

## Table of contents

<b>A. Geological background</b> .....	5
A.1 Geological background.....	5
A.2 References.....	10
<b>B. Pre-conference field trip – Czech Republic (June 14-17, 2015)</b> .....	13
B.1 Granitic pegmatites of the Moldanubian Zone, Czech Republic.....	13
B.1.1 Granitic pegmatites from the Moldanubian Zone – Classification.....	13
B.1.2 Geochronology.....	16
B.1.3 Links between pegmatites and magmatic/ metamorphic processes.....	16
B.1.4 Comparison with other pegmatites worldwide.....	17
B.2 Field stops.....	21
<u>Day 1 – June 15, 2015</u>	
Field stop B.2.1: Starkoč (closed quarry).....	21
Field stop B.2.2: Příbyslavice (closed quarry).....	26
Field stop B.2.3: Vlastějovice (open quarry).....	33
<u>Day 2 – June 16, 2015</u>	
Field stop B.2.4 Oslavice (outcrop at the road).....	41
Field stop B.2.5 Horní Bory (open quarry).....	46
Field stop B.2.6 Rožná (closed quarry and dumps).....	49
<u>Day 3 – June 17, 2015</u>	
Field stop B.2.7 Věžná V (outcrop in the forest).....	57
Field stop B.2.8 Věžná I (closed quarry).....	61
B.3 References.....	67
<b>C. Post-conference field trip – Poland (June 20-21, 2015)</b> .....	73
C.1 Granitic pegmatites of the Polish part of the Sudetes, Poland.....	73
C.1.1 Introduction to granitic pegmatites in Poland.....	73
C.1.2 Pegmatites of the Cadomian basement.....	73
C.1.3 Pegmatites related to anatectic melts generated during the Variscan orogeny.....	73
C.1.4 Variscan pegmatites related to the late- to post-tectonic igneous activity.....	75
C.2 Field stops.....	79
<u>Day 1 – June 20, 2015</u>	
Field stop C.2.1 Piława Górna (open quarry).....	79
Field stop C.2.2 Szklary (dumps).....	84
<u>Day 2 – June 21, 2015</u>	
Field stop C.2.3 Michalkowa (mine dumps).....	88
Field stop C.2.4 Strzegom (open quarry).....	91
Field stop C.2.5 Zimnik (open quarry).....	96
C.3 References.....	98
