

Table of Contents

Preface	viii
Executive Summary	2
Aims and target audience	6
1. Introduction	7
1.1 What is monitoring and evaluation?	9
1.2 Aspects of a mental health policy and plan requiring evaluation	10
1.3 Monitoring and evaluating a mental health policy and plan	12
1.4 Research methods for evaluating a mental health policy and plan	14
1.4.1 Experimental designs	15
1.4.2 Non-experimental designs	15
1.4.3 Economic evaluation	17
1.4.4 Common data collection methods	18
1.4.5 Low-cost/quick research	19
2. Framework for setting up and conducting evaluation of the policy and plan	20
Step 1. Clarifying the purpose and scope of the monitoring and evaluation	22
Step 2. Identifying the evaluators and funding for the evaluation	22
Step 3. Assessing and managing ethical issues	24
Step 4. Preparing and implementing the operational plan for the evaluation.	26
Step 5. Analysing the evaluation data, including unintended outcomes, and reporting the results	26
3. Case study: An evaluation of a national mental health policy and plan in a hypothetical country	29
3.1 The policy and plan of the country	29
3.2 Applying the framework for setting up and conducting the evaluation of the policy and plan	48
3.3 Evaluation of the process for developing the mental health policy and plan and their contents.	54
3.4 Monitoring and evaluating implementation of the plan	88
3.5 Additional evaluations	104
3.6 Evaluating the policy objectives	106
4. Recommendations and conclusions	115
Annex 1. Checklist for evaluating a mental health policy	117
Annex 2. Checklist for evaluating a mental health plan	129
Annex 3. WHO Assessment Instrument for Mental Health Systems (WHO-AIMS 2.2)	146
References	148
