

TABLE OF CONTENT

Abstrakt	1
Table of content	2
1 Introduction	3
2 State of art.....	4
3 Objectives and methods.....	4
4 Theoretical framework	5
4.1 Detecting of obstacles by ultrasonic distance meters	5
4.2 PMDC motors	6
4.3 Propellers.....	7
4.4 Airship's model.....	8
5 Experimental results	9
5.1 Module for communication with the ground station	9
5.2 Module for obstacles detection	9
5.3 Module for driving of the motors.....	10
5.4 RFID tags detector	11
5.5 Power supply source	12
5.6 Motherboard.....	15
5.7 Airship's behaviour modelling.....	16
6 Conclusion	17
7 References.....	21
List of Author's Activities	24
Papers in reviewed journals	24
Papers in conference proceedings.....	26
Other publications	29
Intership abroad.....	29
Functional samples / constructions	29
Software	30
Author's CV	31
