

# Contents

Preface .....	V
Contents .....	IX
List of Abbreviations .....	XIII
Glossary of Symbols .....	XV
<b>Chapter 1 General Discussion.....</b>	<b>1</b>
1.1 A simple case (single input and single output) .....	1
1.2 Two inputs and one output.....	6
1.3 One input and two outputs.....	10
1.4 Two inputs and two outputs.....	12
<b>Chapter 2 Basic DEA Models.....</b>	<b>17</b>
2.1 The CCR model.....	17
2.2 Numerical Example.....	22
2.3 The Output-oriented CCR model.....	25
2.4 Production Possible Set .....	27
2.5 Envelopment form of the CCR model .....	33
2.6 Application (Bank industry) .....	36
2.7 The BCC model.....	39
2.8 The output-oriented BCC model.....	41
2.9 Without explicit inputs/outputs DEA models.....	42
2.9.1 WEI-DEA models .....	43
2.9.2 Industrial robot evaluation problem.....	45
2.9.3 WEO-DEA models .....	46
2.9.4 Financing decision problem.....	49
2.10 The additive model .....	50
<b>Chapter 3 GAMS Software .....</b>	<b>53</b>
3.1 The GAMS software.....	54
3.2 GAMS IDE.....	54
3.3 Structure of GAMS codes .....	55
3.4 Running a model .....	62
3.5 Navigating the listing file.....	62

3.6	Listing Window .....	63
3.7	Compilation.....	64
3.8	Equation listing.....	67
3.9	Column listing .....	68
3.10	Model Statistic.....	69
3.11	Solution report.....	69
3.12	\$Include option.....	71
3.13	The Put Writing Facility .....	72
3.14	GAMS Data Exchange (GDX) .....	77
<b>Chapter 4 Weights in DEA .....</b>		<b>81</b>
4.1	Weight restrictions .....	85
4.2	Some other approaches.....	88
4.3	Common set of weights .....	92
4.3.1	Integrated minsum approach .....	92
4.3.2	Integrated minimax approach .....	97
4.3.3	Facility layout design problem .....	97
<b>Chapter 5 Best Efficient Unit.....</b>		<b>101</b>
5.1	Multi-input and multi-output case .....	102
5.2	DEA-WEI approach.....	113
5.2.1	Penalty function approach .....	114
5.2.2	Minimax approach .....	115
5.2.3	Professional tennis players.....	117
5.2.4	New minimax method .....	119
5.3	DEA-WEO approach.....	121
5.4	Epsilon-free approaches .....	124
5.5	Most cost efficient DMU.....	130
5.5.1	CE with input price uncertainly .....	130
5.5.2	Turkish automotive company.....	133
<b>Chapter 6 Data Selection in DEA .....</b>		<b>135</b>
6.1	Flexible measures .....	135
6.1.1	Multiplier approach .....	136
6.1.2	University evaluation.....	139
6.1.3	Envelopment approach.....	143
6.2	Selective measures.....	146
6.2.1	The rule of thumb in DEA .....	146
6.2.2	Multiplier form of selecting model .....	148
6.2.3	Envelopment form of selecting model.....	151
6.2.4	Aggregate approach.....	154
6.2.5	Banking industry applications.....	156

Chapter 7 Conclusion.....	161
Appendix.....	163
References .....	183
List of Tables .....	191
List of Figures .....	193
Index.....	195
Summary .....	201
