

# CONTENT

ACKNOWLEDGEMENT.....	3
ABSTRACT.....	4
ABSTRAKT.....	5
LIST OF ARTICLES INCLUDED IN THESIS AND AUTHOR'S CONTRIBUTION .....	6
CONTENT .....	7
INTRODUCTION.....	9
1. Extrusion.....	9
1.1 Solids conveying zone.....	9
1.2 Melting zone.....	10
1.3 Metering zone.....	10
2. Mixing principles.....	12
3. Historical development of screw design and mixing elements.....	13
THE AIMS OF THE DOCTORAL RESEARCH WORK.....	21
SUMMARY OF PAPERS.....	22
4. Quantifying the performance of mixing sections by using in-line melt camera.....	22
4.1 Inline Melt Camera.....	22
4.2 Experimental procedure.....	23
4.3 Mixing quality analysis.....	24
4.4 Average stress criterion.....	25
5. 3D FEM simulation study of fluted mixers.....	26
5.1 Modeling.....	27
5.2 Temperature behavior.....	28
5.3 Mixing efficiency parameter.....	31
6. Stagnation layer visualization.....	32
6.1 RGB Spectral Analysis.....	33
6.2 RGB mixing quantification.....	34
6.3 Stagnation layer.....	36
7. Fusion screw flow behavior.....	39
7.1 Parametrical study.....	40
7.2 Mixing criteria.....	41
THE THESIS CONTRIBUTION TO SCIENCE AND PRACTISE .....	44
CONCLUSIONS.....	45

REFERENCES.....	47
LIST OF FIGURES .....	49
LIST OF SYMBOLS .....	50
LIST OF PUBLICATIONS .....	51
CURRICULUM VITAE.....	52
