

Content

Preface	13
1. Review of Literature Sources and Current Knowledge	17
1.1. Principles of Blood Donation	18
1.1.1. Whole Blood Donation	18
1.1.2. Automated Collections	18
1.2. Multicomponent Collections—Description	21
1.3. Selection Criteria for Blood Donors	25
1.4. Aphereses Impact on Blood Donors	29
1.4.1. Direct Effects of Aphereses on Donors	29
1.4.2. Long-term Effects of Apheresis on Donors	31
1.5. Quality of Blood Products	34
1.5.1. Quality Parameters of Blood Products	34
1.5.2. Blood Cell Storage Lesion	34
1.5.3. Quality of Blood Products Made by Multicomponent Collections	39
2. Study Objectives	43
3. Methods	47
3.1. Blood Separators and Collection Protocols	47
3.2. Donors	51
3.3. Evaluated Parameters	54
3.3.1. Markers of Direct MCC Impact on Donor Health Condition	54
3.3.2. Markers of Long-term Impact on Donor Health Condition	56
3.3.3. Apheresis Parameters	56

3.3.4.	Quality Parameters of Blood Products	56
3.4.	Laboratory Analysis	57
3.5.	Control Group	59
3.6.	Statistical Methods	61
4.	Results	65
4.1.	Apheresis Parameters	65
4.2.	Impact of Aphereses on Blood Donors	70
4.2.1.	Immediate Impact of MCC on Donor Health Condition	70
4.2.2.	Long-term Influence of MCC on Blood Donors	72
4.3.	Quality of Blood Products	81
4.3.1.	Quality Parameters of Red Cell Concentrates	81
4.3.2.	Quality Parameters of Platelet Concentrates	90
4.4.	Selection Criteria for Blood Donors	102
5.	Discussion	107
5.1.	Influence of Methodology on Donor Health Condition	107
5.2.	Quality of Blood Products	109
5.3.	Selection Criteria for Blood Donors	117
5.4.	Indication Criteria for Blood Products	120
5.5.	Economy	120
5.6.	Outlook for the Future	121
6.	Realization of the Study Goals	125
6.1.	Evaluation of Direct Influence of MCC on Donor Health Condition	125
6.2.	Evaluation of Long-term Influence of MCC on Donor Health Condition	126
6.3.	Evaluation of Quality Parameters and Storage Lesions in Products	126
6.4.	Modification of Selection Criteria for Donors of Multicomponent Collections	127

6.5.	Indication Criteria of Products Obtained by MCC Method in Hemotherapy	126
6.6.	Economic Evaluation of MCC Method	128
7.	Conclusion	131
8.	Supplement	135
8.1	Reference Matter	135
8.2	List of Abbreviations	149
8.3	List of Tables and Graphs	150
	Acknowledgements	153
