

Brief Contents

List of Tables	xiii
List of Figures	xvii
Preface	xix
About the Authors	xxiii
1. Introduction	1
2. Counterfactual Framework and Assumptions	21
3. Conventional Methods for Data Balancing	67
4. Sample Selection and Related Models	95
5. Propensity Score Matching and Related Models	129
6. Propensity Score Subclassification	203
7. Propensity Score Weighting	239
8. Matching Estimators	255
9. Propensity Score Analysis With Nonparametric Regression	283
10. Propensity Score Analysis of Categorical or Continuous Treatments: Dosage Analyses	309
11. Selection Bias and Sensitivity Analysis	335
12. Concluding Remarks	381
References	395
Index	409
