

CONTENTS

Preface	xiii
Chapter 1	
THE RISE OF MEDIA OF MASS COMMUNICATION	1
Mass communication as an object of study	3
The significance of mass media	3
Different kinds of theory	4
Theories of communication and of mass communication	6
The rise of the media: origins of media definitions	8
Print media	9
<i>The press as adversary</i>	10
<i>The rise of a newspaper reading public</i>	10
<i>The growth of the political press</i>	11
<i>The nineteenth-century bourgeois newspaper: origins of the modern prestige press</i>	12
<i>Commercialization of the newspaper press</i>	12
Film	13
Broadcasting	15
New electronic media	16
Public definitions of the media	18
The components of media images (public definitions)	19
<i>Political dimensions</i>	20
<i>Normative dimensions</i>	20
<i>Organizational and technological components</i>	21
<i>Dimensions relating to conditions of distribution, reception and use</i>	22
<i>Dimensions of relations between sender and receiver</i>	23
<i>A summary</i>	24
Definition and image of new media	25
Chapter 2	
CONCEPTS AND DEFINITIONS	27
The mass: an ambivalent concept	29
Types of collectivity	29
The audience as mass	30
Mass communication process and relationships	31
Main features of mass communication typified	31
Alternative modes of communication	32
Models of communication and variants of theory	33
Mass culture	35
Types of culture compared	36

The media institution	37
The decline of the 'mass' paradigm	39
Mass experience as a continuum	39
Challenge of new media	39
New patterns of information traffic	40
Alternative perspectives on mass communication: the significance of attention	42
A transmission versus a ritual view of communication	43
Communication as attention gaining and giving	44
Conclusion	46
 Chapter 3	
THEORY OF MEDIA AND THEORY OF SOCIETY	49
Mass communication as a society-wide process: the mediation of social relations	51
A frame of reference for studying mediation	53
Links between media and other institutions	55
Links between media organizations and their publics	55
The structure of media publics	56
Concluding remarks on mediation	56
Alternative theories of media and society	57
Dominance versus pluralism	58
Centrifugal versus centripetal tendencies of media	59
Media or society as first mover?	60
A summary of theories	62
Mass society theory	62
Marxism — the classic position	63
Political-economic media theory	64
The Frankfurt School and critical theory	65
Hegemonic theory of media	66
The 'social-cultural' approach	67
Structural functionalist approaches	68
Principal functions of mass media for society	70
Individual functionalism	72
Functions of media for individuals	72
Functions and dysfunctions	74
In summary: diversity of perspectives on function and purpose	75
The information society: a new theory of media-society links	75
 Chapter 4	
MEDIA THEORY APPLIED: POWER, INTEGRATION AND CHANGE	79
The question of power	81
Mass society theory and power	82

Marxist theory and power	83
Structural functional theory and power	84
Alternative models of media power relationships	85
The question of integration	88
Mass society theory and integration	91
Marxist theory and integration	92
Structural functional theory and integration	92
Mass communication and social change	95
Rosengren's typology of culture-society relationships	95
Interdependence	96
Idealism	96
<i>Individual value change</i>	97
<i>Media as an 'engine of change'</i>	97
<i>Technological (medium) determinism</i>	97
<i>Cultivation theory</i>	99
<i>Cultural imperialism</i>	100
Materialist approaches	100
Autonomy	102
Conclusion	103
Communication, critical theory, commerce and new media	103
Chapter 5	
NORMATIVE THEORIES OF MEDIA STRUCTURE AND PERFORMANCE	107
Media-society linkages	109
Six normative media theories	111
Authoritarian theory	111
Free press theory	112
Social responsibility theory	116
Soviet media theory	118
Development media theory	119
Democratic-participant media theory	121
Postscript on press theory	123
Criteria of evaluation of media performance	124
Freedom and independence	126
Order and solidarity	127
Diversity and access	128
Objectivity and information quality	130
Cultural quality	132
Conclusion: new problems for new media?	133

Chapter 6

PRODUCTION OF MEDIA CULTURE: MEDIA INSTITUTION,	
ORGANIZATION AND ROLE	135
The context for making media culture	137
Internal diversity of the media institution	139
Media work in a field of social forces	141
Relations with society	143
Goals of media organizations	143
Engagement or neutrality?	145
Characteristics of mass communicators	150
Access	152
Relations with clients, owners and suppliers	154
Relations with sources	156
Relations internal to the media organization	158
Relations with the audience	160
Media organizational activities: gate-keeping	162
Gate-keeping	162
People and selection	163
Location and selection	164
Time and selection	165
Other factors, other media	166
Media organizational activity: processing and presentation	167

Chapter 7

MEDIA CONTENT: ANALYSIS; REALITY-REFLECTION; GENRES	173
On speaking about media content	175
Purposes of content analysis	176
Accounting for media as sent and received:	
quantitative book-keeping and audience research	177
Media content as evidence of society and culture	177
Content as evidence of the communicators and their organization	178
Content as evidence of effect	179
Media content as an object of study in itself	180
Evaluating media performance	181
Conflicts and inconsistencies of purpose	182
Modes of discussion and methods of analysis	182
Traditional content analysis	183
Structuralism and semiology	185
Structural analysis of a genre	188
Structuralism (or semiology) and content analysis compared	189
Other variants and possibilities	190
Media content and reality: a unifying theme of research	192
Media content and reality: some evidence	193

Theories of reality-deviation	196
<i>Functional theory</i>	196
<i>Conspiracy or hegemony theory</i>	197
<i>Organizational theory</i>	197
<i>The audience as determinant</i>	198
<i>Comment</i>	199
Media genres and formats	199
The news genre	203
The centrality of news	203
What is news?	204
News and human interest	206
News values and the structure of news	206
Two versions of the news sequence	208
The form of the news report	209
Chapter 8	
THE MEDIA AUDIENCE	213
Duality of the audience	215
The rise of the audience	216
Alternative concepts of the audience	218
The audience as aggregate of spectators, readers, listeners, viewers	218
The audience as mass	218
The audience as a public or social group	219
The audience as market	220
A typology of audience formation	222
Sources of change	224
The social character of audience experience	226
Group properties of audiences	226
Social differentiation	227
Social interaction	228
Sociability	228
Social uses	229
Social isolation	229
Audience-sender relationships	230
Normative controls	231
Audience activity, satisfactions and uses	233
Theories of audience composition	237
Media institutional history	238
Market management	239
Response to audience demand: giving the public what it wants	239
Differential leisure resources and media availability	240
Functional theory	240
A social-cultural explanation	241

<i>Concluding note</i>	241
The audience as decoder: reception theory and research	242
The influence of the audience on content	244
Critics and fans	244
Institutionalized accountability	244
The working of the market	245
Direct 'feedback'	245
The use of 'audience images'	245
Audience research	246
Conclusion: a shift of balance of audience types	247
 Chapter 9	
PROCESSES OF MEDIA EFFECTS	249
The premise of media effect	251
The natural history of media effect research and theory	252
Phase i: all-powerful media	252
Phase ii: theory of powerful media put to the test	253
Phase iii: powerful media rediscovered	254
Levels and kinds of effect	256
Processes of media effects: a typology	257
Individual response and individual reaction	260
The S-R model	260
Mediating conditions	261
Source-receiver relationships	262
A model of behavioural effect	264
Collective reaction — panic and disorder	266
The campaign	268
General features of the campaign: a model	268
Personal influence in campaign situations	271
Diffusion in a development context	272
Distribution of knowledge	273
News learning and diffusion	274
Agenda-setting	275
Knowledge gaps	276
Long-term change, planned and unplanned: a model	278
Socialization	279
Reality defining	280
The spiral of silence: opinion formation	281
Structuring reality — unwitting bias	282
Cultivation theory	283
Social control and consciousness-forming	285
Effects on other social institutions	289
Event outcomes	291

PREFACE

A note on the application of theory	292
News	292
Advertising and public relations	293
Public information campaigns	294
 Chapter 10	
MASS COMMUNICATION THEORY: A NOTE ON ITS FUTURE	297
On communication theory and media theory: towards a communication science?	299
Main themes of current mass media theory	303
Media as either socially fragmenting or unifying	304
The non-centrality and dependence of the media	305
The media as an object of social and cultural definition	306
The ambiguity and multiplicity of media purpose and message	306
Media freedom and independence	307
Media and power	308
The mixing of normative and objective elements	309
Diversity of models and modes of communication	310
Mass communication in the future and new problems of theory	311
Adaptation of the concepts, models and methods for a communication science	311
<i>Media institution and organization</i>	311
<i>The audience</i>	312
<i>Communication effects</i>	313
<i>Content as information</i>	313
Emerging issues for normative theory of mass communication	315
<i>New technology as ideology</i>	315
<i>Freedom and control</i>	315
<i>Social-cultural problems versus economic-commercial goals</i>	316
<i>Cui bono</i>	317
<i>Future of communication policy</i>	317
 References	319
 Index	339

<i>Concluding note</i>	241
The audience as decoder: reception theory and research	242
The influence of the audience on content	244
Critics and fans	244
Institutionalized accountability	244
The working of the market	245
Direct 'feedback'	245
The use of 'audience images'	245
Audience research	246
Conclusion: a shift of balance of audience types	247
 Chapter 9	
PROCESSES OF MEDIA EFFECTS	249
The premise of media effect	251
The natural history of media effect research and theory	252
Phase i: all-powerful media	252
Phase ii: theory of powerful media put to the test	253
Phase iii: powerful media rediscovered	254
Levels and kinds of effect	256
Processes of media effects: a typology	257
Individual response and individual reaction	260
The S-R model	260
Mediating conditions	261
Source-receiver relationships	262
A model of behavioural effect	264
Collective reaction — panic and disorder	266
The campaign	268
General features of the campaign: a model	268
Personal influence in campaign situations	271
Diffusion in a development context	272
Distribution of knowledge	273
News learning and diffusion	274
Agenda-setting	275
Knowledge gaps	276
Long-term change, planned and unplanned: a model	278
Socialization	279
Reality defining	280
The spiral of silence: opinion formation	281
Structuring reality — unwitting bias	282
Cultivation theory	283
Social control and consciousness-forming	285
Effects on other social institutions	289
Event outcomes	291

INDEX

- activity of institutions, actual, 7, 69–72
actuality – transience, 46
adaptation, 68, 71, 105, 106
Adorno, T., 65, 319
adversarial role of the press, 10, 145–150
advertising, 9, 11, 12–13, 45, 56, 65, 97,
104, 138, 141, 144, 155, 158, 188, 203,
217, 220, 224, 225, 251, 252, 254, 258,
262, 270, 292, 293–294, 295, 302
advocates, 43, 72, 141, 275, 302
aesthetic dimension, 21, 24, 181
aesthetic judgement, 182–183, 232
agenda setting, 273, 275–276, 280, 290,
310
Alexander, J.C., 94, 319
alienation, 60, 228, 229
Allen, I.L., 89, 319
allocutory mode of communication, 41,
42, 47, 216, 303
Altheide, D.L., 161, 169, 180, 201, 209,
319
Althusser, L., 66, 67, 83, 287, 319
Altschull, J.H., 123, 124, 154, 319
ambiguity of meaning, 69, 101, 103, 104,
175, 183, 184, 185, 202, 207, 211, 307
Andrew, D., 200, 319
Ang, I., 224, 243, 319
arousal, 236, 264, 265
art, form and content of, 21, 51
associational mode in mass
communications, 33, 34, 44
associations, communication in, 6, 7, 227
attachment, questions of, 7, 215, 239, 261,
305, 312
attention,
dimension of, 22–23, 33, 34, 39, 82, 242,
260, 268, 269, 280
gaining, 7, 44, 45, 46, 47, 133, 210, 211,
288, 290, 291, 292, 310
giving, 44, 45, 46, 218, 221, 224, 241,
310
model of communication, 44–46, 162
audience,
aggregate vs. group, 215–227, 312, 313
appeal, 15, 240
as a cause of messages, 215
as public, 216–221, 224, 225
behaviour, 34, 39, 54
behaviour, norms governing, 5, 31, 73,
75, 82, 100–101, 177, 221, 227–248,
312
categorization, 218–222, 223, 224, 225,
226, 227, 236, 240
composition, theories of, 237–239
expectation and requirements, 55–56,
69, 72, 73, 74, 82, 86, 104, 109, 142,
150, 176, 198, 199, 201, 205, 207, 222,
223, 224, 226, 231, 232, 233–237,
244–247, 305, 306, 307, 308
formation, 215, 216–217, 218, 219
formation, typology of, 222–226, 227
relation between communicators and,
19, 23, 34, 35–37, 38, 40–41, 44–45,
53–55, 56, 57, 62–65, 68, 74, 86, 87,
103, 142, 144–150, 152–154, 160–162,
198–199, 200–212, 215, 216–226,
230–231, 232, 233, 244–247, 257–295,
310, 311
research, 46, 47, 55–56, 72, 94, 104,
177–212, 215–248, 251–257
authoritarian theory, 111, 112, 127, 204
autism in relations with the audience,
161, 196, 209
autonomy, 95, 102–103, 160, 161, 217, 307
