PART I THE ECONOMICS OF REGULATING THE LABOR MARKET

1 Labor law and employment regulation: neoclassical and institutional perspectives	3
<i>Bruce E. Kaufman</i>	
1 Neoclassical law and economics	5
A Models and assumptions	6
Efficient allocation of scarce resources	6
Efficiency is defined in terms of consumers' interests	7
The efficiency of competitive markets	7
Fairness, justice and redistribution	7
Personal freedom, initiative and responsibility	8
B Application to labor and employment regulation	9
Labor market regulation	10
Employment mandates	12
C Market failure	14
Imperfect information	14
Asymmetric information	15
Employer market power	15
Externalities and public goods	16
Imperfect decision-making	17
D Countervailing arguments against employment regulation and mandates	17
Market failure: spotty and superficial	18
The efficiency of the common law	18
Government failure is worse than market failure	18
Regulatory capture and rent seeking by special interests	18
The Coase theorem and private bargaining	19
Maximum of liberty and freedom of contract	19
Empirical evidence	19

2	Institutional law and economics	20
A	People, ideas and historical context	20
B	Key IL&E assumptions	24
	Purpose of an economy	24
	Liberty	25
	Labor is human	25
	Ownership and property rights	25
	Institutions	26
	Sovereignty	26
	Behavioral/social model of the human agent	26
	Transactions and transaction cost	26
	Modes of coordination	26
	Power	26
	Reasonable value	27
C	Critique of the competitive model	27
D	Labor's inequality of bargaining power	30
	Imperfect competition	30
	Unequal resources and rights	33
E	Involuntary unemployment and destructive competition	36
F	Efficiency and growth	41
G	Externalities and social costs of labor	46
3	Conclusion	50
	Bibliography	51

PART II GOVERNANCE AND SELF-GOVERNANCE OF EMPLOYMENT RELATIONSHIPS

2	Employment contracts	61
	<i>Ann-Sophie Vandenberghe</i>	
1	Introduction	61
2	Typical features of employment contracts	62
A	Employment as a relational contract	62
B	Firm-specific human capital	63
C	Agency problems	65
3	Termination rules and consequences of termination	68
A	A taxonomy of dismissal doctrines	68
	(i) At-will termination	68
	(ii) Good faith limitation on termination	68
	(iii) Just cause limitation on termination	69
B	The at-will versus just-cause debate	69
	(i) Administrative costs	70

(ii)	Implicit self-enforcing contracts	71
(iii)	Opportunistic terminations	72
(iv)	Conclusion	73
C	Obligations upon termination	74
(i)	No damage compensation	74
(ii)	Notice periods and severance pay	78
(iii)	Covenants not to compete	81
4	Pre-contractual information problems	83
A	Pre-contractual information duties	83
B	Probation periods	85
C	Discriminatory signals	85
5	Other possible failures of individual bargaining	87
6	Conclusion	88
	Bibliography	90
3	Regulating unions and collective bargaining	96
	<i>Kenneth G. Dau-Schmidt and Arthur R. Traynor</i>	
1	Introduction	96
2	Regulations to protect and foster employee organization: the market for union services	98
A	The market for union services	98
B	Government regulation to foster employee organization	100
C	The rise and fall of unions in the American private sector	101
3	The impact of unions on equity, efficiency and voice	103
A	The monopoly model of unions	103
B	Other sources of union wage and benefit increases	106
C	The efficient contract model	110
D	The median voter model	113
4	Regulating the conduct of collective bargaining and contract enforcement	114
A	Models of the bargaining process	114
(i)	Union resistance and employer concession curves	115
(ii)	Bargaining power	116
B	Models of strikes	117
(i)	Imperfect information	118
(ii)	Strategic behavior	119
5	Conclusion	122
	Bibliography	123

PART III EMPLOYMENT TERMS AND CONDITIONS
AND THEIR REGULATION

4	Investments in adult lifelong learning	131
	<i>Lisa M. Lynch</i>	
1	Introduction	131
2	Theoretical framework	132
3	Empirical evidence: returns to post-school human capital investments	135
4	Policy responses: a general framework	139
5	Policy responses: specific examples	142
	Training levies	142
	Training funds	142
	Paid training leave	143
	Tax rebates and deductions	143
	Individual training accounts	144
6	Conclusion	145
	Bibliography	146
5	Minimum wage legislation	150
	<i>Simon Deakin and Frank Wilkinson</i>	
1	Introduction	150
2	Types of minimum wage legislation	150
3	Standard neoclassical theory on minimum wages	154
4	Recent empirical evidence: a basis for reassessing standard theory?	155
5	Alternative theoretical perspectives	157
6	Dynamic effects of introducing and raising the minimum wage	159
7	The minimum wage, household poverty and work incentives	162
8	Conclusion	166
	Bibliography	167
6	Health insurance	172
	<i>David A. Hyman</i>	
1	Introduction	172
2	Factors encouraging employment-based health insurance	174
3	Consequences of linking employment and health insurance	176
4	Regulation of employment-based health insurance	177
5	Employer mandates and ERISA	180
	Bibliography	181

7	International executive pay: current practices and future trends	183
	<i>Randall S. Thomas</i>	
1	Introduction	183
2	US pay practices	184
	A High pay for performance levels	184
	B High compensation levels	186
3	CEO pay in other countries	186
	A Lower levels of performance-based pay than in the US	188
	B Lower CEO pay outside the US	191
	C Evidence of compensation convergence	193
4	Market-oriented drivers of executive pay	196
	A Evolving share ownership patterns	196
	(i) Sweden	197
	(ii) Germany	197
	(iii) China	198
	(iv) India	199
	(v) Impact of changes to ownership structures on executive compensation	200
	B Cross-border hiring	201
	C Transnational mergers and acquisitions	204
	D The growth of multinational enterprise	205
	E Conclusion	207
5	Corporate law and the globalization of executive pay	207
	A Direct regulation	207
	B Breach of duty and related causes of action	208
	C Shareholder voting	210
	D Restrictions on the distribution of stock to executives	211
	E Disclosure	212
6	Other legal factors	215
	A Tax	215
	B Labor law	216
7	'Soft law'	217
8	Culture	219
9	Conclusion	222
	Bibliography	224
8	Workers' compensation	235
	<i>John F. Burton, Jr</i>	
1	Introduction	235
2	Coverage	237
	A Coverage <i>de jure</i>	237
	(i) Coverage of workers and employers	237

xii *Labor and employment law and economics*

(ii)	Coverage of injuries and diseases	237
B	Coverage <i>de facto</i>	238
(i)	Coverage of workers and employers	238
(ii)	Coverage of injuries and diseases	239
(iii)	Who pays for the coverage?	241
3	Safety	243
A	Trends in workplace safety and health	243
B	Approaches to workplace safety	244
(i)	Tort law	245
(ii)	Workers' compensation	249
C	General assessment of safety	252
4	Cash benefits	253
A	Operational approaches	253
B	Types of cash benefits	254
(i)	Temporary total disability benefits	254
(ii)	Permanent partial disability benefits	254
(iii)	Permanent total disability benefits	255
(iv)	Death benefits	256
C	Adequacy	256
D	Equity	257
(i)	Equity for disability ratings	258
(ii)	Equity for replacement rates	258
(iii)	Assessments of equity	259
5	Medical care and rehabilitation services	260
A	Medical benefits in theory	260
B	Medical benefits in practice	260
C	Performance studies	261
D	Policies to improve performance	262
E	Separate health care systems	263
6	Delivery system	265
A	Delivery system models	265
B	Insurance arrangements	266
7	Conclusions	267
	Bibliography	268
9	Occupational safety and health regulation	275
	<i>Sidney A. Shapiro</i>	
1	Introduction	276
A	Spillover costs	276
B	Wage premiums	276
C	Regulation and efficiency	277
2	Labor markets	278

A	Empirical evidence of wage premiums	278
B	Adequacy of wage premiums	279
C	Reform	281
3	Regulation	281
A	OSHA's mandate	281
B	Empirical evidence of effectiveness	282
C	Adequacy of administrative regulation	284
(i)	The inefficacy theory	284
(ii)	Non-compliance theory	285
(iii)	Overregulation causes underregulation	285
C	Reform of standard-setting	286
D	Reform of enforcement	287
(i)	Prosecutorial approach	287
(ii)	Cooperative model	288
4	Conclusions	291
	Bibliography	292
10	Employment discrimination	296
	<i>Stewart J. Schwab</i>	
1	Scope of law and economics analysis of employment discrimination	296
2	Definitions of discrimination	296
3	Economic models of discrimination	299
A	Becker's taste for discrimination model	299
B	Statistical discrimination	303
C	Sorting model	305
D	Status-production and other cartel models of discrimination	306
4	The economic role of antidiscrimination laws	307
5	Empirical studies of employment discrimination law	310
6	Special issues in sex discrimination laws	313
	Bibliography	317
11	Accommodating families	320
	<i>Joyce P. Jacobsen</i>	
1	Introduction	320
2	Rationales for intervention	320
3	Economic theory	322
4	Existing laws and policies	324
5	Empirical work	328
6	Conclusion	334
	Bibliography	338

xiv *Labor and employment law and economics*

12	Workplace disability	342
	<i>Seth D. Harris and Michael Ashley Stein</i>	
1	Introduction	342
2	Economic theory	343
3	Empirical work	349
4	Areas for further empirical study	353
	A Educational attainment	353
	B Health care	354
	C Discrimination	355
	Bibliography	357
13	Adjudication of workplace disputes	361
	<i>Douglas M. Mahony and Hoyt N. Wheeler</i>	
1	The nature of alternative dispute resolution procedures	362
2	Employment arbitration and the law	366
3	Employment arbitration and collective bargaining	375
4	The evidence on employment arbitration	378
	A Who prevails?	378
	B Amounts recovered	383
	C Why outcomes vary	385
5	Conclusions	390
	Bibliography	390

PART IV REGULATING EMPLOYMENT OF SPECIAL POPULATIONS

14	The economics of child labor	399
	<i>Alessandro Cigno</i>	
1	Introduction	399
2	Theory	400
3	Evidence	406
4	Policy	410
	Bibliography	413
15	The economics of slavery, forced labor and human trafficking	418
	<i>Patrick Belser</i>	
1	Introduction	418
2	Slavery	419
	A The legislation	419
	B The magnitude of slavery	420
	C Demand and supply in the repugnant market	421

D	Economic theory	423
E	Empirical analysis	424
	(i) The profitability of slavery	424
	(ii) The 'Williams hypothesis'	426
F	Slavery and its legacy today	426
3	Forced labor and human trafficking	427
A	The legislation	427
B	The magnitude of contemporary forced labor and trafficking	430
C	Demand for and supply of exploitable labor	431
D	Economic theory	433
	(i) Models of coercion	433
	(ii) Bonded labor	434
	(iii) Human trafficking	435
	(iv) Market failure and comparative advantage	435
E	Empirical analysis	437
F	State-imposed forced labor	439
	Bibliography	440

PART V GOVERNING TERMINATION AND POST-EMPLOYMENT RELATIONSHIPS

16	Discharge	447
	<i>J.H. Verkerke</i>	
1	Introduction	447
2	The legal framework	449
	A US employment and labor laws	449
	B International comparisons	452
	C Trends and legal change	453
3	Theoretical ambiguity	455
	A Predicted effects	455
	B Market failures	458
4	Empirical investigation	460
	A International comparative perspective	460
	(i) Early work	461
	(ii) More recent investigations	463
	B Identifying the effects of US state laws	465
	C Political economy of employment protection	469
5	Challenges	471
	A Some inconvenient facts	472
	B Spillover effects	473
	Bibliography	474

17	Unemployment	480
	<i>Stephen A. Woodbury</i>	
1	Defining and measuring unemployment	480
A	Types of unemployment	480
B	An illustration	482
C	Measuring unemployment	483
D	The unemployment rate and related labor force statistics	485
2	Modeling unemployment	487
A	Job-search and the reservation wage model	487
B	Job-matching and the trade-frictions approach	489
3	Unemployment insurance	490
A	Eligibility and benefit determination	491
B	UI benefit adequacy	493
C	Disincentive effects of UI and optimal UI benefits	496
D	Financing unemployment insurance	497
E	Policy issues in financing UI	499
F	Trust fund adequacy	499
G	Tradeoffs in the UI system	500
4	Training programs and re-employment policies	501
A	A brief history	501
B	Earnings losses of dislocated workers	504
C	How effective are training programs?	506
D	Intensive job search assistance	510
	Bibliography	511
18	Intellectual property and restrictive covenants	517
	<i>Orly Lobel</i>	
1	Introduction	517
2	Regulatory and contractual controls over employment-based intellectual property	518
A	Non-competition agreements	519
B	Trade secrets	523
C	Invention assignment	526
3	The information economy and the new world of work: industry-dependent policy?	528
4	Conclusion	531
	Bibliography	532
19	Pensions and retirement	539
	<i>Jonathan Barry Forman</i>	
1	Introduction	539
A	Background: a brief history of retirement	539

B	Overview of the current US pension system	540
C	The international experience	542
2	Types of pension plans	543
A	Defined benefit plans	543
B	Defined contribution plans	544
C	'Hybrid' retirement plans	544
D	Individual retirement accounts and Keoghs	545
E	Nonqualified deferred compensation arrangements	545
F	Retiree health benefits	546
3	Regulation of pension plans	546
A	Participation	548
B	Coverage	548
C	Vesting	548
D	Benefit accrual	549
E	Limits on contributions and benefits	549
F	Nondiscrimination	549
G	Other benefit rules	550
	(i) Annuity payouts and lump-sum distributions	550
	(ii) Normal retirement age and age discrimination	550
	(iii) Premature distributions	551
	(iv) Minimum distribution age	551
	(v) Funding	551
4	The economics of pension plans	552
A	The life cycle model	552
B	Behavioral economics	552
C	The economics of tax deferral	554
	(i) Qualified plans	554
	(ii) The saver's tax credit	556
	(iii) Roth arrangements	556
	(iv) Nonqualified deferred compensations arrangements	556
D	The economics of pension funding	557
E	The economics of pension investing	558
F	The economics of Pension Benefit Guaranty Corporation (PBGC) insurance	559
5	The financial incentives created by pension plans	560
A	Tax preferences for pension savings reduce the work disincentives inherent in the taxation of earned income	561
B	The accumulation of pension wealth encourages early retirement	562
C	Benefit accrual patterns influence decisions about work and retirement	563

(i)	Traditional pensions penalize mobile workers	565
(ii)	Traditional pensions push workers into retirement	566
(iii)	Defined contribution plans and cash balance plans tend to be neutral about the age of retirement	568
D	Retiree health benefits also influence the timing of retirement	569
6	Other retirement policy issues	569
A	Only about half of Americans have pensions	569
B	The current system may not provide adequate retirement incomes	572
C	There are fewer traditional defined benefit plans	572
D	The trend toward phased retirement and bridge jobs	573
E	The decline of annuitization	573
	Bibliography	574

PART VI GOVERNING GLOBAL LABOR MARKETS

20	Migration and labor markets: a brief survey	585
	<i>Jagdeep S. Bhandari</i>	
1	Introduction	585
2	Immigration and the labor market in the host country	586
3	The neoclassical model	586
4	Empirical results for the US	588
A	Spatial studies	589
B	Aggregate studies	592
C	Effects on the high skills market in the US	594
5	Results from other countries	596
A	Germany	596
B	The United Kingdom	598
6	Conclusion	600
	Bibliography	601
21	Employee collective action in a global economy	606
	<i>Jeffrey M. Hirsch</i>	
1	Introduction	606
2	Economic models of collective action	607
A	Monopoly or cartel theory	607
(i)	Monopolistic strategies	607
(ii)	Means to achieve control over the supply of labor	609

B	Other theories of unionism	611
C	Conclusion	613
3	Employee collective action in a global workplace	614
A	Traditional monopolistic pressure	614
B	Global coordination of employee groups	616
C	Codes of conduct	619
D	International treaties and standards	623
4	Conclusion	625
	Bibliography	626
22	National regulation in a global economy: new governance approaches to 21st century work law	630
	<i>Orly Lobel</i>	
1	Introduction	630
2	Globalization and its effects on national regulation	631
3	Market and non-market ordering of the employment relationship	636
4	New governance approaches to national regulation	640
5	Sequenced regulation	643
6	Experiments in third-way regulatory approaches	646
7	Conclusion	651
	Bibliography	651
23	International labor standards and international trade: an economic overview	666
	<i>Richard N. Block and Jonas Zoninsein</i>	
1	Introduction	666
2	Definition of international labor standards	667
3	The economics of international labor standards: a summary	668
A	Economic arguments against the imposition of international labor standards	668
B	Economic arguments supporting the imposition of international labor standards	669
C	Comparing the arguments	670
4	Selected models of international labor standards: the International Labor Organization and the European Union	671
A	The International Labor Organization	671
B	The European Union	673
(i)	Working hours	674
(ii)	Collective bargaining	675
(iii)	Discrimination	675
(iv)	Occupational safety and health	675

(v)	Notice of large-scale layoffs	675
(vi)	Employee participation	675
(vii)	Maternity and parental leave	675
(viii)	Transfer of ownership	675
5	Trading blocs and labor standards	676
A	NAFTA	676
B	MERCOSUR	677
C	ASEAN	679
6	Summary and conclusions	680
	Bibliography	681

PART VII THE FUTURE OF LABOR AND EMPLOYMENT LAW

24	A labor law for the digital era: the future of labor and employment law in the United States	689
	<i>Katherine V.W. Stone</i>	
1	Labor and employment law in the past	690
A	The three new deal labor statutes	691
B	The operation of the collective bargaining laws	692
(i)	The concept of the bargaining unit	692
(ii)	Secondary boycott prohibitions	693
(iii)	The definition of employee and employer	695
(iv)	The act's <i>de facto</i> exclusion of temporary workers	696
C	Statutory protections for individual employees	697
2	The demise of the new deal system and the state of labor and employment law today	699
3	Labor law and employment protection in the future	702
A	Collapsing the distinction between labor and employment law	703
B	Shifting from collective bargaining to legislation to set employment conditions	707
C	Expanding collective bargaining to new groups, particularly geographically defined groups	709
D	Broadening the labor and employment law field	711
E	Creating a new type of safety net such as workplace sabbatical/social drawing rights	712
4	Conclusion	714
	Bibliography	715
	<i>Index</i>	719
