1. The Nature of Sociological Theorizing	1
Is a Science of Society Possible?	1
The Elements of Theory	4
Concepts: <i>The Basic Building Blocks of Theory.</i>	5
Variables as an Important Type of Concept.	7
Theoretical Statements and Formats.	7
An Assessment of Theoretical Approaches	21
Abstractness and Scope of Various Theoretical Schemes.	21
Relative Merits of Diverse Theoretical Approaches.	24
The State of Sociological Theory	29
Prevailing Theoretical Schemes in Sociology.	29
Enduring Controversies in Sociological Theorizing.	30
Theoretical Perspectives in Sociology	32

Part One Functional Theorizing

2. The Emergence of Functionalism	37
Functionalism and the Organismic Analogy	38
<i>The Organicism of Auguste Comte (1798-1857).</i>	39
<i>The Analytical Functionalism of Herbert Spencer (1820-1903).</i>	41
Functionalism and Émile Durkheim (1858-1917)	45
Functionalism and the Anthropological Tradition	47
<i>The Functionalism of A. R. Radcliffe-Brown (1881-1955).</i>	48
<i>The Functionalism of Bronislaw Malinowski (1884-1942).</i>	50
Functionalism and the Ghost of Max Weber	52
The Emergence of Functionalism: An Overview	54

3. **The Analytical Functionalism of Talcott Parsons** 57
The Structure of Social Action 58
The Social System 62
The Transition to Functional Imperativism 68
The Informational Hierarchy of Control 70
Generalized Media of Exchange 73
Parsons on Social Change 74
Parsons on "The Human Condition" 76
Criticisms of Parsonian Functionalism 78
Criticisms of Parsons's Substantive Image of Society. 78 *The Logical Criticisms of Requisite Functionalism.* 80
Talcott Parsons: An Overview 85
4. **The Empirical Functionalism of Robert K. Merton** 87
Theories of the Middle Range 87
Merton's Paradigm for Functional Analysis 90
A Protocol for Executing Functional Analysis 94
Illustrating Merton's Functional Strategy 96
5. **The Systems Functionalism of Niklas Luhmann** 102
Luhmann's 'General Systems' Approach 103
System and Environment. 103 *Dimensions of the Environment.* 104 *Types of Social Systems.* 105 *System Differentiation, Integration, and Conflict.* 106 *Communications Media, Reflexivity, and Self-Thematization.* 109 *Luhmann's Basic Approach.* 111
Luhmann's Conception of Social Evolution 112
The Underlying Mechanisms of Evolution. 112 *Evolution and Social Differentiation.* 113
The Functional Differentiation of Society 117
Politics as a Social System. 117 *The Autonomy of the Legal System.* 120 *The Economy as a Social System.* 121
Systems Functionalism: An Assessment of Luhmann's Alternative 124

Part Two Conflict Theory

6. **The Origins of Conflict and Critical Theorizing** 129
The Conflict Alternative 129
Karl Marx (1818-1883) and the Origins of Conflict and Critical Theory 132

- Critical Strains in Marx's Thought.* 132 *Positivistic Strains in Marx's Thought.* 134
 Georg Simmel and Conflict Theorizing 138
Functional Strains in Simmel's Thought. 138 *Simmel's Implicit Attack on Marx's Emancipatory Project.* 144
 Max Weber's (1864–1920) Theory of Conflict 146
Positivistic Strains in Weber's Thought. 146 *Weber's Pessimism and the Dilemma for Critical Theorists.* 149
 The Proliferation of Conflict Sociology 150
- 7. The Dialectical Conflict Theory of Ralf Dahrendorf 151**
 Dahrendorf's Image of the Social Order 152
 Criticisms of the Dialectical Conflict Model 155
Problems in the Causal Analysis. 155 *Methodological Problems.* 161
 From Utopia to Where? A Concluding Comment 162
- 8. The Conflict Functionalism of Lewis A. Coser 165**
 Images of Social Organization 166
 Propositions on Conflict Processes 168
The Causes of Conflict. 169 *The Violence of Conflict.* 170 *The Duration of Conflict.* 172 *The Functions of Social Conflict.* 173
 Coser's Functional Approach: An Assessment 176
 Redirecting Conflict Theory: Overcoming Unresolved Issues 177
What is Conflict? 177 *Conflict among or between What?* 180
Escape from Functionalism? 181
- 9. The Critical Theorizing of Jurgen Habermas 184**
 Early Critical Theory: Lukács, Horkheimer, Adorno 186
 The Critical Approach of Jurgen Habermas 189
The Central Problem of Critical Theory. 189 *Habermas's Analysis of "The Public Sphere".* 190 *The Critique of Science.* 191
Legitimation Crises in Society. 194 *Early Analyses of Speech and Interaction.* 196 *Habermas's Reconceptualization of Social Evolution.* 199
The Theory of Communicative Action. 201
 An Assessment of Habermas's Critical Theory and Project 208
Evaluating Habermas's Conception of Action. 209 *Habermas's Conception of Interaction.* 209
Habermas's Macrosociology: System and Lifeworld. 210 *Habermas's View of Evolution.* 211

Part Three Exchange Theory

- 10. Early Forms of Exchange Theorizing 215**
 Utilitarianism: The Legacy of Classical Economics 215
 Exchange Theory in Anthropology 217

- Sir James Frazer (1854-1941).* 217 *Bronislaw Malinowski and Nonmaterial Exchange.* 219 *Marcel Mauss and the Emergence of Exchange Structuralism.* 221 *Claude Lévi-Strauss and Structuralism.* 222
- Psychological Behaviorism and Exchange Theory 225
- The Sociological Tradition and Exchange Theory 228
- Marx's Theory of Exchange and Conflict.* 229 *Georg Simmel's Exchange Theory.* 230
- Modern Exchange Theory: A Preview 233
- 11. The Exchange Behaviorism of George C. Homans 234**
- The Early Inductive Strategy 235
- The Addition of a Deductive Strategy 239
- The Exchange Model 240
- Sources of Homans's Psychological Exchange Perspective.* 240
- The Basic Concepts.* 243 *Elementary Principles of Social Behavior.* 244 *Homans's Construction of Deductive Systems.* 245
- Criticisms of Homans's Strategy and Exchange Theory 249
- The Issues of Rationality.* 249 *The Issue of Tautology.* 250 *The Issue of Reductionism.* 251
- Homans's Image of Society 255
- 12. The Structural Exchange Theory of Peter M. Blau 261**
- Blau's Theoretical Strategy 262
- Basic Exchange Principles 263
- Basic Exchange Processes in Social Life 266
- Elementary Systems of Exchange.* 266 *Exchange Systems and Macrostructure.* 274
- The Organizational Basis of Society 280
- The Unresolved Issue: Micro versus Macro Analysis 284
- 13. The Exchange Network Theory of Richard Emerson 287**
- Emerson's Exchange Network Approach 289
- The Overall Strategy.* 289 *The Basic Exchange Concepts.* 291
- The Basic Exchange Processes.* 293 *The Basic Exchange Propositions.* 294 *Structure, Networks, and Exchange.* 296
- Exchange Network Analysis: A Concluding Comment 304

Part Four Interactionist Theory

- 14. Early Interactionism and Phenomenology 309**
- Early American Insights 309
- William James (1842-1910) and the Concept of "Self".* 310 *Self and Social Process: Charles Horton Cooley.* 311 *Pragmatism and*

Thinking: The Contribution of John Dewey (1859-1952). 311
Main Currents of Thought in America: Pragmatism, Darwinism, and Behaviorism. 312
George Herbert Mead's Synthesis. 313
Conceptualizing Structure and Role. 318
Robert Park and Role Theory. 318
Jacob Moreno and Role Theory. 319
Ralph Linton and Role Theory. 320

Early European Insights 320

Georg Simmel and "Sociation". 321

Émile Durkheim's *Metamorphosis*. 322
 Max Weber and "Social Action". 323
 European Phenomenology. 323

Modern Interactionism: A Review 331

15. The Symbolic Interactionism of Herbert Blumer and Manford Kuhn 333

Symbolic Interactionism: Points of Convergence 334

Humans as Symbol Users. 334
Symbolic Communication. 335
Interaction and Role-Taking. 335
Interaction, Humans, and Society. 336

Areas of Disagreement and Controversy 337

The Nature of the Individual. 337
The Nature of Interaction. 338
The Nature of Social Organization. 340
The Nature of Methods. 341
The Nature and Possibilities of Sociological Theory. 346
The Chicago and Iowa Schools: An Overview. 349
 Symbolic Interactionism: A Concluding Comment 349

16. Structural Role Theory 353

The Conceptual Thrust of Structural Role Theory 354

Images of Society and the Individual 355

The Nature of Social Organization. 355
The Nature of the Individual. 357
The Articulation between the Individual and Society. 358

Problems and Issues in Building Role Theory 363

Constructing Propositions. 363
Methodological Implications. 364

17. The Process Role Theory of Ralph H. Turner 369

The Critique of Structural Theory 369

Interaction and Roles 371

The Role-Making Process. 371
The "Folk Norm of Consistency". 372
The Tentative Nature of Interaction. 372
The Process of Role Verification. 373
Self-Conceptions and Role. 373

The Strategy for Building Role Theory 374

The Concepts of Role Theory. 374
Sorting Out Tendencies. 375
Generating and Organizing Empirical Propositions. 379
Developing Explanatory Propositions. 384

Process Role Theory: A Brief Assessment of Turner's Approach 387

18. The Ethnomethodological Challenge 389

The Origins of Ethnomethodology 390

Blumer's Interactionism and Ethnomethodology. 390 *Goffman's Dramaturgical Analysis and Ethnomethodology.* 391 *Alfred Schutz, Phenomenology, and Ethnomethodology.* 392

The Nature of Ethnomethodology 392

Metaphysics or Methodology? 392 *Concepts and Principles of Ethnomethodology.* 394 *Varieties of Ethnomethodological Inquiry.* 398

New Paradigm or Important Supplement? 403

Part Five Structural Theory

19. The Origins of Structural Theorizing 407

The Idea of Social Structure 407

Karl Marx and Structural Analysis 408

The Structural Analysis of Herbert Spencer 410

Spencer's Macrostructuralism. 410 *Spencer's Microstructuralism.* 412

The Structuralism of Émile Durkheim 413

Max Weber and Structural Analysis 416

Georg Simmel's Structural Approach 417

Interactionism and Microstructuralism 418

G. H. Mead's Behavioristic Structuralism. 419 *Alfred Schutz.* 420

Modern Structural Analysis 420

Appendix: The Structuralism of Claude Lévi-Strauss 421

20. The Macrostructuralism of Peter M. Blau 425

Blau's Theoretical Strategy 425

Blau's Theory of Macrostructure 429

Macrostructuralism: An Assessment 433

21. The Microstructuralism of Randall Collins 435

The Micro and Macro Realms 435

Interaction Ritual Chains 439

Conflict Sociology 441

Talk and Ritual. 442 *Deference and Demeanor.* 445 *Class Cultures.* 446 *Sexual Stratification.* 449 *Age Stratification.* 450 *Organizational Processes.* 451 *The State and Economy.* 451

Microstructuralism: An Assessment 453

22. The Structuration Theory of Anthony Giddens	456
The Critique of Social Theory	456
<i>Rejecting Naturalism and Positivism.</i>	456
<i>Obviating Sociological Dualisms.</i>	458
<i>The Critique of Functionalism and Evolutionism.</i>	458
<i>The Limits of Interactionism.</i>	459
<i>The Critique of Structuralism.</i>	460
The "Theory of Structuration"	460
<i>Reconceptualizing Structure and Social System.</i>	461
<i>Reconceptualizing Institutions.</i>	464
<i>Structural Principles, Sets, and Properties.</i>	466
<i>Structural Contradiction.</i>	467
<i>Agents, Agency, and Action.</i>	468
<i>Routinization and Regionalization of Interaction.</i>	471
The Theory of Structuration: A Summary and Assessment	474

- human behavior as exchange of rewards, 242
- institutionalization, 258
- institutions and human needs, 260
- misplaced concreteness in, 252-53
- patterns of organization, 259
- propositions, 244-46
- rationality proposition, 244-45, 248
- reductionism in, 251-55
- relationships of parts, 252-53
- reward potential formula, 244
- variables, 244
- Exchange network theory
- actors and, 293
- alternative sources of supply, 298
- balancing operations, 293-93, 298-99
- basic concepts, 291
- centrality, 301-3
- coalitions, 298
- closed exchange relations, 299-302

Exchange network theory—*Cont.*

- definitions, 296
- division of labor, 298-99
- exploitation types I and II, 297-98
- forms of exchange relations, 290, 304
- generalized reinforcers, 259
- initial propositions, 294-96
- initial theorems, 296
- inter- versus intracategory exchanges, 300
- key questions, 292
- network differentiation, 259
- power and, 287, 293, 304
- primary needs of individuals, 259
- ratio of rewards exchanged, 292
- relations as units of analysis, 291-92
- relative resources, 303
- rigor of, 289-90, 304
- social circles, 299-300
- social forms, 296-303
- social structure in, 304
- stratification, 301
- structural changes, 297
- tautology avoided, 304-5
- unilateral monopoly, 297-98, 303

Exchange and Power in Social Life (Blau), 262

Exchange theory

- and anthropology, 217-24
- assumptions that contradict utilitarianism, 216-17
- authority and exchanges, 238
- behaviorism and, 225-28
- and class conflict theory, 229-30
- cultural heritage and, 223
- direct exchange, 241
- early sociology and, 229-32
- economic motives for social acts, 218
- group morality in, 222
- individual exchanges with society, 223-24
- liquidity of resources, 231
- and money, 231-32
- and object value, 231-32
- power in, 218-19
- principles of, 218-19, 223
- as a rational science of utilitarian exchanges, 217
- rationality criticisms, 249-50
- reciprocity, 221-24
- reward, 227
- and social integration, 223-24
- structural, 221-22
- symbolic exchange, 219-21

Exchange theory—*Cont.*

- tautology in, 250-51
- tension inherent in, 231
- as a type of association, 263

Explicandum, 426

Folklore in the Old Testament (Frazer), 217

Formal sociology, 138

- conflict function propositions, 142-43
- hostile impulse, 139
- conflict intensity propositions, 141
- less violent conflict, 144
- principles of, 139-40

Formal theory, 14-14, 429

- and abstract principles, 15
- abstractness and scope of, 22-24
- and axiomatic theory, 234
- combined with analytical models, 28
- conditions within, 15
- theoretical value of, 26, 28-29

Formats, 8

- four basic types, 8

Frankfurt Institute of Social Research, 185

Frankfurt school, 184-85, 209

French Revolution, 38

Functional analysis

- assumption in, 100
- central regularities, 94
- causal explanation in, 101
- elements of, 95-96
- excluded alternatives, 94
- implied sequencing of, 96
- manifest versus latent functions, 97, 100
- meaning, 94
- net balance of consequences, 95
- motives, 94
