

TABLE OF CONTENTS

THE LIST OF DESIGNATIONS AND ABBREVIATIONS	5
1 INTRODUCTION.....	6
2 LITERATURE REVIEW	7
2.1 Characteristics of the selected types of corrosion of metals	7
2.1.1 Electrochemical corrosion	7
2.2 A study of corrosion resistance, electrolytic coatings	9
3 SURFACE COATING OF METALLIC MATERIALS	10
4 GENERAL CHARACTERISTICS OF THE PROCESS OF ELECTROLYTIC DEPOSITION OF METALS AND THE IMPORTANCE OF PROPER SELECTION OF COATINGS	14
4.1 Copper plating.....	15
4.2 Nickel plating.....	15
4.3 Chrome plating.....	16
5 THE PURPOSE AND SCOPE OF WORK	17
6 RESEARCH METHODOLOGY.....	18
7 A DESCRIPTION OF STUDIES CONDUCTED RESEARCH OBJECT ANALYSIS.....	19
7.1 Research object analysis.....	19
7.2 Bacteria identification at corroded construction's elements surface	22
7.3 Material for research.....	23
7.4 Preparation of samples for research.....	24
7.5 An assessment of the geometric structure surface of samples before and after the application of metallic coatings.....	24
7.6 Electrolytic metal coatings – Ni, Cr, Cu	26
7.7 Evaluation of the surface layer of metallic coatings imposed.....	28
7.8 Metallographic tests.....	31
7.9 X-ray microanalysis.....	34
7.10 Potentiodynamic corrosion tests	38
8 A SUMMARY AND DISCUSSION OF RESULTS.....	41
9 SOCIAL BENEFITS	44
10 CONCLUSIONS	45
LITERATURE.....	46
AUTHOR'S PUBLICATION.....	47
