Contents

<i>Notes on Contributors</i>	x
<i>Preface</i>	xii
<i>Acknowledgements</i>	xvii
1 What is Educational Research?	1
<i>Clive Opie</i>	
What is educational research	2
Can I do educational research?	12
Summary	13
2 Methodology, Procedures and Ethical Concerns	15
<i>Pat Sikes</i>	
Working definitions	16
Selecting methodologies and procedures	17
Researcher positionality	18
Ethical issues and questions	24
Summary	32
3 Writing Research	34
<i>David Hyatt</i>	
Expected requirements for student academic writing	34
A consideration of academic writing conventions	40
Audience in academic writing	45
Feedback	46
Structuring your research-based assignment	49
Some advice I've been given (or wish I'd been given!)	53
Conclusion	56
Summary	57

4 Reliability, Validity and Credibility	58
<i>Jon Scaife</i>	
Statements	59
Connections	61
The quality of statements and relationships: reliability, validity and credibility	64
Summary	72
5 Research Approaches	73
<i>Clive Opie</i>	
Case study	74
Action research	79
Experiments	87
Grounded theory	93
Summary	94
6 Research Procedures	95
<i>Clive Opie</i>	
Questionnaires	95
Interviews	111
Observational research	121
Summary	129
7 Presenting Data	130
<i>Clive Opie</i>	
PART 1 – Quantitative Data	131
Types of quantitative data	131
Statistical analysis of quantitative data	132
Presentation of data	139
PART 2 – Qualitative Data	151
Lexical analysis of SphinxSurvey	152
Summary	161
8 Using NUD•IST	162
<i>Ann-Marie Bathmaker</i>	
About the research	162
Organising and analysing the data	166
Using NUD•IST	167
Reflections on using the software	173
Conclusion: Do you want to do that?	177
Summary	177

9 Using ATLAS.ti	179
<i>Michael Pomerantz</i>	
What is ATLAS.ti?	179
Project methodology overview	182
Analysis of the audio transcripts with ATLAS.ti	185
Findings from the data analysis	192
Summary	198
10 Quantitative Analysis: A Glossary of Terms	199
<i>Clive Opie</i>
