486

Esophageal Malformations, 1487

Acquired Impairment of Motility, 1492

Impairment of Digestion, Absorption, and Nutrition, 1494

Diarrhea, 1499

Disorders of the Liver, 1500

Disorders of Biliary Metabolism and Transport, 1500

Inflammatory Disorders, 1502

Portal Hypertension, 1502

Metabolic Disorders, 1503

UNIT XIII The Musculoskeletal System

43 Structure and Function of the Musculoskeletal System, 1510

Christy L. Crowther-Radulewicz

Structure and Function of Bones, 1510

Elements of Bone Tissue, 1511

Types of Bone Tissue, 1517

Characteristics of Bone, 1517

Maintenance of Bone Integrity, 1519

Structure and Function of Joints, 1520

Fibrous Joints, 1520

Cartilaginous Joints, 1520

Synovial Joints, 1522

Structure and Function of Skeletal Muscles, 1526

Whole Muscle, 1527

Components of Muscle Function, 1533

Tests of Musculoskeletal Function, 1535

Tests of Bone Function, 1535

Tests of Joint Function, 1535

Tests of Muscular Function, 1535

AGING and The Musculoskeletal System, 1536

44 Alterations of Musculoskeletal Function, 1540

Christy L. Crowther-Radulewicz and Kathryn L. McCance

Musculoskeletal Injuries, 1540

Skeletal Trauma, 1540

Support Structure Trauma, 1545

Disorders of Bones, 1550

Metabolic Bone Diseases, 1550

Infectious Bone Disease: Osteomyelitis, 1558

Bone Tumors, 1560

Disorders of Joints, 1565

Osteoarthritis, 1565

Classic Inflammatory Joint Disease, 1568

Disorders of Skeletal Muscle, 1578

Secondary Muscular Dysfunction, 1578

Muscle Membrane Abnormalities, 1581

Metabolic Muscle Diseases, 1582

Inflammatory Muscle Diseases: Myositis, 1583

Myopathy, 1585

Muscle Tumors, 1585

45 Alterations of Musculoskeletal Function in Children, 1591

Kristen Lee Carroll and Lynn M. Kerr

Musculoskeletal Development in Children, 1591

Bone Formation, 1591

Bone Growth, 1592

Skeletal Development, 1593

Muscle Growth, 1593

Musculoskeletal Alterations in Children, 1593

Congenital Defects, 1593

Abnormal Density or Modeling of the Skeleton, 1597

Bone Infection: Osteomyelitis, 1601

Juvenile Idiopathic Arthritis, 1603

Avascular Diseases of the Bone: Osteochondrosis, 1604

Cerebral Palsy, 1606

Muscular Dystrophy, 1606

Musculoskeletal Tumors in Children, 1609

Nonaccidental Trauma, 1612

UNIT XIV The Integumentary System

46 Structure, Function, and Disorders of the Integument, 1616

Sue Ann McCann and Sue E. Huether

Structure and Function of the Skin, 1616

Layers of the Skin, 1616

Subcutaneous Layer, 1618

AGING and Skin Integrity, 1619

Tests of Skin Function, 1619

Clinical Manifestations of Skin Dysfunction, 1619

Disorders of the Skin, 1627

Inflammatory Disorders, 1627

Papulosquamous Disorders, 1629

Vesiculobullous Disorders, 1632

Infections, 1634

Vascular Disorders, 1638

Tick Bites, 1640

Benign Tumors, 1640

Skin Cancer, 1641

Cold Injury, 1646

Disorders of the Hair, 1646

Alopecia, 1646

Hirsutism, 1647

Disorders of the Nail, 1647

Paronychia, 1647

Onychomycosis, 1647

47 Alterations of the Integument in Children, 1653

Noreen Heer Nicol and Sue E. Huether

Acne Vulgaris, 1653

Dermatitis, 1654

Atopic Dermatitis, 1654

Diaper Dermatitis, 1655

Infections of the Skin, 1656

Bacterial Infections, 1656

Fungal Infections, 1657

Viral Infections, 1658

Insect Bites and Parasites, 1661

Scabies, 1661

Pediculosis (Lice Infestation), 1661

Fleas, 1662

Bedbugs, 1662

Hemangiomas and Cutaneous Vascular

Malformations, 1662

Hemangiomas, 1662

Vascular Malformations, 1663

Other Skin Disorders, 1664

Miliaria, 1664

Erythema Toxicum Neonatorum, 1664

Stevens-Johnson Syndrome and Toxic Epidermal Necrolysis, 1664

UNIT XV Multiple Interacting Systems

48 Shock, Multiple Organ Dysfunction Syndrome, and Burns in Adults, 1668

Linda L. Martin, Dennis J. Cheek, and Stephen E. Morris

Shock, 1668

Cellular Alterations and Impairment of Cellular Metabolism, 1669

Types of Shock, Clinical Manifestations, and Treatment, 1671

Multiple Organ Dysfunction Syndrome, 1679

Burns, 1685

Epidemiology and Etiology, 1685

Burn Wound Depth, 1685

49 Shock, Multiple Organ Dysfunction Syndrome, and Burns in Children, 1699

Mary Fran Hazinski, Mary A. Mondozi, and

Rose A. Urdiales Baker

Shock and Multiple Organ Dysfunction Syndrome, 1699

Types of Shock, 1700

Clinical Manifestations of Shock, 1700

Reperfusion and Inflammatory Injury, 1710

Evaluation and Treatment of Shock, 1710

Burns, 1715

Severity of Injury, 1716
