Preface	ix
1 Meat in Nutrition	3
<i>Meat Eating and Health: Benefits and Concerns</i>	4
<i>Meat and its nutrients</i>	6
<i>Meat as a source of food energy</i>	11
<i>High-quality protein and human growth</i>	17
<i>Carnivory and civilizational diseases</i>	20
<i>Diseased meat</i>	24
2 Meat in Human Evolution	31
<i>Hunting Wild Animals: Meat in Human Evolution</i>	33
<i>Primates and hominins</i>	35
<i>Meat consumption during the Paleolithic period</i>	39
<i>Extinction of the late Pleistocene megafauna</i>	42
<i>Hunting in different ecosystems</i>	45
<i>Wild meat in sedentary societies</i>	49
<i>Traditional Societies: Animals, Diets and Limits</i>	51
<i>Domestication of animals</i>	53
<i>Population densities and environmental imperatives</i>	56
<i>Long stagnation of typical meat intakes</i>	59
<i>Avoidances, taboos and proscriptions</i>	63
<i>Meat as a prestige food</i>	66
3 Meat in Modern Societies	71
<i>Dietary Transitions: Modernization of Tastes</i>	72
<i>Urbanization and industrialization</i>	74
<i>Long-distance meat trade</i>	77
<i>Meat in the Western dietary transition</i>	81
<i>Transitions in modernizing economies</i>	84
<i>Globalization of tastes</i>	86

<i>Output and Consumption: Modern Meat Chain</i>	89
<i>Changing life cycles</i>	91
<i>Slaughtering of animals</i>	94
<i>Processing meat</i>	98
<i>Consuming and wasting meat</i>	102
<i>Making sense of meat statistics</i>	107
4 <i>What It Takes to Produce Meat</i>	113
<i>Modern Meat Production: Practices and Trends</i>	117
<i>Meat from pastures and mixed farming</i>	118
<i>Confined animal feeding</i>	122
<i>Animal feedstuffs</i>	127
<i>Productivity efficiencies and changes</i>	135
<i>Treatment of animals</i>	141
<i>Meat: An Environmentally Expensive Food</i>	145
<i>Animal densities and aggregate zoomass</i>	147
<i>Changing animal landscapes</i>	150
<i>Intensive production of feedstuffs</i>	155
<i>Water use and water pollution</i>	160
<i>Meat and the atmosphere</i>	168
5 <i>Possible Futures</i>	177
<i>Toward Rational Meat Eating: Alternatives and Adjustments</i>	181
<i>Meatless diets</i>	183
<i>Meat substitutes and cultured meat</i>	188
<i>Protein from other animal foodstuffs</i>	192
<i>Less meaty diets</i>	200
<i>A large potential for rational meat production</i>	203
<i>Prospects for Change</i>	210
