

Contents

Preface	1
---------	---

Protozoa

Amoebiasis and giardiasis	3
metronidazole	7
diloxanide	9
dehydroemetine	9
chloroquine	11

Babesiosis	13
-------------------	----

Free-living amoebae	14
----------------------------	----

Leishmaniasis	15
----------------------	----

meglumine antimoniate and sodium stibogluconate	19
pentamidine	20
amphotericin B	22

Malaria	24
----------------	----

chloroquine	36
quinine	38
pyrimethamine/sulfadoxine	41
primaquine	43
mefloquine	44
halofantrine	46
tetracycline	47
doxycycline	49
proguanil	50
artemether	51
artesunate	52
artemisinin	53

Miscellaneous intestinal infections	55
--	----

Pneumocystosis	58
-----------------------	----

sulfamethoxazole/trimethoprim	61
pentamidine	63

Toxoplasmosis	65
----------------------	----

pyrimethamine	70
sulfadiazine	71
calcium folinate	73

Trichomoniasis	74
-----------------------	----

metronidazole	76
---------------	----

Trypanosomiasis, African	78
---------------------------------	----

pentamidine	81
suramin sodium	82
melarsoprol	83
eflornithine	85

Contents *(continued)*

Trypanosomiasis, American	87
benznidazole	89
nifurtimox	90

Helminths

Cestode (tapeworm) infections	91
albendazole	95
mebendazole	96
niclosamide	96
praziquantel	97
Intestinal nematode infections	99
albendazole	106
levamisole	106
mebendazole	107
piperazine	108
pyrantel	110
Tissue nematode infections	111
Loiasis	116
diethylcarbamazine	117
Lymphatic filariasis	118
diethylcarbamazine	121
Onchocerciasis	123
ivermectin	126
suramin sodium	127
Schistosomiasis	129
praziquantel	133
metrifonate	134
oxamniquine	135
Intestinal, liver and lung flukes	137
praziquantel	140
Index	141
