
CONTENTS

Foreword	5
1. Introduction to seismic hazard and seismic risk	7
2. Regional catalogue of earthquakes with $I_0 \geq 6$ °MSK-64 ($M \geq 4$)	17
3. Focal regions and regions with diffuse seismicity in Central Europe	37
4. Maximum possible earthquakes in individual regions	77
5. Maximum possible earthquakes (max I_0) for seismoactive faults in Central Europe	81
6. Attenuation of intensities with distance and methodology for determination of intensity in given place	121
Literature	125
