

CONTENTS

Preface	xv
Introduction	xvii
1. Introduction to Interview Research	1
Conversation as Research	1
Three Interview Sequences	3
Interview Research in History and in the Social Sciences	7
The Interview Society	12
Methodological and Ethical Issues in Research Interviewing	14
Overview of the Book	17
Interviewing as a Craft	17
Interviewing as a Social Production of Knowledge	17
Interviewing as a Social Practice	18
Part I: Conceptualizing the Research Interview	19
Part II: Seven Stages of Research Interviewing	19
Concluding Perspectives	20
PART I: Conceptualizing the Research Interview	21
2. Research Interviews, Philosophical Dialogues, and Therapeutic Interviews	23
A Qualitative Research Interview on Learning	24
Phenomenology and the Mode of Understanding in a Qualitative Research Interview	26
Power Asymmetry in Qualitative Research Interviews	33
Philosophical Dialogues and Research Interviews	34
Therapeutic Interviews and Research Interviews	39

3. Epistemological Issues of Interviewing	47
The Interviewer as a Miner or as a Traveler	48
Interviews in a Postmodern Age	50
Seven Features of Interview Knowledge	53
Knowledge and Interviews in a Positivist Conception	56
A Rehabilitation of Classical Positivism	56
Methodological Positivism	57
4. Ethical Issues of Interviewing	61
Interviewing as a Moral Inquiry	62
Ethical Issues Throughout an Interview Inquiry	62
Ethical Positions: Rules and Procedures or Personal Virtues?	66
Ethical Guidelines	68
Informed Consent	70
Confidentiality	72
Consequences	73
The Role of the Researcher	74
Learning Ethical Research Behavior	76
5. Learning the Craft of Qualitative Research Interviewing	81
Research Interviewing: Method or Personal Skills	82
The Craft of Research Interviewing	84
Learning the Craft of Research Interviewing	88
PART II: Seven Stages of an Interview Investigation	97
6. Thematizing and Designing an Interview Study	99
Seven Stages of an Interview Inquiry	99
Thematizing an Interview Study	105
Designing an Interview Study	109
Mixed Methods	116
7. Conducting an Interview	123
A Class Interview About Grades	124
Setting the Interview Stage	128
Scripting the Interview	130
Interviewer Questions	134
The Art of Second Questions	138
Books on Interviewing	141

8. Interview Variations	143
Interview Subjects	144
Interviewing Subjects Across Cultures	144
Interviews With Children	145
Interviews With Elites	147
Interview Forms	147
Computer-Assisted Interviews	148
Focus Group Interviews	150
Factual Interviews	150
Conceptual Interviews	151
Narrative Interviews	153
Discursive Interviews	155
Confrontational Interviews	158
9. Interview Quality	161
Hamlet's Interview	161
Interview Quality	164
The Interview Subject	165
Interviewer Qualifications	166
Standard Objections to the Quality of Interview Research	168
Leading Questions	171
Tensions Between Scientific and Ethical Responsibility	173
10. Transcribing Interviews	177
Oral and Written Language	177
Recording Interviews	178
Transcribing Interviews	180
Transcription Reliability, Validity, and Ethics	183
11. Preparing for Interview Analysis	189
The 1,000-Page Question	189
Method of Analysis	194
Steps and Modes of Interview Analysis	195
Computer Tools for Interview Analysis	198
12. Interview Analyses Focusing on Meaning	201
Meaning Coding	201
Meaning Condensation	205
Meaning Interpretation	207
The Issue of Multiple Interpretations	208

Hermeneutical Interpretation of Meaning	210
The Primacy of the Question in Interpretation	211
Analytic Questions Posed to an Interview Text	213
The Quest for "The Real Meaning"	217
13. Interview Analyses Focusing on Language	219
Linguistic Analysis	219
Conversation Analysis	221
Narrative Analysis	222
Discourse Analysis	226
Deconstruction	230
14. Eclectic and Theoretical Analyses of Interviews	233
Interview Analysis as Bricolage	233
Interview Analysis as Theoretical Reading	235
15. The Social Construction of Validity	241
Objectivity of Interview Knowledge	242
Reliability and Validity of Interview Knowledge	244
Validity as Quality of Craftsmanship	248
Communicative Validity	253
Pragmatic Validity	256
Validity of the Validity Question	260
Generalizing From Interview Studies	260
16. Reporting Interview Knowledge	267
Contrasting Audiences for Interview Reports	267
Boring Interview Reports	269
Ethics of Reporting	272
Investigating With the Final Report in Mind	274
Standard Reports and Ways of Enhancing Them	276
Method	278
Results	278
Enriching Interview Reports	282
Journalistic Interviews	284
Dialogues	284
Therapeutic Case Histories	285
Narratives	286
Metaphors	287
Visualizing	287
Collage	288
Publishing Qualitative Research	290

17. Conversations About Interviews	293
Critiques of the Quality of Interview Knowledge	293
Developing the Craft of Research Interviewing	298
An Epistemology of Interview Knowledge	300
The Object Determines the Method	305
The Social Science Dogma of Quantification	306
Research Interviewing as Social Practice	309
Research Interviewing in a Social Context	310
Interview Ethics in a Social Context	312
Appendix: Learning Tasks	317
Glossary	323
References	329
Index	341
About the Authors	353

LIST OF BOXES

Box 1.1	An Interview About Grading	4
Box 1.2	An Interview on Teamwork	5
Box 1.3	An Interview With Two Young Men	6
Box 1.4	Journalist Interviews	8
Box 1.5	A Day in the Interview Society: A Personal Account	12
Box 2.1	Phenomenological Method	27
Box 2.2	Twelve Aspects of Qualitative Research Interviews	28
Box 2.3	Power Asymmetry in Qualitative Research Interviews	33
Box 2.4	A Philosophical Dialogue on Love	35
Box 2.5	A Therapeutic Interview on Hate	40
Box 2.6	The Psychoanalytic Research Interview	42
Box 2.7	Elton Mayo's Method of Interviewing	45
Box 3.1	Evidence-Based Practice	59
Box 4.1	Ethical Issues at Seven Research Stages	63
Box 4.2	Institutional Review Boards	64
Box 4.3	Ethical Questions at the Start of an Interview Study	68
Box 5.1	Four Conceptions of Research Interviewing	85
Box 5.2	Learning Interviewing by Transcribing Interviews	89
Box 5.3	Interview Practica	92

Box 6.1	Emotional Dynamics of an Interview Journey	100
Box 6.2	Seven Stages of an Interview Inquiry	102
Box 6.3	Bourdieu With Respect to Seven Stages in an Interview Project	103
Box 6.4	Seven Stages of a Grade Study	109
Box 6.5	Qualitative Research Proposals in the Crossfire	117
Box 6.6	The Kinsey Interview Study of Sexual Behavior	119
Box 7.1	Types of Interview Questions	135
Box 7.2	Linguistic Forms of Questions	137
Box 7.3	Second Questions	139
Box 7.4	Books on Interviewing	141
Box 8.1	Piaget's Interview About a Child's Dreams	145
Box 8.2	Ethical Concepts Versus Ethical Behavior	152
Box 8.3	A Craftsman's Narrative	154
Box 8.4	Crossing Interview Discourses	156
Box 9.1	Quality Criteria for an Interview	164
Box 9.2	The Interviewer Craftsman	166
Box 9.3	Standard Criticisms of Qualitative Research Interviews	168
Box 10.1	Transcription for Conversation Analysis	181
Box 11.1	Six Steps of Analysis	195
Box 12.1	Susan's Smile	208
Box 12.2	Hermeneutical Canons of Interpretation	210
Box 13.1	The First Man Killed by a Car in This Town: A Narrative	223
Box 13.2	Discourse and Dialectics	226
Box 14.1	Ad Hoc Techniques of Interview Analysis	234
Box 15.1	Validation at Seven Stages	248
Box 15.2	Why Did van Gogh Cut Off His Ear?	250
Box 15.3	Misunderstandings About Case Studies	264

Box 16.1	Investigating With the Final Report in Mind	275
Box 16.2	Structuring an Interview Report	277
Box 16.3	Reader Questions About Methods	278
Box 16.4	Guidelines for Reporting Interview Quotes	279
Box 16.5	Reporting Interviews With Women With HIV/AIDS	288
Box 17.1	Internal Criticisms of Interview Knowledge	294

LIST OF TABLES

Table 6.1	From Interview Statements to Questionnaire Items	114
Table 7.1	Research Questions and Interview Questions	132
Table 10.1	Two Transcriptions of the Same Interview Passage	184
Table 10.2	Two Transcriptions of Leona's Story of Her Puppy	185
Table 11.1	Modes of Interview Analysis	197
Table 12.1	Meaning Condensation	206
Table 12.2	Contexts of Interpretation and Communities of Validation	214

LIST OF FIGURES

Figure 1.1	The Research Interview Seen as Inter Views	3
Figure 12.1	Categorization of Teacher-Pupil Relationship	204

INDEX

- Active interview, 37–38, 158
Active Interview, The, (Holstein and Gubrium), 158
Active listening, 138–140
Against Method (Feyerabend), 83
Aggressive phase of silence, 101
Agonistic interviewing, 159
Ambiguity, in interviewee
 statements, 28, 31
American Psychological Association,
 ethical principles of, 62
Analysis/analyzing stage, 102
 Bourdieu on, 104
 ethical issues at, 63
 final report and, 275
 validation at, 249
Analytical generalization, 262–263, 265
Antimethod approach to social
 research, 83
Anti-positivist enthusiasm phase, 100
Aristotle:
 knowledge, 88–89
 phronesis, 61, 66, 76, 139, 257
 virtue ethics, 66, 77
Arithmetic intersubjectivity, 243
Art, interviewing as, 86
Audience validation, 323
Authoritarian personality, 312–313
Auxiliary method, interviews as, 117

Background material, interviews as, 106
Beneficence, ethical principle of, 73–74
Best practice, learning from, 94

Bias, freedom from, 242
Biased subjectivity, 213
Books on interviewing, 141
Bourdieu, Pierre:
 analysis stage, 104
 interviewing, 5–6, 159–160, 237–238
 role of researcher, 83–84
 See also Weight of the World, The
 (Bourdieu)
Bracketing, 27
Bricolage, 233–235, 323
Briefing, 71, 128

Case studies:
 individual, 42
 interviews in, 117
 misunderstandings about, 264
 therapeutic, 285–286
 use in system evaluation, 263
Categorization, 323
 coding as, 203–204
Change:
 instigation of, in psychotherapy, 43
 in subjects of interview, 28, 31
Changing Teachers, Changing Times
 (Hargreaves), 237
Chicago School in sociology, 9
Child development, theory of, 9
Children as interview subjects, 145–146
Children of Sanchez, The (Lewis), 295
Circulus fructuosus, 313
Client-centered interview, 39
Client-centered questioning, 127

- Client-Centered Therapy* (Rogers), 94
 Code memos, 202
 Coding, 323
 meaning, 201–205
 Collaborative forms of
 interviewing, 148
 Collage, interview report as, 288–290
 Commodity character, 216
 Communication, of qualitative
 studies, 296
 Communicative validity, 253–256, 323
 Communitarianism, 77, 323
 Computer-assisted interviews, 148–150
 Computer tools, for interview
 analysis, 198–199
 Comte, Auguste, 56
 Concept-driven coding, 202
 Conceptual interviews, 151–153
 Conducting the interview:
 class interview about grades,
 124–128
 interviewer questions, 134–138
 scripting, 130–134
 second questions, 138–140
 setting the stage, 128–130
 Confessional tale, 283
 Confidentiality, 72–73, 323
 interview reporting and, 272–273
 transcribing interviews and, 186–187
 Confrontational interviews,
 158–160, 323
 Consensus theory of truth, 256
 Consequences, as ethical
 guidelines, 73–74
 Consequentialism, 66, 323
 Constructionism, 53
 Construct validity, 246
 Content analysis, 203
 Contexts of interpretation:
 critical commonsense
 understanding, 215
 implications of, 216
 interrelatedness of contexts, 216
 self-understanding, 214–216
 theoretical understanding, 215–216
 Contextualizing, 78
 Contextual knowledge, 54–55, 88,
 261, 303
 Contrived collegiality, 237
 Conversation, 323
 as interaction, xvii
 as research, 1–2
 forms of, 1–2
 interview transcript as living, 192
 original Latin meaning, 48
 Conversational knowledge, 54, 302–303
 Conversation analysis, 221–222, 323
 transcription for, 181–182
 Counter-questions, 139
 Counter-transference, 43
 Craft:
 defined, 324
 of research interviewing, 84–88,
 298–300
 Craftsman:
 narrative, 154
 qualities of, 166–167
 use of term, 17
 Craftsmanship:
 intellectual, 84–85
 use of term, 86–87
 validity as quality of, 248–253
 Creative interviewing, 148
 Critical reading, 236
Critique of Dialectical Reason
 (Sartre), 305
 Cross-cultural interviewing, 144–145
 Crossing discourses, 156–157
 Culture(s):
 discourse analysis and, 228–229
 interviewing subjects across, 144–145
Culture of the New Capitalism, The
 (Sennett), 94–95
 Debriefing, 71, 129
 Deconstruction, 230–232, 324
 Deconstructive reading, 236
 Defended subject, 44
 Deliberate naïveté, 28, 30–31, 324
 Deontology, Kantian, 66
 Depth hermeneutics, 212
 Depth interview, 10–11

- Description:
 nuanced, 28, 30
 "thick ethical," 67
- Design stage, 102, 109–116
 Bourdieu on, 103
 ethical issues at, 63
 final report and, 275
 number of interview
 subjects, 113–115
 temporal dimension, 110–113
 validation at, 248
 when not to interview, 115–116
- Dialectical approach, 52
- Dialectical materialism, 226
- Dialectics, 226–227
- Dialogical intersubjectivity, 243
- Dialogical interviewing, 231
- Dialogue, 324
 illustrating ownership of meaning,
 217–218
 interview report as, 284–285
 monologue vs., 231
 researchers,' with text, 192
 use of term, 231
- Direct questions, 135
- Discourse analysis, 226–230, 324
- Discovery of Grounded Theory, The: Strategies for Qualitative Research*, (Glaser and Strauss), 11
- Discursive interview, 155–158, 324
- Double hermeneutics, 314
- Doxa*, 36–37, 39, 324
- Dreyfus model of skill-learning, 91
- Durkheim, Émile, 56
- Dynamic interview question, 131, 132
- Elite interviews, 39, 147, 324
- Empathetic interviewing, 148
- Episteme*, 36–37, 39, 70, 147, 301, 324
- Epistemology:
 defined, 47, 324
 of interview knowledge, 300–305
 positivist, 57–60
 postmodern, 53
- Ethical dilemma, interviewer's, 174
- Ethical issues:
 confidentiality, 72–73, 272–273
 consequences, 73–74, 273–274
 ethical concepts vs. ethical
 behavior, 152
 informed consent, 70–72, 272
 interview reporting, 272–274
 learning ethical research
 behavior, 76–79
 research stages, 63
 role of the researcher, 74–76
 rules and procedures vs. personal
 virtues, 66–68
 scientific vs. ethical responsibility,
 173–174
 social context and, 312–315
 throughout interview, 62–66
 transcribing interviews, 186–187
- Ethical protocol, for interview
 study, 63–64
- Ethic of care, 324
- Ethic of duty, 324
- Ethics:
 defined, 62
 procedural approaches to, 66–67
 virtue conception of, 78–79
- Ethnographic Interview, The*
 (Spradley), 11, 141
- Evidence-based practice in psychology
 (EBPP), 59
- Experiential reading, 252
- Exploratory interview, 106
- Factual interviews, 150–151
- Fall of Public Man, The* (Sennett), 311
- Feminism:
 discourse analysis and, 229
 interviewing and, 148, 244
 positivism and 57
 qualitative research and, 295
 role of researcher and, 75
 validity of interview knowledge
 and, 244–245
- Fields of uncertainty, 69
- Figure/ground phenomenon, 2–3
- Final phase of exhaustion, 101

- Focused interview, 28, 31
- Focus group interview, 150, 324
- Follow-up questions, 135, 139
- Free association interview, 44
- Free variation in fantasy, 27
- Freud, Sigmund:
 - psychoanalytic interview, 41
 - quest for unconscious
 - meanings, 49
 - silent listening, 138
 - therapeutic interviews, 9
 - validation, 258
- Freud and Philosophy: An Essay on Interpretation* (Ricoeur), 44
- Funnel shaped interview, 130
- Generalizability, 324
- Generalizing from interview
 - studies, 260–265
- Gestalt perception, 2
- Grade study:
 - categorization in, 204
 - designing, 109–116
 - thematizing in, 108–109
 - interview about grading, 4, 124–128
- Grounded theory, 106, 202, 324–325
- Guidelines for the Protection of Human Subjects*, 68
- Habits of the Heart*, (Bellah et al.), 37–38, 159, 297
- Handbook of Interview Research, The* (Gubrium and Holstein), 11, 148
- Hate, therapeutic interview on, 40
- Hawthorne studies, 10–11, 94, 116–117, 312
- Hermeneutical circle, 210, 253
- Hermeneutics:
 - circulus fructuosus*, 313
 - coherence criterion, 247
 - defined, 50–51, 325
 - double, 314
 - emphasis on role of
 - preconception, 173
 - first-order, 313
 - informed judgments, 242
 - interpretation of meaning
 - and, 14, 50, 201, 210–216, 252
 - knowledge as contextual, 54
 - meaningful action as text, 253
 - of suspicion, 230, 236
 - tradition of translators, 178
 - triple, 313–314
 - validity and, 257
- History, interview research in, 7–12
- Husserl, Edmund:
 - as founder of phenomenology, 26–27, 57
 - “free variation in fantasy,” 27
 - search for phenomenological essences, 49
- Hypotheses testing, 106
- Impressionistic tale, 283
