
Table of Contents

Preface	xiii
1. No Straight Thing	1
The Vulnerability Cycle	4
What is an Attack?	6
Why Good People Write Bad Code	14
A Call to Arms	26
2. Architecture	30
What Is Security Architecture?	31
Principles of Security Architecture	33
Case Study: The Java Sandbox	51
3. Design	55
Why Does Good Design Matter?	55
Secure Design Steps	56
Special Design Issues	71
Bad Practices	79
Case Studies	81
4. Implementation	99
Good Practices	102
Bad Practices	110
Case Studies	117

5. Operations	124
Security Is Everybody's Problem	125
Good Practices	127
Bad Practices	143
Case Studies	145
6. Automation and Testing	154
Why Test?	155
Good General Practices	156
Good Practices Through the Lifecycle	158
Risk Assessment Methodologies	170
Case Studies	172
Appendix: Resources	185
Index	195
