

# Table of contents

1. Transport telematics .....	5
2. Transport telematics benefits.....	16
3. ITS architecture.....	25
4. European ITS architecture FRAME.....	30
5. Further usage of ITS architecture.....	77
6. US national architecture.....	87
7. Architecture assessment - US architecture recommendation.....	101
8. ITS organizations.....	106
9. International standardization bodies in the ITS area.....	112
10. Telecommunication environment for transport telematics .....	122
11. Cooperative systems – principles.....	146
12. Cooperative systems – motivation, deployment .....	152
13. Cooperative systems applications.....	165
14. Cooperative systems applications examples.....	175
15. Telecommunication technologies for cooperative systems.....	198
16. History of cooperative systems projects.....	204
17. Resent cooperative systems projects.....	220
18. Cooperative systems worldwide .....	234
19. Cooperative systems applications design.....	245
20. Autonomous vehicle.....	252
21. Intelligent highway.....	261
22. Cooperative systems in the Smart cities concept.....	272
Abbreviations.....	276
References.....	278
