<i>Preface to the Columbia Edition</i>	xi
<i>Preface</i>	xvii
<b>PART I INTRODUCTION</b>	1
1 Clarification of the basic concept: what is a nation?	3
2 Special features of the formation of small nations	8
3 Subjective and objective components of national consciousness	11
4 The social characteristics of the bearers of national agitation	14
5 The comparative method	18
6 The periodization of the revival of small nations	22
7 A typology of the national movement as the point of departure in the selection of national movements to be studied	25
<b>PART II THE SOCIAL STRUCTURE OF THE INDIVIDUAL PATRIOTIC GROUPS</b>	31
8 The integrated type in conditions of political autonomy: the Norwegians	33
9 Integration heightened by revolution: the Czech national movement in Bohemia	44
10 Integration without revolution: the Finns	62
11 At the point of transition to the belated type: the Estonians	76
12 A national movement of the belated type: the Lithuanian example	86
13 Belatedness under the influence of external oppression: the Slovak national movement	98

14	The disintegrated type: the Flemish movement	107
15	An example of a minority national movement: the Danes in Schleswig	117

PART III COMPARATIVE ANALYSIS	125
-------------------------------	-----

16	The share of the individual classes and social groups (the ruling class of the old society; the industrial bourgeoisie; the small-scale craft producers and the petty bourgeoisie; the free professions and the urban patriciate; the officials; the Catholic and Protestant clergy; the teachers in primary and secondary schools; the students; the peasantry)	
17	The fundamental components of the social structure (the social origin of the patriots; town and country; the rich and the poor, the criterion of wealth; young and old – the generation criterion)	155
18	The territorial structure (territorial characteristics; linguistic characteristics; the impact of school education; economic relations; exchange relations)	163

PART IV CONCLUSION	175
--------------------	-----

<i>Notes</i>	192
