Introduction.....	9
1 Introduction to reading literacy.....	11
1.1 Definition of the terms and reading literacy development models.....	11
1.2 Framework Educational Programme for Primary Education in the Czech Republic	14
1.3 Field of education: Language and communication through in relation to reading literacy	16
1.4 An overview of methods of assessing reading skills and the current state of the assessment process.....	22
2 Understanding texts.....	25
2.1 Reading comprehension from the point of view of cognitive linguistics	25
2.2 Reading comprehension as a multi-level process	27
2.3 Linguistic and cognitive processes involved in reading comprehension.....	30
3 Cognitive and linguistic requirements for primary school students with regard to the development of reading comprehension.....	33
3.1 Cognitive structures in early school age	33
3.2 Metacognitive processes.....	35
3.3 Metacognition in relation to content areas	39
3.4 Language and language development in early school age	42
3.5 Mediated constructivism theory	43
3.6 Programmes and tools designed to stimulate cognitive functions.....	44
4 Research description.....	46
4.1 Definition of the research problem, research questions, sampling method, research methods and schedule.....	46
4.2 Research procedure.....	49
5 Content analysis and interpretation of the study units	52
5.1 Study unit – How does the phone recognise whom I want to call?.....	52
5.2 Study unit – How does a mobile phone work?	54
5.3 Study unit – Why do cats purr?.....	57
5.4 Study unit – Why do a cat's eyes glow in the dark?	59
5.5 Study unit – Why does helium make your voice sound funny?	61

5.6	Study unit – How does a clock know what time it is?	63
5.7	Study unit – How does an alarm clock know when it needs to go off?	65
5.8	Study unit – How does the lead get into a coloured pencil?.....	67
5.9	Study unit – How does wood become paper?	69
5.10	Study unit – How do binoculars work?.....	71
5.11	Study unit – How does the movement of a computer mouse translate into the movement of the pointer on a monitor?.....	73
5.12	Study unit – How does a traffic light know when it needs to switch?	75
5.13	Study unit – How do ventriloquists talk without moving their lips?	77
5.14	Study unit – How do bees make honey?	79
5.15	Study unit – Why do fireflies glow?	81
5.16	Study unit – How do the letters get into a book?	83
5.17	Study unit – How does a caterpillar become a butterfly?.....	84
5.18	Study unit – How does the image form in a camera?.....	86
6	Content analysis and interpretation of results from cloze tests and tasks designed to assess the use of metacognitive strategies	88
6.1	Cloze tests.....	88
6.2	Tasks designed to assess the subjects' use of metacognitive strategies.....	92
Conclusion		96
References.....		101
